

Established 1932

# FLORIDA UTILITIES COORDINATING COMMITTEE

**COORDINATION THROUGH COOPERATION**

MEETING MINUTES  
SEPTEMBER 1, 1995  
MARCO ISLAND, FLORIDA

Chairman Dave Hall called the quarterly meeting of the Florida Utilities Coordinating Committee to order at 8:30 a.m. with 94 representatives/members in attendance. Mr. Mike Sutton offered the invocation and pledge to the Flag. Chairman Hall expressed appreciation for the help and support of the following:

Chairman Hall introduced the officers and then called for self introductions by the attendees.

**SECRETARY'S REPORT** - Hamid Zahir

Chairman Hall asked if there were any corrections to the minutes of the last meeting held. There were no corrections, and a motion was made to accept the minutes as written and wave their reading. The motion was seconded and passed.

**HISTORIAN'S REPORT** - Tom Duggar

Mr. Tom Duggar was unable to attend the meeting, the reading of the Historian's report was also waived.

**FIFTY YEARS AGO:** - August 1945 - Tallahassee, Florida

- Officers: Chairman - R.S. Davis, Florida Power & Light  
Vice Chairman - Homer Welch, Lee County Electric Cooperative  
Secretary - B.N. Darlington, Peninsular Telephone Company

There are no minutes available about the meeting or the date.

**TWENTY FIVE YEARS AGO:** - August 1, 1970, Hilton South, Orlando

- Attendance: Telephone 14, Power 21, Gas 3, DOT 6, City 2, Consultant 1, a total of 47.  
Officers: Chairman - Verne Brown, General Telephone Company  
Vice Chairman - Marion Gilliam, Florida Power Corporation  
Secretary - Bob Corn, Florida Gas Transmission Company

**Old Business:** Mr. Glen Cock reported that on May 4th he and Verne Brown attended the Department of Transportation Secretary's meeting in Tallahassee. At this meeting they outlined to the secretary the appreciation of the Florida Utilities Coordinating Committee relative to the cooperation received from the Department in the adoption of the Utility Accommodation Guide. It was outlined to the secretary however, that the Florida Utilities Coordinating Committee still objected to the set back criteria as outlined in the Guide.

Ken Brown reported that in a new county subdivision ordinances Hillsborough County Planning Board will include a portion of the utility plan in new subdivisions, as recommended by the greater Tampa Utility Group. This Group is doing an outstanding job in working with the City and County officials to solve utility problems.

Chairman  
Dave Hall  
(407) 889-6813

Vice-Chairman  
Arlene Brown-McGee  
(813) 228-4674

Secretary  
Hamid Zahir  
(904) 632-6068

Historian  
Tom Duggar  
(904) 599-1543

Ken Brown, Chairman, Roadway Lighting and Signal installations Utility/DOT joint use pole agreement sub-committee, gave a report outlining the work done by this committee. Verne then gave a brief outline of why a joint use agreement with the Department Of Transportation is required.

Ernest Sally gave a report on the Utility Accommodation Guide. Ernest stated that contrary to the rumors which had spread throughout the State, The Accommodation Guide has not been officially disapproved by the Bureau of Public Roads. The Guide has been reviewed by the Florida Division of the Bureau of Public Roads which recommended that Guide not be approved. The regional office of the Bureau of Public Roads then reviewed the Guide and like wise recommended the Guide not be approved. The Guide is now being reviewed by the Bureau of Public Roads in Washington, which has not as yet given its approval or disapproval.

The new officers were elected as follows:

Chairman - Bob Corn, Florida Gas Transmission Company  
Vice Chairman - Larry Housel, J.E. Greiner Company  
Secretary - Marion Gilliam, Florida Power Corporation

### ***TREASURER'S REPORT*** - Arlene McGee

Arlene McGee reported that we have \$ 3,173.83 before balancing the expenditures of current meeting.

Chairman Hall asked Jim Weeks to give the group an overview of the Utility Issues Task Team.

## **PROGRAM**

Jim Weeks, State Utility Engineer, distributed a hand out package and updated the group on the Utility Task Team progress. The Utility Task Team formerly called the Utility Issues Task Team, was formed in 1994 and worked on the horizontal clearances from edge of pavement to the R/W line under R-R-R requirements. Since the initial goal of the team was accomplished, it was determined that there is a need for this team to look at the various issues that relates to the FDOT and Utilities. The team meets on a monthly bases and is divided into three sub groups, Team A , B , and C .

The first meeting of the team was held in Tallahassee on April 13 and 14, 1995. At that meeting Steve Runyan, an FDOT member of the MOTC spoke about some of the MOT issues.

The second meeting was held in Tallahassee on May 18 and 19, 1995. This was the official partnering session for all members (representatives) of the team. Greg Xanders conducted the partnering workshop which was a success. In this meeting the members collectively signed the partnering charter between members. The contents of the partnering charter are:

### ***UTILITY TASK TEAM***

***May 18-19, 1995***

We, the utility task team agree to work together to openly discuss issues and resolve them together in order to improve the quality and cost effectiveness of our work. As a team, we are committed to the following objectives:

#### **Objectives**

- Streamlined Procedures and Process
- Cost Effectiveness
- Cooperation/Coordination
- Safety
- Professional Relationships
- Real Negotiations
- Clear and concise plans
- Invest in Technology for Productivity
- Statewide Consistency

- Common Sense Flexibility*
- Understand Effect on Others*
- Trust*
- Objective (Value Added) Procedures*
- Sensitivity to taxpayer/public*
- Full Service Corridor for all Infrastructure Providers*

We, the undersigned, are committed to being responsive and flexible within the partnership in order to achieve our objectives.

(Signed by all members of the team present at the meeting)

In this meeting the team selected several issues and chose to work on three issues with the most votes. Those issues are Scheduling (assigned to team "A"), Locates (assigned to team "B"), and UAM (assigned to team "C").

The third meeting was held in Tallahassee on June 22 and 23, 1995. Dr. Fazil Najafi, an Associate Professor at the UF Department of Civil Engineering, made a presentation on the Hazardous Pole Prioritization Study for Safety.

The fourth meeting was held in Orlando on July 13 and 14, 1995. We discussed the Relocation Schedules and the Utility related delays in highway construction at this meeting. Also Terry Vogel handed out the QIP study that was done several years ago. A presentation by Pinellas County members on the General Permitting in Pinellas County was given.

The Fifth meeting was held in Tampa on August 24 and 25, 1995. Dennis LaBelle submitted a proposal for Pole Replacement Program.

#### **Team "A" - Relocation Schedules, Stan Nurnberger**

Stan Nurnberger opened with "for the first time Utilities and the FDOT are listening to each other". Team "A" is looking into relocation schedules, project schedule that are directly related. The problem statement of the team is, no individual relocation schedule given to the FDOT is any good. There are three periods in a project.

1. Conceptual Period - in this stage of a project the general routing of the project is selected. If Utilities get involved in this process, the relocation work may be minimized and the relocation cost will decrease. This is a good opportunity for Utilities to get involved at the beginning if additional R/w is needed. The law allows the FDOT to acquire R/W for Utilities when needed.
2. Engineering and Planning - this is the design stage of a project. In this period data is collected for the design. Relocation schedule is prepared for the FDOT. The FDOT develops a contract duration time which is related to production rate.
3. The FDOT requires the contractor to build the job in certain amount of time. Contractor schedule is established by the contractor based on MOT phasing of the project. In some cases the utility relocation schedule may not be reflected in contract duration period. One problem with utility relocation schedule is the coordination of joint use activities. At present the team is reviewing and changing the relocation schedule forms. The team is intending to look at a complete project documents and investigate what improvements are needed. The has 10 members.

#### **Team "B" - Locates, Dan Buol**

The main goal is to determine accurate location of utilities prior to design and construction of a project. The has developed a plan to designate the type of locates needed. The team came up with Class I, Class II, and Class III locates that very similar to the FHWA current standards. The will present this to the FUCC group in November, 1995.

#### **Team "C" - Utility Accommodation Manual, Dennis LaBelle**

For the first time we have Utilities, Contractor, FDOT Design, FDOT Maintenance, FDOT Construction, FDOT Environmental Section, and FDOT Utilities on the same team. This means whatever we come up with, at least every team member will be in agreement. We have sent out a survey with 10 questions. The utilities' response was very low. If we change anything in the UAM we will have an answer why we changed or why we did not change. There are several categories that The team is looking into as a result of the survey responses. These categories are assigned to team members and are Jacking & Boring, Directional Bore, Road Crossings, Permits, MOT, Out of Service Facilities, Landscaping, Metrics, Layout of the Manual. Please see the minutes of the Utility Task Team that was handed out. After the team is done with review and modification of the UAM, we will hold training sessions to cover all changes and answer any questions. For review of the new UAM, the UAM subcommittee members and Team "C" will be combined. Dennis LaBelle indicated that Jim Weeks has done a great job putting these teams together.

Jim Weeks introduced the speaker, Gary Evink who is a Senior Environmental Scientist with the FDOT.

Mr. Evink discussed the importance of Environmental Partnering with the Utilities and the opportunities of Environmental Partnering with the Utilities. He showed the group a series of slides showing environmentally sensitive areas, wetlands, uplands, various types of vegetation, turtle nesting, effects of lighting on turtles in coastal communities, erosion control, sea grass planting, etc. He also mentioned the importance of long term commitments by FDOT and Utilities, and the exchange of information on shared technologies. He pointed out a few projects where FDOT and the Utilities are working together on environmental issues. He mentioned that there is a new Highway Landscaping Guide which goes into effect soon.

### ***FDOT DISTRICT REPORTS:***

DISTRICT I - No written report was provided

DISTRICT II - Vince Camp, District II Utility Engineer, The next meeting is on October 13, 1995 in Lake City, Florida at Holiday Inn, I-75 & US 90.

DISTRICT III - No report

DISTRICT IV - Rocky DePrimo, District IV continues to mail out a monthly status report of planned production (for 18 months) and lettings. The monthly status report includes a 3 year right of way maps and acquisition production schedule.

DISTRICT IV - The utility liaison conference was held July 20, 95 at the Hilton in Altamonte Springs. 127 were present with 75 staying for lunch. The speaker was from MAGLEV. This is a high speed train that operates on the Magnet/Levitation system. Scaled model is in operation in Edgewater Florida. JPA's were also discussed.

DISTRICT VI - No written report was provided

DISTRICT VII - Steve Tidwell, District Utility Engineer, The utility liaison committee will be held September 22 in Tampa at the Best Western, I-275 and Busch Drive. Guest speaker was Patty Wagner FDOT Environmental Compliance - Erosion control on FDOT R/W. Also a speaker on Stress Management was present.

TURNPIKE - No report

***UTILITY NOTIFICATION CENTER REPORT:*** Bill Heath, No written report was provided

### ***INTEREST GROUP REPORTS:***

- **POWER**, Terry Vogel

The power group met with 28 in attendance. Items discussed were:

- |                 |                                |                       |
|-----------------|--------------------------------|-----------------------|
| 1. R-R-R update | 2. Utility Pole Safety Project | 3. General Permitting |
| 4. Metrics      | 5. Utility Task Team           |                       |

Max Wallace won the election and agreed to chair the power group for the year 1995-1996.

- **TELEPHONE/TELECOMMUNICATIONS**, Betsy Becker and John Jernigan

The sub committee chairman opened the meeting with 26 in attendance

Earl Christian - BellSouth,

Spoke about the task force team that has been developed for emergency situations and how it was used this month with hurricane Erin. This task force controlled the location deployment and maintenance of generators for standby power.

Dan Buol - Sunshine State One-Call,

Talked about preparations One-Call went through for hurricane Erin.

John Jernigan - GTE Florida,

Showed the GTE video call before you dig. This locate video has been shown to all their contractors and municipalities they do business with.

Open discussion,

- Opinions were stated regarding the FDOT's mandate that all permits be signed by PE's.
- Willie Jackson asked BellSouth about the problem of storm water runoff in manholes in St. Augustine and the use of manhole pans.
- Discussion of Hazardous Poles on DOT roads and how to approach and correct these locations.
- Discussion of abandoned facilities and removal from DOT property. The legality of the language is under review.

- **UNDERGROUND, Mike Farmer**

Items discussed were:

- Utility Task Team, UAM - history of group and survey results summary.
- UAM language, examples of Jacking & Boring and Directional Bore.
- General Permitting is working in Pinellas County.
- Signing & sealing by PE's. Jim Weeks will address later.
- On JPA's, have FDOT contractor install new casings prior to road work.
- Utilities responsibilities and rights under a JPA. The problem is that FDOT is changing/making decisions in the field.
- Generic Specs. Sent to industry for comments.

## **SUBCOMMITTEE REPORTS:**

- **UAM/STANDARDS REVIEW, Dennis LaBelle**

There is no report at this time. Everything was covered under the Utility Task Team C .

- **JOINT USE, Bill Hetherington**

The subcommittee met at 9:00 am on August 31, 1995 to discuss joint trench services contract provisions. Bids to contract will be mailed out the first week of September. Next meeting November 2nd, 1995 at 9:00 am in Jacksonville Florida.

- **ONE CALL ORGANIZATION, Dan Buol**

No written report was provided..

- **FDOT PAY ITEMS, Carlos Solis**

No written report was provided.

- **UTILITY NETWORKING, Tom Kennedy**

Members: Tom Kennedy (chair), Bill Hetherington, Dennis LaBelle, Hamid Zahir, Harry Niles, Bill Heath, Jim Weeks, John Jernigan, Stan Nurnberger, Ron Roark, Carol Primiano, Marcia Ruiz, Dietmer Unger, and Raul Rivera.

**Purpose:** To promote the use of electronic communications to enhance utility coordination.

**Committee Goals:**

- Provide information and education on electronic communications.
- Provide methods to use electronic communications to enhance FUCC subcommittee and coordination activities.
- Provide a format to discuss coordination of data exchange (i.e., permits, drawings and coordination information).

### ⇒ **Combined Interest Group Presentations:**

The Utility Networking Committee sponsored two presentations during the Combined Interest Group meeting on Thursday. The first presentation was an overview of the INTERNET presented by Shirley Kennedy, Network Information Manager for the Tampa Bay Library Consortium. Included in the presentation was information on 5 free community computer networks of Free-Nets which provide limited INTERNET access to the public. You can use these networks to set up an e-mail account, if you don't already have one through Prodigy, CompuServe, AOL, etc.. The following information will get you to these Free-Net networks:

**Gainesville Area - The Alachua Free-Net:** telnet://freenet.ufl.edu  
Direct dial 904-334-0200,  
use port settings 8-N-1, terminal setting VT-100, modem speed 28.8 bps or less.

**Naples Area - The Naples Free-Net:** http://www.naples.net  
Direct dial 941-774-4884, for assistance dial 941-774-4007,  
use port settings 8-N-1, terminal setting VT-100, modem speed 28.8 bps or less.

**Broward/Dade/Palm Beach Area - SEFLIN Free-Net:** telnet://befreenet.seflin.lib.fl.us  
Direct dial 305-765-4332,  
use port settings 8-N-1, terminal setting VT-100, modem speed 28.8 bps or less.

**Pinellas/Hillsborough/Pasco Area - The Suncoast Free-Net:** telnet://scfn.thpl.lib.fl.us  
Direct dial 813-273-3755 (Hillsborough) or 813-298-1653 (Pinellas),  
use port settings 8-N-1, terminal setting VT-100, modem speed 2400 bps or less.

**Tallahassee Area - The Tallahassee Free-Net:** telnet://freenet.fsu.edu  
Direct dial 904-488-5056, 904-921-5300, 904-574-2121, 904-413-9224  
use port settings 8-N-1, terminal setting VT-100, modem speed 28.8 bps or less.

The second presentation was made by Bill Hetherington and Eric Schiffli on electronic permitting using the InterLine Computer Network which provides services to the Electric Utility Industry. Other services are discussed in the e-mail message below.

### ⇒ Subcommittee Meeting

The subcommittee met Friday September 1, 1995 following the FUCC meeting to discuss new directions after Thursday's presentations. 7 projects were discussed:

1. Arrange for the use of listserver, bulletin board or other electronic forums to enhance communications on FUCC issues.
2. Develop a core group of members who would assist others with electronic communications problems.
3. Develop a list of on-line information sources for utility coordination and related information.
4. Arrange a presentation to the FUCC by One Call's on-line contractor Safety Corp., to explain the on-line services they plan to provide (November meeting).
5. Arrange a presentation by Billy Hattaway on FDOT's CAD standardization efforts (November meeting).
6. Arrange a workshop on CAD data exchange issues.
7. Set up software exchange (shareware etc.) programs for members.

Items 1, 4, and 5 are being pursued.

### ⇒ FUCC On-line Discussion List

Since our meeting, InterLine has provided the FUCC with listserver service for on-line discussion and communication at no charge. With this service a member of the list sends a message to the list server which is then rebroadcast to all members of the list. This makes discussion possible by sending messages back and forth through the listserver.

The real advantage is that we don't have to maintain our own mailing lists, it's handled by the listserver. Individuals who were on the FUCC E-Mail list have been added to the list server and others can register on-line by sending an e-mail as follows:

- Send e-mail to: [listserv@iline.com](mailto:listserv@iline.com)
- Leave the subject line blank
- On the first line of the message type: SUB\_FUCC\_your name

(Note: put a space where you see \_ above. Use your real name as you want it to appear, not your e-mail name/address. Your e-mail address is automatically taken from your message)

If you want to send a message to the other members on the list just:

- Send it to: [fucc@iline.com](mailto:fucc@iline.com)
- Give a specific subject heading

### ⇒ Following is an electronic message from [fucc@iline.com](mailto:fucc@iline.com) to members:

Am pleased to announce the Florida Utilities Coordinating Committee (FUCC) now has an electronic presence on InterLine, a North Fort Myers-based online service specifically catering to electric utilities, with participation by other utilities, related firms and vendors.

\* The FUCC Internet mailing list was created September 11, 1995, and is operated on the InterLine platform. To subscribe to the mailing list, send e-mail to [listserv@iline.com](mailto:listserv@iline.com). Leave the subject line blank and on the first line of text in the body of the message type: SUB FUCC then follow with a blank space and your real name.

\* On InterLine itself, a section has been created with a special FUCC menu. The offerings include e-mail, teleconferencing (with dedicated channels just for FUCC discussions) and seven forums or public posting areas:

Chairman Hall presented the **Liaison Person of the Year Award** to  
**Mr. Dan Buol.**

• **NOMINATING**, Dennis Black

Dennis Black, Chairman of the nominating subcommittee, nominated John Jernigan for the Secretary of the Florida Utilities Coordinating Committee. Chairman Hall asked for any nominations from the floor for the Secretary's position, there were none. John Jernigan was selected as the Secretary of the FUCC for the year 1995-1996 ( **Welcome John !** ). According to the by-laws, the current Secretary takes over the Vice Chairman's responsibilities, and the Vice Chairman advances to the Chairman position.

At this time Chairman Hall disbanded all the subcommittees.

Arlene Brown McGee, the new Chairperson, presented an appreciation plaque to Dave Hall for chairing the FUCC during the year 1994-1995.

Arlene Brown McGee reestablished all subcommittees except the Highway Lighting sub committee. The Chairs will continue to head the subcommittees for the year 1995-1996.

The meeting was adjourned at 12:00 noon.

Very truly yours,

A. Hamid Zahir

To sign on to InterLine, have your computer and modem call (941) 656-5653. When prompted for User-ID, type "NEW" and follow sign on instructions. Or you can telnet to InterLine via the Internet. The telnet address is 204.215.32.201. Please use real name and real information when signing on.

Usage is free of charge through first full calendar month with no obligation to continue. Annual InterLine subscription for industry users is \$79.

For more information about the FUCC mailing list and/or InterLine, please e-mail David V. Tilton, InterLine Sysop, at [tilton@iline.com](mailto:tilton@iline.com) or call the InterLine office during regular business hours: Toll-free at 1-800-282-1643, ext. 302.

- ***MOT PLATES***, Hamid Zahir  
No report at this time. The subcommittee will soon begin (hopefully) to review some of the issues with the FDOT either in conjunction with the Utility Task Team or independent of the Task Team.
- ***CONFERENCE PLANNING***, Ray Afeld  
Next meeting will be in Jacksonville area. Details will be provided later. Ray Afeld asked the group to please try to find sponsors for upcoming meetings. These sponsors may be Utilities, Engineering Firms, Contractors, Manufacturers, Suppliers, Surveyor, and etc.
- ***STRATEGIC PLANNING***, Ray Afeld
- ***STEERING***, Arlene McGee
  - Ray Afeld discussed the Strategic Planning items.
  - Mike Brady will be the Events Coordinator for the FUCC meetings.
  - Florida Common Carriers (Florida Facilities Council) wants to have a joint meeting with FUCC.
  - Tom Kennedy presented the proposal for the FUCC by-laws.
  - Discussed introduction of new members to the Committee by senior members. This will help new members to understand the FUCC and get to know other members.
  - Recognition of senior members and the methods of recognition such as a permanent name tag, color coded ribbons, etc.

Chairman Hall expressed appreciation for the sponsors and for the good job and displays they presented during the meeting.

VIKOMATIK  
VOLT INFORMATION SCIENCES, and  
SUNSHINE STATE ONE-CALL

Chairman Hall also thanked Ms. Toni Ulloa, Ms. Maureen Percel, and Ms. Doris Afeld for the fine job at the registration desk.

- ***AWARDS***, John Jernigan  
John Jernigan thanked the subcommittee members for the hard work and dedication for the past year. They are: Marilyn Pineau, Ray Reyburn, Dennis Black, Dave Hall, Nancy Biesinger, and Len Chioccia.

Chairman Hall presented the certificates of appreciation awards to the Subcommittee Chairpersons for the support and diligent work during the year 1994-1995. The Chairpersons were:

Carlos Solis	Tom Kennedy	Dennis LaBelle
Bill Hetherington	Dan Buol	Dennis Black
Hamid Zahir	John Jernigan	Ray Afeld
