

## **SITE SAFETY TRAINING CARD**

### **REFRESHER UPDATE NOTICE:**

Workers whose Site Safety Training (SST) cards expire in 2024 must complete site safety training refresher courses before they can renew their cards. Refresher training must be taken no more than one year before applying for card renewal.

We will start holding these refresher training courses at the Local 15 Training center starting in early 2024. The training will consist of two 4-hour courses for a total of 8 hours of training.

Please note that there is NOT a grace period for this training and once it expires you will need to retake the 40 Hours.

Please call the Training Center office (718) 835-0400 with any questions or to check your refresher status.
