

## FORCE

### HIGH PRESSURE SOAP

*"Top Line Chemicals is dedicated to your bottom line performance."*

Force Foaming Prep Soap is specially formulated for high pressure soap application. It safely breaks soil bonds on exterior automotive surfaces with the assistance of high-pressure application. Works well with chemical application high pressure prep guns for multi-purpose road soil removal for bumpers, side view mirrors, windshields, fenders and rocker panels, and rear of vehicle where soils accumulate.

Recommended dilutions vary depending on product application, available dwell time, car wash configuration, ambient temperature, and other environmental conditions.

- General foaming application dilution range during warm or hot seasons is 1:90 – 1:128
- During cooler seasons 1:128 -1:156.

For best results apply product from the bottom up on vertical surfaces.

Consult with your Top Line Chemical Solutions representative for maximum results.
