DIABETES HEALTHCARE COMPANY

Our Supporters

The A1C Plan is a comprehensive platform that offers a user-friendly approach to execute a healthy lifestyle living with diabetes.

KEY FEATURES:

CONTINUOUS GLOCUSE MONITORING

Track and monitor your glocuse levels with either the Dexcom G7 or Freestyle Libre 3 stay on target and in range.

MEDICATION REMINDERS

Never miss taking medicine again with automated reminders.

APPOINTMENT MANAGEMENT

Appointment reminders and transportation resources to help you attend routine and preventive appointments."

Our Founder

Ray Arceneaux, MBA

Ray is driven by his personal experience of managing Type 1 diabetes.

Ray is a full-stack software developer who leveraged his personal and professional passion.

During the height of the Covid-19 pandemic, Ray created a prototype of the A1C Plan platform.

The platform is a solution to the increasing demand from underserved communities facing the diabetes epidemic.
