

THE YOUTHBUILD COLLABORATIVE of SOUTHERN CALIFORNIA
MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding is between _____
Name of Agency
and The YouthBuild Collaborative of Southern California.

This agreement is in effect from July 1, 2022 (or the date it is signed whichever is later) through June 30, 2023.

INTRODUCTION

The purpose of this Memorandum of Understanding is to describe a working relationship between YouthBuild organizations in Southern California and YouthBuild USA. Each of these organizations recognizes that at-risk youth and opportunity youth have the potential to contribute to our society and represent a valuable resource which is currently marginalized by existing social, political and economic institutions. Each of the Southern California YouthBuild organizations and YouthBuild USA currently support (or are in the process of planning programs that will support) the empowerment of at-risk youth and opportunity youth through education, construction job training and leadership development. These programs will enable youth to complete high school education and/or a GED certificate and contribute to their communities by building affordable housing. All organizations support the model of education, job philosophy and principles of YouthBuild USA and those organizations with operating programs are members of YouthBuild USA's Affiliated Network or are in the process of applying for such membership.

The organizations have been actively seeking ways to collaborate which would enhance the effectiveness of individual YouthBuild programs in Southern California and demonstrate, through this collaborative, a national model for how multiple agencies working together can create a greater impact on the needs of at-risk youth.

The organizations now wish to formalize their working relationship and agreements and have created this memorandum of understanding for that purpose.

PURPOSE OF THIS AGREEMENT

This agreement is intended to provide an initial basis for the organization of collaborative efforts between Southern California sites and YouthBuild USA. The agreement binds each of the participating organizations for a period of twelve months to engage in a collaborative strategic planning process and further the development of the collaborative, its structure and governance. It is intended and expected that the Collaborative will continue beyond twelve months and that many of the provisions established in this agreement will remain in place.

This memorandum of understanding does not preclude individual members of the Collaborative from entering into agreements, giving and receiving sponsorships and endorsements and participating in any other activities with other Collaborative members or entities outside the

Collaborative as long as such activities are not conducted in the name of the Collaborative or conflict with the objectives of the Collaborative.
