APRIL GUEST SPEAKER

Art Passanando, Contributing Editor for Treasure magazine, was our guest speaker last month. He talked about the work of the Shriner's Burn Center, about TREASURE WEEK: June 30th through July 8th where 100,000 coins will be buried and 9/10's of them will be silver. Art talked about some of his adventures in treasure hunting and about the future. It was a pleasure to hear him. Thanks for a great evening, Art.

EARTH DAY: 1990

The CFMDC and Joe Cook, president of the FMDAC appreciates everyone who turned out at Daytona Beach to collect trash and donate our coin finds to the Shriner's Burn Center. Afterwards we were invited to a bar-b-que of hamburgers and hot dogs before driving over to the beach for a mini-hunt. About 1600 coins (clad, silver & foreign) were planted before hand along with eight costume rings. I found 14 coins and one of the rings so it was a pleasant day for myself and the rest of us. Two members found some gold rings during our outing. Thanks members for your contributions.

MEMBER ILLNESS

Club member, Bill Wagner has been ill. Cards and calls are always welcome to get Bill back on his feet and join us at treasure hunting. Get well soon, Bill. Address: 635 Carvell Drive, Winter Park, FL 32782; phone: 671-5343.

MAY HUNT

Our monthly hunt will be announced at our next meeting. For details, please attend so they can be explained to you.

CLUB DISPLAY

Jim Ingram, our president, has informed me that our treasure display in the Orlando Public Library has been opened to the public. It can be viewed on the third floor during operating hours. Hopefully the display will generate good will and new members to our hobby.

SARASOTA: BEACHES AT THEIR BEST

Though Sarasota is about an hour and a half drive for many of us, they do present good hunting.

SIESTA PUBLIC BEACH: located mid-island off Midnight Pass Road. On weekends, there is upwards of 15,000 people using its facilities.

CRESCENT BEACH: located south of Siesta Beach where the Point of Rocks can be found. Favored by snorklers of the area.

TURTLE BEACH: located on the southernmost tip of Siesta Key on Midnight Pass Road and is a tranquil beach with smaller crowds than Siesta Beach.

WATER HUNTERS: BEWARE

The months of May and June are the breeding period for Alligators in Florida. Use caution when TH'ing in freshwater lakes and rivers as the usual docile 'gators become aggressive and can be a danger to water hunters.

CAPS AND APRONS

During last meeting, Madeline Corder displayed the hats and aprons that were ordered for the club. You can purchase them at the meeting with and without the club logo.

EDITOR'S NOTE

The Gold & Silver Annual published by Western & Eastern Treasure will be carrying an article I wrote about my last trip to North Georgia gold fields.

I'm attempting to write treasure articles for such publications as: AARP, USAIR, Chevy Outdoors and Moose magazines. Writing for these magazines is a challenge and it's profitable. An article in a treasure magazine nets the author about \$50.00 when the others pay a maximum of \$1,000. Least ways if I make a sell then I'll always have a means to upgrade my equipment thus my hobby keeps paying for itself.
