

Recognizing Pre-Attack Indicators

Attend the ultimate course in understanding and anticipating potential attacks. In this comprehensive training led by instructor Sean Grogan, you will gain invaluable insights into the subtle movements and non-verbal cues that often precede acts of aggression. By developing the ability to articulate these indicators rather than relying solely on intuition, you can effectively recognize and prepare for an impending attack providing you with crucial seconds to defend yourself.

Throughout the course, Sean Grogan will delve deep into the world of nonverbal behavior, offering a detailed exploration of the physical signs that typically manifest prior to an assault. By acquiring this knowledge, you will no longer have to rely solely on vague "gut feelings" but instead possess concrete observational skills.

Sean Grogan is a former special investigation detective, canine handler, and gang investigator.
