

# DATA TIERS

This chart provides a breakdown of our normalized investment crowdfunding dataset. Enriched with insights not publicly disclosed via Edgar, such as valuations and NAICS codes, our data offers a comprehensive view of the crowdfunding landscape. With a flexible pricing structure based on fixed and variable data points, you can choose the tier that suits your specific needs. Gain access to essential company details, crowdfunding portal data, offering terms, and financials, along with dynamic insights like total amount raised and daily commitments by investors. Empower your business growth with accurate and up-to-date crowdfunding data by contacting our team to discuss pricing options.
