

Academic Programs in 2022-2023

EXPERIENCE YOUR ENVIRONMENT

Providing ITO's award-winning environmental science program to PYLUSD students for the 3rd year with a focus on EP&C & NGSS. Free to students/families

COMMUNICATING WITH CONFIDENCE

The Learning Lab has been offered at 6 schools, empowering students to communicate with confidence, developing 21st century skills and so much more!

TECHNOLOGY & CODING

Collaborating with partners (Microsoft, Google and the Coder School) to provide technology-based, student-centered programs to students.

1

INTERNSHIPS

Select MS & HS students receive coaching and support to develop their communications, leadership and project management skills by coordinating and leading new or existing RF projects.

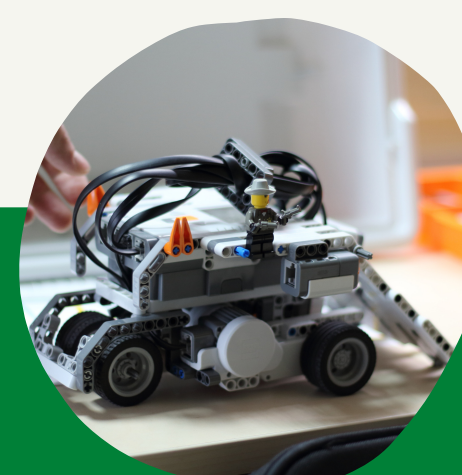

2

FROM THE INSIDE-SPEAKERS SERIES

Distinguished PYLUSD Alumni return to share their stories and inspire PYLUSD students, offering college & career insights in this Virtual Program.

4

FLL ROBOTICS

Led by High School students, Travis Ranch students build missions and learn about the First Lego League (FLL), global competition, supported by Amazon and Qualcomm

5

6

Providing hands-on, personal learning experiences
