**"The immortal achievements of the Great Leader Comrade Kim Jong Il for formulation of the Juche Idea as Kimilsungism and further development of it."**

By: Vipin Gupta, *Chairman*,  
**Juche Philosophy Study Committee of India**  
New Delhi, INDIA

The 80th birth anniversary of Eternal General Secretary Kim Jong Il falls on February 16, 2022 and the people of Democratic Peoples' Republic of Korea are congratulating this birth anniversary even more from the bottom of their hearts.

The immortal achievements of the Great Leader Comrade Kim Jong Il for formulation of the Juche Idea as Kimilsungism and further development of it is a historic one of realizing independence of the masses of the people on the global scale. It is, in essence, to oppose domination and subjugation of all descriptions, achieve independent development of all the countries and nations, establish international relations based on independence, and democratize the international community.

The Juche idea throws a fresh light on the way ahead of the cause of independence of mankind under the wise guidance of Eternal General Secretary Kim Jong Il who developed Juche Idea and discovered Kimilsungism.

The Juche idea, the fundamental principle of which is that man is the master of everything and decides everything, values above anything else independence. As the Juche idea elucidates, the masses of the people are the subject social history and human history is the history of the struggle of the masses to defend and realize independence. The Juche idea gives perfect answers to all problems such as the target tasks, principles and ways of realizing independence of the masses of the people.

The struggle of the masses for independence is conducted with the country and nation as a unit.

The country and nation are the basic unite for the masses of the people in caring out their destiny. Therefore, no one can lead a life and shape one's destiny independently without the country and nation. There can be no "integration of the world", which includes politics, the economy, ideology and culture, advocated by the imperialists, as each country and nation shapes its destiny with its own ideology system and culture.

Globalization and integration are all geared to making the whole world the "free world" of Western style, and subjugating and assimilating other nations to the imperialists.

The world people who aspire after independence find solutions to achieving independent development and prosperity of their countries and nations in embodying the Juche idea, not in pursuing the globalization.

The Juche idea commands broad support from and sympathy with the world progressive people as it clearly reflects the fundamental desire of mankind for independence and the trend of the times. Many political and public figures around the world find in the Juche idea scientific solutions to the important matters that arise in the shaping of the destiny of mankind, and they turn out in the struggle to achieve the independent development of the country and nation through the embodiment of the Juche idea.

The cause of independence of mankind is accompanied by the struggle against imperialism and dominationism.

Pursuing the “unipolar world” ruled by them, the imperialists are now resorting to all sorts of schemes to isolate and disintegrate the countries advancing along the road of independence. They are maneuvering to ignite war in many parts of the world, threatening the strategic stability of the world and driving the world into the whirlwind of armament race. Claiming itself as the world’s “only superpower”, the United States is arbitrarily and unilaterally dealing with all problems – political, diplomatic, economic and military.

In order to frustrate the dominationist ambition of the US and build a new world that is free and peaceful, it is necessary to realize the cause of global independence by strengthening the international solidarity and cooperation based on independence.

An independent world is fully democratic world which is free from domination and subordination, interference and pressure, and aggression and war between countries and nations. The cause of independence of the masses is a national cause and, at the same time, an international cause common to humanity. Each country and nation is faced with the important tasks to be tackled for their development, yet they have common interests in building an independent world. The Juche idea demands that the country and nation become independent motive force and any dominationism be not tolerated. It is only when each country and nation aspiring after independence unite and cooperate with one another in building an independent world that they can frustrate the imperialist maneuvers to dominate other nations.

Herein lies the very reason why the Juche idea stresses that the unity and cooperation based on independence are the genuine international relations between countries and nations.

The democratization of the world will be hastened when equality and trust based on independence are ensured in the international relations and an end is put to the arbitrary actions of some nations in the international arena.

The Juche idea clarifies the way for the world progressive people aspiring after independence to be rallied firmly as one. It also expounds on such matters of principle as in the crushing the dominationist maneuvers of the imperialist forces and consolidating the unity and cooperation of the people who safeguard independence, pushing forward the non-aligned movement and fighting against the imperialist policy of high-handed ness in all part soft h world. These matters serve as guidelines for strengthening the international solidarity of the anti-imperialist independent forces.

Progressive people around the world realize the truth of the Juche idea through the realities of Korea.

The Korean people, under the banner of Juche idea, won victories in the two revolutionary wars against the powerful Japanese and US imperialism (anti-Japanese armed struggle to liberate the country and the Fatherland Liberation War to defeat the aggression of the anti-feudal democratic revolution and socialist revolution – and established a powerful socialist state that is independent, self-sufficient and self-reliant in defense. Despite the high-handedness and arbitrariness of the imperialist allied forces after the end of the Cold War, Korea has firmly defended socialism and wrought world-startling miracles day after day in the building f a prosperous and powerful country. all the successes and victories Korea has achieved give a great deal of encouragement to the progressive people who aspire after independence.

The cause of independence of mankind, under the banner of the Juche idea, will advance victoriously, overcoming all challenging difficulties of the history in the future, too.

Kimilsungism was further developed in a comprehensive manner by Great Leader KIM JONG IL and now by the strong efforts of Great Leader Kim Jong Un it has become Kimilsungism-Kimjongilism which shows that the Korean people and the Korean revolution continue to achieve victory at Mallima speed from generation to generation.

**LONG LIVE JUCHE KOREA**

**LONG LIVE KIMILSUNGISM-KIMJONGILISM**
