

CASA ROMANA ALLERGEN MENU

Please look for your corresponding dish to see if the allergens in it affect you.

The current list of all 14 allergens that have to be highlighted are; **celery, cereals (containing gluten, such as wheat, barley & oats), eggs, fish, lupin, milk, soya/soya beans, mustard, crustaceans** (such as prawns, crabs and lobsters), **molluscs** (such as mussels & oysters) **peanuts, sesame, sulphur dioxide and sulphites** (if the sulphur dioxide and sulphites are at a concentration of more than ten parts per million) and **nuts** (tree nuts such as almonds, hazel-nuts, walnuts, brazil nuts, cashews, pecans, pistachios and macadamia nuts)

We are allergy aware and even though this menu shows the allergens contained in the dishes, we can often make them without or substitute Dairy Free Milks and Cheese OR Gluten Free items into dishes so please ask to see our specialist dietary menus too

GF Highlights

All dishes on this menu are made with non gluten ingredients

Here are some dishes that are made with non gluten ingredients. Some may be adapted from our usual recipe to make them free from gluten so **please point out that you require them GF**. This may incur a small surcharge. Although the ingredients are Gluten Free, our kitchen is not, so there is a small chance of cross contamination. Please bear this in mind if you have a particularly high intolerance, thank you
