

Florida

UTILITIES COORDINATING COMMITTEE

February 1, 1980

Seville Inn

Pensacola, Florida

The meeting was called to order by Chairman Horace Erwin at 9:00 A.M. Ben Godfrey provided the invocation which was followed by the Pledge of Allegiance to the Flag. The Chairman welcomed everyone to Pensacola and thanked Gulf Power Company for sponsoring the meeting, and especially to Jim Dunning for handling the arrangements.

Self introductions were followed by the introduction of guests, including Mr. Dave Panches, Mr. Roy Dyer, Mr. Dwight Harrison, and Mr. Buck Merrell. All, except Mr. Panches, were from the Georgia Utilities Coordinating Committee.

Minutes of the November 2, 1979, FUCC meeting were read and approved after a correction.

Report of the Standing Committee - Dennis LaBelle, Chairman. A meeting was held the previous afternoon to discuss the question of the proposed study of county permit fees throughout the state. The entire issue was then aired again in the general meeting. The results were that a subcommittee will be formed to work with the State Liaison Committee, if they are agreeable. The FUCC Subcommittee will gather information regarding the county fees. This data can be gained through the county utility groups and district groups. The FUCC Subcommittee will compile all the information and it will be made available to anyone who wants it. Bob Foote was nominated to chair the subcommittee; a vote was taken, and it was unanimously approved. Curt Roane volunteered to work on the subcommittee.

+ MUNICIPALITY
FEES

The Chairman recognized Ernest Salley, who announced that Jake Seegers of the DOT was retiring and Sammy Simmons would replace him. Both were present. Ernest then stressed the significance of everyone taking part in the American Right-of-Way Association, due to the increasing use of public rights-of-way by utilities and its resulting decreasing availability. He discussed the necessity of subordination documents by the State and briefed the procedures involved with them.

Horace Erwin then recognized Ray Afeld who explained that a movement has been started nation wide to expand the universal color codes for temporary marking of underground utilities to include all permanent markers. Ray will present a program at the next FUCC meeting on this.

The Chairman read a letter (copy attached) from Ernest Salley regarding the subject of "Utility Space Allocation" and transmitted a copy of a report of a study done by the DOT on this subject. The question was raised of whether or not the FUCC should pursue the subject, discussion followed. There were many objections to the report; mostly aimed at the sampling all being taken from the same small area of the state. Ed Williams suggested we get the chairman of the group that made the study to speak to the FUCC. Mr. Erwin decided to table the issue until more information is available. It was suggested, and consensus of those present agreed, to reinstate the subcommittee if it was never dissolved.

Mr. Kenneth M. Press, Jr. was introduced as the guest speaker. Mr. Press is with the Environmental Licensing Group, Inc., of Pensacola, Florida. The firm is involved with "the systematic process for managing environmental regulatory compliance problems of business and government". His talk dealt mainly with licensing of power plants and transmission lines. A question and answer period followed.

The Chairman adjourned the meeting at 11:35 A.M.

The next meeting will be held on Friday, May 2, 1980, in the Fort Lauderdale area. A notice will be sent regarding the location.

Those in attendance in Pensacola were:

C. E. Hanle	Southern Bell (Fort Lauderdale)	(305) 492-2788
C. E. Mills	Florida Public Service Commission	(904) 488-8501
