When using electrical appliances, basic safety precautions should always be followed, including the following:

1. Do not touch hot surfaces. Use handles.
2. To protect against electric shock do not immerse cord, plug into water or other liquid.
3. Close supervision is necessary when any appliance is used by or near children.
4. Unplug from outlet when not in use and before cleaning. Allow cooling before putting on or taking off parts, and before cleaning the appliance.
5. Do not operate any appliance with a damaged cord or plug, should the appliance malfunction, or if it has been damaged in any manner. Return appliance to the nearest authorized service facility for examination, repair or adjustment.
6. The use of the accessory attachments is not recommended by the appliance manufacturer as it may cause injuries.
7. Do not use outdoors.
8. Do not let the cord hang over the edge of table or counter, or touch hot surfaces.
9. Do not place on or near a hot gas or electric burner, or in a heated oven.
10. Always attach the plug to appliance first, then plug the cord in the wall outlet.
11. Do not use the appliance for other than intended use.
12. **WARNING:** Never leave the appliance unattended whilst in use.
13. **Warning:** keep the supply cord away from the heating tip and metal enclosure while using.
14. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge unless they have been given supervision or instructions concerning the use of the appliance by a person responsible for their safety.
15. Children should be supervised to ensure that they do not play with the appliance.
16. If the SUPPLY CORD is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
17. **WARNING:** This tool must be placed on its stand when not in use.
