

C-4 CERAMIC POLYMER GLAZE

C-4 Ceramic Polymer Glaze is a proprietary long lasting polymer innovation, creating unequaled shine and protection. C-4 Ceramic Polymer Glaze protects all automotive exterior surfaces from UV degradation, oxidation, bugs, tree sap, acid rain and other environmental threats.

The following represents recommended concentrations according to application. Ensure surfaces are properly cleaned and rinsed free of any chemical residues. Best applied through most controlled foaming devices.

It may also be applied through v-jet or k-nozzle arches at approximately 1:75-1:128 depending on dwell time before final rinse.

Typical application ranges from 25-35 mls per vehicle depending on desired shine and feel.

Consult with your Top Line Chemical Solutions representative for maximum efficiency and results.
