

Golf Rules,
By Kellie Bilton

As I write this article The Masters Golf Tournament is on TV. Someday maybe I can get there or win the Powerball lottery to afford the tickets.

Rules: Equipment

Clubs: You can carry a maximum of 14 clubs in your bag. If you have more leave them at home to avoid any complications. You don't have to have 14 but you must have 1 club.

Ball: You must finish a hole with the ball you started it with. You can change a ball between holes but not during the hole. However, if you lose a ball during a hole, you can use any other ball as the new ball in play. Tee box/teeing ground

You must tee the ball up behind the line created by the tee markers. You can tee it up anywhere between the two markers and you can tee it up as far back as the length of two drivers. Never in front of the tee markers.

If the ball falls off the tee before you swing at it, it doesn't count as a shot.

If you take a practice swing while the ball is on the tee and hit the ball, you do not take a penalty. You must put the ball back on the tee and play your shot, still playing shot number one.

If you swing at the ball and miss it completely, that counts as one shot. If it falls off the tee from the wind you generate you must play it from that position without putting it back on the tee. You are now hitting two.

March 18 Saw another successful Can-Am Tournament which the US won. Only 1 point separated the countries. The winners of the Golf Cart decorations 1st File's and 2nd Gagnier's.
