

# FLORIDA UTILITIES COORDINATING COMMITTEE

## Coordination Through Cooperation

Fall Meeting, November 7, 1986  
Florida Utilities Coordinating Committee  
Royce Resort Hotel, Ft. Lauderdale, Florida

The meeting was called to order by Chairman Mike Flanery at 9:00 a.m. Sixty Six members were in attendance. (Attendance list is attached). The meeting was opened with an invocation delivered by Ted Carlson followed by a Salute to the Flag and self-introductions.

Mike Flanery advised as to a vacancy in the office of Secretary due to the inability of the Secretary-elect, Ray Afeld, to serve in this capacity. A letter from Ray advising of this was read. Mike Flanery said that in accordance with the by-laws he and Vice-chairman Sherling contacted George McWicker to serve in this capacity and secured concurrence from the steering committee at yesterday's meeting. Dick McConnville moved that the recommendation be approved. The motion carried.

Bill Garrett, Historian, advised that we were observing the 50th anniversary of the official founding of the Florida Utilities Coordinating Committee, Our by-laws were established at a meeting held in Tampa on November 6, 1936. Bill read excerpts from the minutes of that first meeting, and also from minutes of the meeting held 25 years ago at Leesburg.

The minutes of our meeting held on August 8, 1986 at Daytona Beach were read. Ted Carlson offered certain corrections which will be incorporated into those minutes for the record.

Chmn. Flanery discussed his plans for the coming year and spoke about the 'consensus process'. Mike emphasized the importance of hearing all points of view and then working through individual differences prior to our Committee taking a position on important matters. Only in this way will we maximize the support of our full membership and sustain our credibility outside of our organization.

District reports were called for and given by the following:

- |                          |                         |
|--------------------------|-------------------------|
| Dist. I - Arthur Dillard | Dist. IV - Vince Krepps |
| Dist. II - Bill Garrett  | Dist. V - Mike Crumpton |
| Dist. III - Tom Duqar    | Dist. VI - Bryan Harms  |

(OVER)

Chairman  
Mike Flanery  
(813) 462-3588

Vice-Chairman  
Roswell Sherling  
(813) 995-2121

Secretary  
George Mc Wicker  
(305) 492-3690

Chmn. Flanery asked for a show of hands of those who felt they were involved in formulating governmental policy, and then proceeded to point out that as active members of the Fla. UCC we all are, or should be, involved in this important process. He went on to point out that many laws and regulations now in effect have been directly influenced by the individual, and collective, work of the members of this Committee.

Chmn. Flanery asked each sub-committee Chairman to give a brief overview as to the purpose of his committee, briefly state what the committee is currently attempting to accomplish, and introduce each committee member. This was done by the following:

Utility Accommodation Guide - Dennis LaBelle  
Awards - Mike Flanery spoke for Jim Dunning who was absent.  
Green Book - Dennis LaBelle  
IRWA Liaison - Dick McConville  
Fiber Optics - Andy Hyman  
Jacking and Boring - Arthur Dillard  
Foreign (3rd party) Attachments to Poles - Ed Garcia

Mike Flanery emphasized the importance of the work of these committees and asked each Fla. UCC member to serve on a committee. He said that "The work of these committees is the heart of the Fla. UCC", and that anyone desiring to serve on a particular committee should contact that committee chairman.

The first guest speaker was Charles H. Smith, Executive Director of the Florida High Speed Rail Transportation Commission, Tallahassee. Mr. Smith spoke about the high speed rail system proposed for the Tampa-Orlando-Miami corridor. He used a slide presentation to illustrate his talk.

Ted Carlson introduced Terry Vogel, his replacement as representative to this Committee. Mike Flanery thanked Ted for all of the work he has done in District 1 and throughout the State. He expressed to Ted, on behalf of our Committee, that his guidance, stewardship and "golden tongue" will be sorely missed.

After a break, our second guest speaker, Bryan Harms of the City of Miami Department of Public Works was introduced. Mr. Harms presented a slide-illustrated talk on the subject of Controlling Costs in Public Rights-of-Way. He spoke of ways to avoid liability problems, of damages caused to pavement and utility facilities by crews working in rights-of-way, and about contract cost over-runs.

Vice-Chmn. Roswell Sherling reported on the steering committee meeting held the previous afternoon. He discussed the structure of the Fla. UCC and the functions of the officers and the steering committee. He discussed the appointments of the standing-committee chairmen and emphasized that the chairmen of these groups are available to be contacted by any member not only at the quarterly meetings, but throughout the intervening months. Subjects of interest should be brought to the attention of these group chairmen prior to the quarterly meetings so that they may add the subject to the sub-committee meeting agenda and, subsequently, bring it before the general meeting if appropriate.

Roswell Sherling then reviewed the standing sub-committee appointments for the year and asked each chairman to stand. The Chairmen are:

Telephone	Gene Mc Math
Power	John Mitchell
Underground/Sewer/Water	Pat Cassalia
Cable TV	Rick Nowling
Gas	Larry Rice
City/County	Mike Crumpton
Utility Notification	Jan Klatt
Contractor Liaison	Curt Roane
Historian	Bill Garrett
IRWA Liaison	Dick McConnville
Awards	Jim Dunning

Roswell Sherling said that the next (February) meeting will be arranged for the South/Central area of the State.

Mike Flanery asked for old business. None was brought up.

New business: Pat Cassalia advised that the Underground committee had expressed interest in the method being used in Virginia to locate subsurface utility lines and other features from above the surface by sonic means, and also the air-vacuum method of uncovering subsurface utilities when that becomes necessary. She made a motion that the Florida DOT be asked to undertake a study of such location techniques and means by which all utility companies or agencies with facilities in a segment of right-of-way could participate with the DOT in a joint location effort using such techniques. The motion was approved. Jerry Sasser said that the DOT planned to study this technique before the end of the year. He said that at yesterday's steering committee meeting it was agreed that we should attempt to arrange for a company that does this type of work in Virginia to send a representative to make a presentation at one of our quarterly meetings.

Chairman Flanery thanked those in attendance for their participation and adjourned the meeting at noon.
