Praise God for another brand new month added into our lives as we continue to journey together with Christ in the earth today. We thank God for His divine healing and protection upon each and every one of us continually. It is His grace and mercy that gives us the strength each day to fight each battle that we face in life and be victorious. We once again come to the celebration of the death, burial and the resurrection of our Lord Jesus Christ this month. May we continue to rejoice in the Lord and celebrate the victory that our Lord has won for us 2000 years ago. Death where is your sting? Grave where is your victory? Doors of opportunities have been opened by Jesus for all of us by His resurrection. Victory and prosperity is on our side. Take God at His Word that we are a blessed generation. We are a go getter generation, not a lazy generation. Jesus died so we can live and be a blessing to the world. Have a blessed month of April.
