6.0 Programmes

PRO-GREEN MPV has the following major programmes

6.01 Peace Advocacy and Conflict Prevention (PeACe)

Youth peace building to promoting society cohesion

This programme seeks to identify potential conflicts either between individuals, groups or society and resolving those conflicts. The societal peace advocacy is the backbone of the peace building initiatives. A complete peaceful coexistence can be realize by Youth Leadership & Management so as to denounce violent in the society.

6.02 Health and Environmental Sustainability (HealErS)

Heal one's health and environment

Sustainable development is vital in environmental conservation. Incorporating environmental consciousness in the developing state can lead to more productive developed national with no destruction to its environment. This programme goals includes awareness and education through HSE Day, Occupational Safety campaign, Distribution of pamphlet, fliers and other materials that promote safe environment, Organized International Earth day as means of supporting the green movement of environmental preservation, Emergency response volunteers, Community Outreach initiatives and Green plantation initiatives, Fitness Day, Keep your city green and clean as well as Research and Development targeting sustainable development and health. Through our slogan, 'green is clean', we can develop a sustainable South Sudan.

6.03 Livelihood and Education (LivE)

Toward youth entrepreneurship and self-sufficiency

The programme focus on agriculture, youth economic empowerment, community welfare and education for all age group, gender, religion and ethnicity.

South Sudan has the riches of fertile land for farming that can be extended from small subsistence farming to a food basket food producing state. Skilling local populous specially the illiterate to practice agriculture that can generate incomes for themselves and their families would not only result into food secure South Sudan but also promote peaceful coexistence between societies. This programme also seeks to promote education for all ages and genders for people's driven development country wide.
