Core Competencies

Our team not only delivers second to none products, we exceed your expectations because we:

- Employ motivated individuals that take pride and ownership of their work
- Continually monitor innovative manufacturing techniques
- Perform quality testing on 100% of all final assemblies and major subassemblies
- Procure high-quality parts and equipment
- Provide 40+ years of engineering experience in root-cause analysis, troubleshooting and product development
- Utilize CAD/SolidWorks drafting

Past Performance

Over 15 years as a subcontractor to manufacture radio Power Supply Docking Stations (PSDS) for the Military

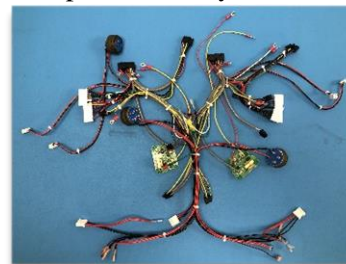

DUNS Code: 048656934

CAGE Code: 91NR3

NAICS Codes: 334419, 334220, 334515, 335122, 335929, 335931, 335932, 33599, 335999, 541330

Differentiators

- High retention of critical employees
- 100% quality testing with certified calibrated equipment
- Complex assembly manufacturing

Vision Statement

If you are not growing, you are falling. We choose to grow! We can help you succeed along the way.

Company Information: We are a small business located in central north Alabama that has been in our current form since 2014. However, our history of engineering, research and development, design, and manufacturing of products dates back to 1999. We have transformed the business over the years to accommodate our customer's needs. This has proven invaluable in developing a company that can be trusted. We do what we say we will do, when we say we will do it.
