Horace

MAY 2, 1980
Sheraton Yankee Trader Hotel
Fort Lauderdale, Florida

The Spring meeting was called to order by Chairman Horace Erwin at 9:07 A.M. Curt Roane led the invocation which was followed by Mr. Erwin's welcome to everyone and thanks to Dick Hall and People's Gas System for sponsoring and arranging the meeting. The minutes of the February 1, 1980 meeting were read and approved after one correction.

Mr. Erwin read a letter from Benny Godfrey indicating that a change in jobs will prevent him from taking part in the FUCC activities any more.

Dick Hall introduced Mr. Ken Post of People's Gas System who spoke about their safety program and showed the film "BLEVE" concerning liquid propane gas explosions and fires. People's Gas has a very active safety program including a school which accepts students from outside of the company.

Chuck Hanle reported on the visit he and Mr. Erwin made to the H.L. Wills Coordinating Committee meeting held April 25, 1980 in Savannah, Georgia. Mr. Erwin presented to that body the liaison structure of Florida, its evolution and present status.

Ernest Salley addressed a few subjects as follows:

1. He recommended the Utility Accommodation Guide be left as a guide and not made a rule.
2. The DOT will no longer plot utilities on their right-of-way maps thereby making the records of utility companies more important.
3. There were revisions made to the DOT permit for utilities on DOT right-of-way.
4. Joint pole agreement. Mr. Salley introduced Mike Briche as the Assistant District Traffic Operations Engineer for District IV. A handout was distributed regarding the transfer of responsibility of pole maintenance from the State to the Counties.

Ray Afeld presented a proposal to adopt standard color codes for permanent markers for below ground utilities. The colors are the same as previously adopted for temporary markings, i.e. Red = power, yellow = gas, orange = telephone and CATV, blue = water, green = sewer. These colors will apply to the background of a marker with the lettering being black. It was moved and seconded to adopt these colors as standard for permanent markings for the utilities of the State. (See Attachment No. 1). The discussion which followed pointed out that most representatives wanted to get their company's approval before voting on the proposal. The motion was tabled until the August meeting.

Ken Brown, Chairman of the Utility Accommodation Guide Subcommittee reported that the one year trial period for the Guide expires in June, 1980. The subject of bicycle paths was brought up. Chairman Erwin wrote a letter to Mr. Elliott of the DOT (See Attachment #2) regarding the bicycle paths. Mr. Elliott answered the letter (See Attachment #3) and stated that a trial area will be established in Gainesville. Mr. Erwin appointed Curt Roane to represent the FUCC and work with the City of Gainesville and the DOT. Duncan Thomson volunteered to assist him. Mr. Erwin requested the body's approval to reactivate the subcommittee on Utility Space allocation.

Dick Unger suggested that we invite a representative from the Florida Department of Natural Resources to attend the next meeting to speak regarding DNR easements and how to expedite their approval.

The Chairman adjourned the meeting at 12:05 P.M.

The next meeting will be held in Clearwater on August 1, 1980. Details will be published in a notice to be sent prior to that date.

Those in attendance in Fort Lauderdale were:
