

A NEW GENERATION OF COATING SYSTEMS

Your company recently refinished my floor and I wanted you to know that it turned out beautifully. Just as importantly, I wanted to thank you for the care you take in managing customer relations. Every aspect was well handled, from first phone call, the estimate, the skilled applications crew, to the daily follow-up calls. More businesses should follow your model.

The combined beauty of mica media and metallics will make this system the envy of your neighborhood.

Mica is a natural mineral flake that provides a metallic luster to the floor coating. This unique quality is derived from a group of sheet silicate minerals such as granite and other stone. Our mica media systems insulate the surface while creating an extremely durable layer of protection.

BENEFITS

- Protects any surface
- Ultra low VOCs
- Reflective properties
- Eco friendly system
- Easy to clean

DURABILITY

- Extreme solvent resistance
- Excellent abrasion resistance
- UV stable
- Molecular bond
- Impe-meable
