

## View Any Data Set:

- This provision allows customers to create any report in I.F.A.R.M. from this one function.
- No need to go into the program functions to output a specific report.
- Use the different reporting options to select a specific report output package.
- Customers can drag in single or multiple fields, or even entire farms / growers.
- Reports can be created immediately, or scheduled for a specific date / time.
- If desired, specific documents / files can be attached as part of the reporting process.
- This allows VRT recs to be reported as well from the Saved Setups.
- Customers can create a setup that saves desired reporting options for ease of use and time savings.
- Choose multiple email addresses to send results.
- Easily add new contacts.
- Emails are sent with a download link. Clicking the link will open the reports from the cloud. Actual PDF files are not sent.
- Once PDF files are open, customers can print or save the files to their computer.
