Collection*

Grigio Orobianco Marble

The underlying colour of this marble is dark or light grey with white and golden veins, this particular colour variation makes it unique and very elegant.

Black Forest

A deep grey, stormy marble with waves of white, grey, and beige, and occasional deposits of sparkling green quartz.

Blue Roma Marble

is a brazilian quartzite with a strong visual impact texture given by the strong veined structure. Blue Roma is the perfect natural stone for those looking for uniqueness in the research and selection of materials for their interior spaces.

Silver Travertine

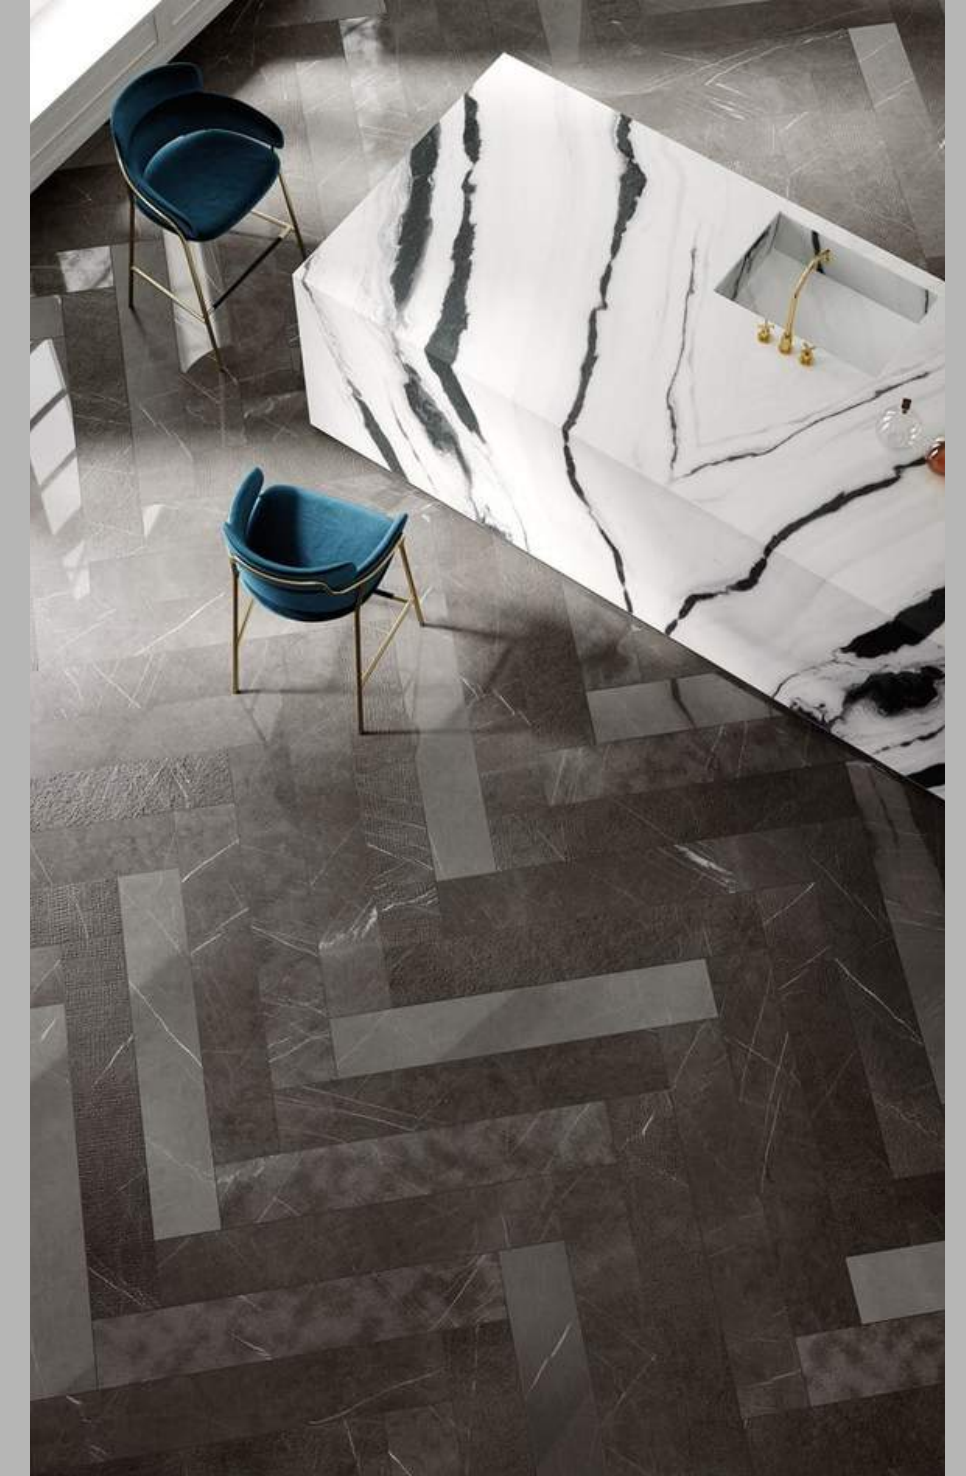

More of a limestone than a marble, the Silver Travertine is a rich color blend of silver and grey shades with flowing layers of off white, cream and beige accents. It is an ideal material for a wide range of applications.

PATAGONIA

Patagonia is a unique quartzite with patches and patterns in browns, cream, black and grey.

White Panda

Patagonia is a unique quartzite with patches and patterns in browns, cream, black and grey.

Peitra Grey

Peitra Grey is a light to dark grey marble with intense white veins

Volakas

Volakas presents a thick, unstructured veining pattern which can range from light sepia brown all the way to subtle hints of taupe grey lines on a soothing crisp white background.
