Supported Operating Systems for 3CX

3CX PBX and SBC can be installed on Linux and most versions of Windows. Below is a complete list of supported operating systems.

Recommended Hardware Requirements

3CX Version 16

All operating systems must be installed in their **x64** version. 32-bit versions are not compatible with 3CX PBX server and 3CX SBC. **Full** Windows and Linux updates are also mandatory to be applied to ensure compatibility with 3CX.

Supported and Tested by 3CX:

- Linux Debian 9 (kernel 4.9)
- Raspbian Stretch
- Windows 10 (Pro, Enterprise)
- Windows Server 2012 and 2012 R2 (Foundation, Standard, Datacenter)
- Windows Server 2016 (Standard, Datacenter)
- Windows Server 2019 (Standard, Datacenter)

Not Supported and Tested by 3CX:

- Linux Debian 8 (kernel 3.16)
- Windows 7 SP1 (Professional, Ultimate, Enterprise)
- Windows 8 and 8.1 (Pro, Enterprise)
- Windows 2008 R2 SP1 (Web, Foundation, Standard, Enterprise, Datacenter)

Please note that not supported does not necessarily mean that 3CX will not work however it is not tested by our Q&A team and we will not be able to assist with issues.
