1 SHAEP making plans for dropping during ECLIPSE period rations and medical supplies to camps in the SHAEP zone until they are overrun by our forces. No dropping of clothing is proposed.

2 We are now considering question of dropping rations and medical supplies to prisoners of War Camps in such parts of the Russian zone as may not be occupied by Russian forces at the commencement of ECLIPSE, but in view of Article III of agreement made at ARGONAUT conference, hope that this will not be necessary.

3 No arrangements have been made by us with the Russians at SHAEP since they are only concerned at this stage with Russians uncovered by our forces. In this connection, would refer you to para 4. of PAGE 145. <sup>(16)</sup>
