SAVE THE CAT HOUSE!!!**

The Right Honorable J. Thomas Madden, lawyer extraordinaire in Moundsville and bon vivant in Wheeling (or is he--it's slipped my mind--a bon vivant in Moundsville and lawyer extraordinaire in Wheeling) said it couldn't be done. "I know that you've done some wild stuff, Herbie Furbee,"

he said, "like you're almost the definition of 'off-the-wall'--nothing personal, of course, you know what I mean, but there is no way not even you can get THE FABLED EARL OF ELKVIEW, a/k/a GEORGE DAUGHERTY, ESQUIRE to drive from Charleston to Belington, Barbour County, West Virginia to put on his famed STAND UP FOR WEST VIRGINIA show to SAVE THE CAT HOUSE !!!

Never !!! No way !!! And I'll even bet the Madden family farm on it !!!
"O! ye of little faith . . ." It is a very simple project if one realizes that "what we have here . . ." [Quick: In which one of Paul Newman's movies was this a tag line?] is a WEST VIRGINIA SYZGY

of three--an earthly trinity, as it were, of course--big hearted human beings, people who in their own way would make Mother Theresa look heartless.

The first of this SYZGY of secular saints is DEENA COBURN of Belington, Barbour County, West Virginia. (If you don't know where Belington is, don't ask because you can't get there from here.)

If there ever was a Sabat Mater in West Virginia it would be this woman. Once when I was at a certain Protestant theology school, I gave a sermon that took me to the Dean's office as an accused heretic: "Sometimes, I think, we may make too much of the suffering of Jesus. Cast a glance at Mary, His Mother, look at her suffering. She stood there for three hours watching her Baby Boy being tortured to death . . . Now ask yourself what is worse: To suffer pain or watch someone you love with all your heart suffer pain. You tell me, you preachers in embryo. Q.E.D."

Deena's Baby Boy, whom she birthed in Fairmont some 30 plus years ago, is currently under sentence of death in another state, a "far country" as it were from which the odds are great that he will only return to his sabat mater in a pine box or cheap urn. Moreover, her Baby Boy is in solitary confinement and in a wheelchair. [He needs a hip replacement which his captors refuse to provide for the very good and pragmatic reason that they intend to kill him.] And he's been in this "far country" for five years now.

Now, dear reader, don't confuse things by asking what he did, what heinous crime does he stand convicted? The first time I spoke with Deena on the telephone, the first words out her mouth were "And he's INNOCENT!" Professor J. Livingston Hall of Harvard Law School and the former federal prosecutor for the Commonwealth of Massachusetts said "The trouble with being a prosecutor is that every defendant has a Mother." Baby Boy may or may not "deserve" what he got but what does his weeping Mother deserve?

I don't know the whole story but Deena and her Baby Boy traveled around a lot together; South Carolina being one of their stops. And they would collect stray cats, scads of them over the years that they were together. But Deena doesn't pretend to be the Father Flanagan of the cat world. "I need my cats more than they need me," she told me recently.

When I first talked with her a month or so ago, she had 11 cats (some cats' lineage is traced back to the days of her vagabondage with her Baby Boy.) A couple weeks back one of her cats dies and Deena left this message on my recorder: "The death of my cat has multiplied all the horrors of my life." By the way, like her son, Deena too is in a wheelchair.

Ever since she's lived in Belington, Dr. Ilene Lannie of Elkins has served as the Angel of Mercy for Deena's menagerie.

However, when the unpaid bill went over \$1000, Deena was told by one of the staff that they could no longer extend credit to her (probably because they had a human family to feed.) Deena rejected out of hand my advice which was to "stiff" the vet and go somewhere else. Her morals are obviously higher than those of the Furbee Gang.

It was when I was relating this sad tale of woe to THE EARL OF ELKVIEW, passing on the fact that one dead cat was pregnant (Deena told me that even after the body went stiff that she could feel the little kittens wiggling inside the stomach) and that Deena was going to take the body back to Fairmont for burial that Daughery broke in:

"HERBIE FURBEE, DON'T YOU SEE THAT THERE ARE TWO SAINTS HERE; THE WOMAN WHO COLLECTED THE STRAY CATS AND THE WOMAN WHO PROVIDED MEDICAL CARE FOR THESE CATS FOR SO LONG AND FOR A MERE PITTANCE !!!"

In addition to being a great entertainer, George Daugherty was a great trial lawyer with political connections and friends all over the State. Since the death of A. James Manchin, in addition to continuing on as THE EARL OF ELKVIEW, George Daugherty has served as the avatar of the THE LOST SHEEP OF THE 35TH STATE.

He put me on hold for a few minutes and then boomed into his speakerphone: HERBIE FURBEE ON THE 22 OF APRIL, WHICH IF MEMORY SERVES ME IS THE 78 ANNIVERSARY OF THE DATE OF YOUR NATIVITY, I SHALL DO A BENEFIT FOR DEENA COBURN AT THE BELINGTON CIVIC CENTER @ 3p.m. TO SAVE THE CAT HOUSE AND THE INHABITANTS THEREOF.

As I suggested at the beginning, I think that there are three good people who will be honored on April 22 and you should COME ON DOWN; but if you can't make it, do a check to Ilene Lannie, DVM, and sbend it to Deena Coburn, 25 S. Crim Avenue, Apt. B, Belington, West Virginia 26250.

That money will be waiting on you in Heaven. If you don't believe me, ask your priest, rabbi, preacher, imam, snake charmer, whatever. Or Wheeling's Bill Hogan. He told me once "You have to give it away to keep it" and Bill was a stock broker. He knows \$\$\$.

Here is why we need to seek out the few honest federal judges who currently sit on a compromised bench, have me appointed special counsel to invoke the powers of a "real" Justice Department and organize mass protests and lawful civil disobedience until we restore the country to the vision of our Founding Fathers.

We are living in the most dangerous of situations! Our federal judiciary has become either compromised or is corrupt to the core. Currently constituted it does not serve the citizenry but primarily itself when it comes to adjudicating cases that touch on the so-called elite who had them appointed to office. And how were these federal judges appointed? Through political patronage by way of "greasy" contributions to politicians by law firms, corporations, labor unions and other special interests. This is why what we have on the federal bench, by and large, are political hack "yes men and women" who do the bidding of the elites who put them in power.

This is a very perilous state of affairs, as without a courageous and non-biased federal judiciary, Americans are left defenseless to the corrupt whims of the establishments of both political parties and these special interests.

As one example, Freedom Watch and I have pending crucial cases to finally bring Hillary Clinton to justice under the Constitution and rule of law. One of those cases involves the Wicked Witch of the Left's use of an unsecure private email server while she was, regrettably, secretary of state. This server was predictably hacked by adverse powers, such as Iran, Russian and China, one or more of whom then transmitted the location of Ambassador Christopher Stephens to terrorists in Benghazi, Libya. These terrorists then murdered not just Stephens, but those around him, such as undercover agents Ty Woods and Sean Smith.

I represent the parents of Woods and Smith, Charles Woods and Patricia Smith, in both a wrongful death and defamation suit against Hillary Clinton. To be sure, no one other than yours truly would ever take this action. Our "congressional fools" would rather prance around at Fox News giving meaningless interviews than actually do their job, and the disgraceful Attorney General Jeff Sessions, spends most of his time covering his backside and refusing to appoint a special counsel, for fear the current special counsel, Robert Mueller, at the urging of the Democrats, will indict him for alleged Russian collusion, perjury and obstruction of justice. Thus, if not Larry Klayman and Freedom Watch, then who?

The case has thus far been dismissed by a politicized leftist judge appointed by, you guessed it, the former "Muslim in Chief," Barack Hussein Obama. To add insult to injury and to curry favor with Hillary Clinton during the 2016 presidential campaign with the obvious hope of higher appointment should Hillary have been elected president, this leftist judge, Amy Berman Jackson, dismissed the suit on the eve of Memorial Day, disrespectfully sticking it to these "Gold Star" parents as they were grieving for their heroic fallen sons.

Then, when I took the contrived and frivolous ruling of Judge Jackson up on appeal, the panel that heard argument were "mysteriously" comprised of two Obama appointees and one establishment Republican jurist. Incredibly, I learned by accessing Federal Election Commission records that one the Obama appointees had donated money to the Wicked Witch to further her 2008 presidential bid! Her name is Patricia Millet.

Politely, I first asked Judge Millet to recuse herself for her obvious conflict of interest in violation of the Code of Judicial Conduct. She predictably refused, as federal judges in particular feel that they can do as they please and are above the law given their lifetime tenure. But when I then filed a formal motion to disqualify her, incredibly and arrogantly ruling on the motion herself, Millet again refused to get off the case. And, when I went to the full court with a petition for en banc review, all of them also predictably circled the wagons and took no action to unseat this corrupt leftist hack colleague.

It thus came as no surprise that the appellate decision that issued this week affirmed Judge Jackson's dismissal of the suit! The ruling wreaked of dishonesty and disdain for anyone who would dare challenge a fellow elite like Hillary Clinton! I must now take the matter again to the full appellate court and if that does not succeed to the Supreme Court!

But what are the chances of success? Great, but only if We the People finally make it clear that we will not tolerate corruption on not just the federal bench, but also in the other two branches of government, which are currently still under the control of the Deep State comprised overwhelmingly of Obama and Clinton loyalists.

I am dedicated to using my powers to issue this clarion call, continue to pursue lawful actions, but also be at the forefront of the coming revolution that restores the rule of law and integrity to our body politic!

If this means not just taking legal recourse to try to find by the Grace of God those few honest federal judges and justices who will do their job, or going the way of our Founding Fathers in 1776, then I will pledge my honor and life to get the job done.

Certainly, our cowardly attorney general won't lift a hand! He -- as I wrote recently in this rare medium of actual truth, WND.com -- is a national disgrace!

And so it has finally come to pass that We the People must again rise up and throw off the yoke of government tyranny. I will lead this call to legal arms in the tradition of our great Founding Father Thomas Jefferson, who proclaimed that when the people fear the government there is tyranny. But when the government fears the people there is liberty.
