

# *The Bulletin*

---

**NO POLITICS HERE, TRYING TO STAY NEUTRAL ISN'T EASY SINCE BOTH POLITICAL PARTIES ARE, TO USE A TECHNICAL TERM, MESSED-UP!** Our Constitution has some FAIR standards and **ARTICLE 1, SECTION 8** tell us what government is *allowed to do*. If we can also except these issues, we'll stay more accurately informed.

**Issue #1** – Our borders have to be secure to control who enters as non-citizens. Every country in the world acknowledges that in their laws also.

**Issue #2** – Government can't spend money they don't have, which exploits our national debt, causes inflation and masks a lot of problems. Cause & effect of inflation makes all products, labor and actions more expensive.

**Issue #3** - Bills in congress can't be Omnibus actioned. One bill one action or cause only. "An omnibus spending bill is a type of bill in the United States that packages many of the smaller ordinary appropriations bills into one larger single bill that can be passed with only one vote in each house of Congress."

**Issue #4** – Fair economic reporting. Explanations on why the statistics are what they are.

**Issue #5** – Since citizens are informed by TV, print, internet and radio, the news must be with-out prejudices. This rule will be our hardest standard to control.

All other issues are assigned to the states. Voter are you listening?
