...DISCOVER FAMILY FUN IN METAL DETECTING

...OCTOBER AND NOVEMBER NEWSNOTES...

Vice-president Ray Leist visited Atlantic City, New Jersey the weekend of October 12-14, 1990 for the Federation of Metal Detectors & Archaeological Clubs, Inc. meeting. The FMDAC has several chapters throughout the United States. Ray is Vice-President of the South-East Chapter and Barry Bustillo, a member of the Club serves as President.

Ray reported that the conference was a very busy one full of seminars, meetings at the flamboyant Atlantic City resort. We hope to have a show and tell by Ray at the meeting November 9.

Harry Rainey reports that he has written the National Archives in Washington, D.C. for information regarding a plat map of Camp Orange Home in the hopes that one is available. The site is the August hunt located near Wildwood, Florida. In addition, he has asked for a list of the Army & Army Air Force Training Bases that are/were located in Florida. The club may make a return visit to Camp Orange Home in the future.

Club members are getting geared up for the November 10, 1990 "Open Treasure Hunt" to be held at Moss Park in South Orange County.

Registration starts AT 8:00 and ends at 9:00 a.m. The first hunt begins at 9:15 a.m with a Silver Coin Hunt, a Special Top 10 Hunt, a Fun & Token Hunt and a Junior Hunt scheduled before the awards ceremony at 5:00 p.m. The raffle drawing will be also at this time.

We anticipate 70 entrants with competition vying for the top cash prize of \$100.00 and plaques plus prizes such as metal detectors and booty in silver and gold. There will be about 4000 coins "planted" by club volunteers for the entrants who will be coming from all over the United States for chance to compete in the men's, women's and junior's competitions. Don't forget to sell your raffle tickets! Every ticket sold supports the club in promoting the hobby!

The drawing for monthly "pot" went unclaimed again this month. The number "7" was drawn (a lucky number??) but no takers. This month the pot swells to \$30.00! Come pay us a visit! You may be the lucky one!

At home with Milton and Lorine Raw, an interview of 2 of our charter members by Barbara Pietrzak.

In early October, I had a interview with Milt and Lorine Raw. Many of you are familiar with the friendly couple who "host" the show-and-tell table every club meeting year in and year out. They have had an interesting married life together and are super examples of how to have family fun while detecting!

Milt met Lorine at a Sunday School Easter Egg Hunt while he was stationed at Carswell AFB in Ft. Worth, Texas. They dated for a while before their marriage in June 1948. Milt was transferred to Japan where the family remained until 1955. In 1953, they had a son, and in 1955 they were transferred to Orlando AFB. Their daughter was born in 1957. In October 1963, Milt retired from the Air Force in Orlando, Florida. They have lived at their current address for three years now, and have grandchildren aged 5 and 18 months, respectively.

A friend from Kissimmee, Florida introduced Milt to the world of metal detectors with his home-made detector. Both of them were intrigued with detectors from that point on, and purchased their first detector from Kellyco and Stu Auerbach, the founder of the Central Florida Metal Detecting Club. Over the years they have become so "hooked" by the hobby that they have participated in events where each has won 2 detectors each! Lorine won hers last at a Adventurers International dinner several years ago. And Milt won his at a meet at Turkey Lake Park several years ago too!

Lorine's fondest memory of a find is one of a class ring lost 3 years, found by her and returned to an amazed owner who was just besides himself that his class ring had "returned!"

The club welcomes the following new members.

Gary Geimer Stan Tryzbiak
Stanleigh Planson Jenni & Don Wilson
David Rose

The club offers its condolences to Bill Ackerman on the death of his Mother.
