2024 PRODUCTION UNDERWAY

Bowling Green assembly plant workers are cranking out 2024s. Despite some of the chaos surrounding the rollout of the UAW strike, it's being reported that 2024 C8 production started on time, with assembly beginning on 9/18/2023.

Despite this good news, there are still a couple of things that could affect Corvette enthusiasts. First, the UAW strike could still disrupt (and possibly shut down) the parts supply for our beloved C8. Also, Bowling Green assembly workers may be called to leave their jobs in support of the UAW strike.

The Stingray and Z06 models are currently on the assembly line, with the highly anticipated E-Ray set to begin in approximately a month.

NCM UPDATE

by Ron Grove

Registration is now available for the NCM 30th Anniversary celebration with the Atlantic Caravan. There are many stops and events scheduled, but you need to only attend those you are interested in and of course the fee will reflect your choices. The milestone anniversary celebrations are well attended with thousands of Corvettes and people will be heading to Bowling Green for the event. Caravans help to insure that you can secure lodging and activities for the gathering. Should you be interested in attending – let me know and I will forward some information to you.

I attended the NCM 29th Anniversary event and it was great. The Corvette engineers discussed the 2024 models and they are on target to produce over 53,000 Corvettes for 2023. The 2024 model year started production mid-September. A new Corvette Assembly Plant Manager Ray Theriault was introduced. The Hall of Fame event saw John Amgwert, Dan Binks and David Wickham get Inducted.
