

NOVEMBER 2023

FORGOTTEN PEOPLE CONNECTION

CONNECTING WITH THE FORGOTTEN PEOPLE OF THE WORLD

FAITH IN ACTION

Our feature photo depicts 4 youth from the Mexico School Build Mission, in May of 2023. After going for a run, here they are, overlooking the Baja desert not far from their Base Camp, at Youth with a Mission.

Below are photos of the team playing with the children at the shelter, building the walls of the school-house and enjoying time together in the sunshine.

➤➤➤ MEXICO MISSION TRIP

Twenty-one individuals, including 15 youth and young adults from Guelph, Ontario, ventured on our latest Mission Trip to Vicente Guerrero, Baja California Mexico. Highlights of the trip, were building a school house, experiencing authentic Mexican tacos and tamales, taking part in worship service at a small local church, visiting and volunteering at Mujeres Nuevo Comienzo Women's Shelter, and getting to know the children and local people.

Help us in supporting the Women's Shelter

Upgrading the Laundry Area for Women's Shelter in Baja California, Mexico

Mujeres Nuevo Comienzo (MNC) is a women's shelter that provides a safe home to abused, abandoned and shattered women and their children with a desire to see them experience healing through a personal encounter with God.

As part of their daily routine at MNC, the women are responsible for washing, drying and folding their clothes and those of their children. The current laundry area is far from adequate; the scrub basins are not securely set up and they often fall and break, there is no shade from the hot sun and the wind and dust blow in the afternoon making the challenging task even harder. The existing laundry facility is shown in the pictures below.

Help fund the construction of an upgraded 12' by 15' outdoor laundry facility which will include a level concrete floor, 2 additional wash basins with safe supports, permanent water and drain piping and most of all a roof and side wall to protect the women and young children from the sun, wind and blowing dust while they tend to their washing. This new facility will help ease a burden in these women's challenging daily lives.

Cost: Materials - \$2,200 Cdn (built by a volunteer team) or add \$650 Cdn to employ local labourers to complete the construction of the project.
