FORKLIFT ATTACHMENTS

1 Jib Boom

- Suitable for straight-mast and extendable-reach type forklifts
- Telescopic two section tubular steel boom
- Manually telescopes from 7' to 12'

2 Quick-Tach Truss Booms

- Combine the lifting capability of a crane with the speed and manoeuvrability of an extendable reach forklift
- Suitable for use on most surfaces including muddy and rough job sites
- Built to last with fully welded, square tube construction for extra strength and durability

3 Heavy-Duty Forklift Buckets

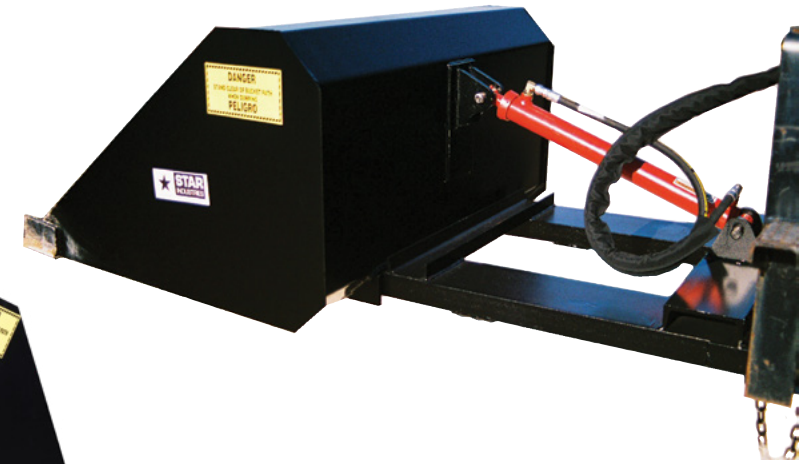

- Reaches places normal loaders can't
- Choose from two styles: Quick-Tach and Slip-on-the-Forks
- Extra deep bucket to carry irregular shaped loads easier
- Rugged, heavy-duty construction for long life

4 Self-Dump Buckets

- Load sand, gravel, mulch and most other material
- Manual dump and hydraulic dump models available
- Slips on the forks — installs in minutes

5 Concrete Hoppers

- Place concrete in hard to reach areas with your forklift
- Save the cost of a pump or crane
- Lets you place concrete when you are ready

6 Self-Dump Hoppers

- Available in five popular sizes
- Suitable for straight-mast and extendable reach forks
- Ideal for removing concrete, plaster, brick and other construction waste

7 Trash Hoppers

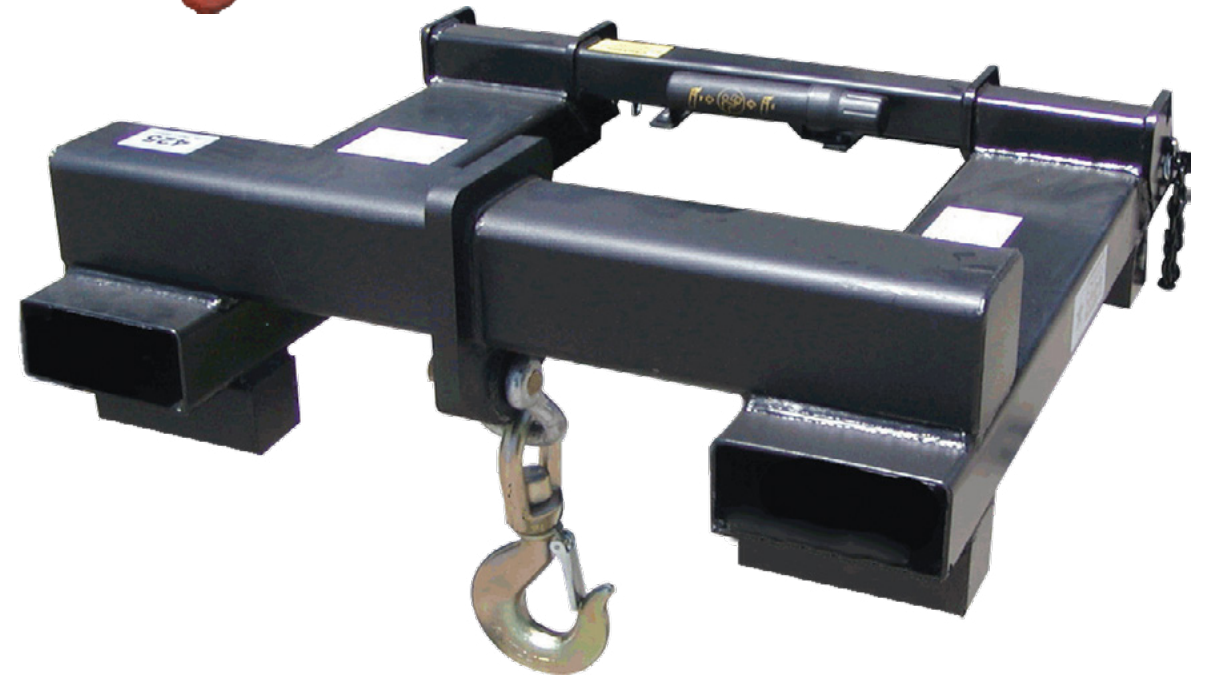

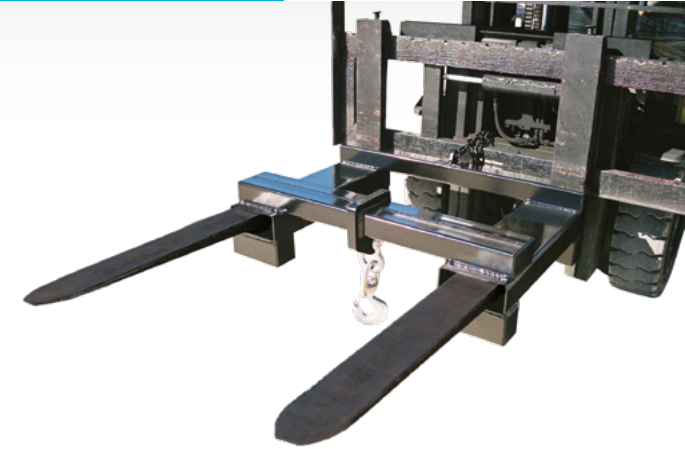

- Forklift places the hopper where it's needed—floor, elevated deck or roof
- Workers load rubbish as work progresses
- When the hopper is full, the forklift picks it up and carries it to the disposal area

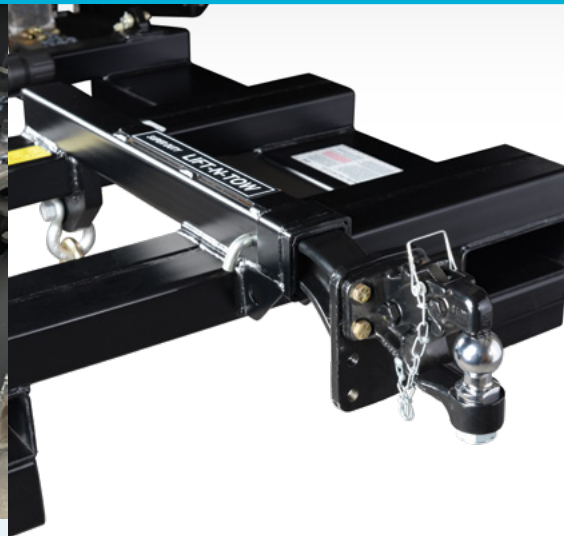

8 Universal Fit Lift Hook

- Includes heavy-duty swivel hook with latch and bolted anchor shackle
- Easily slides on the forks and is pinned behind the heel for fast and easy securement
- Can be used with straight-mask and extendable-reach forklifts
- Rugged heavy duty construction for increased durability and long life

9 Lift n Tow

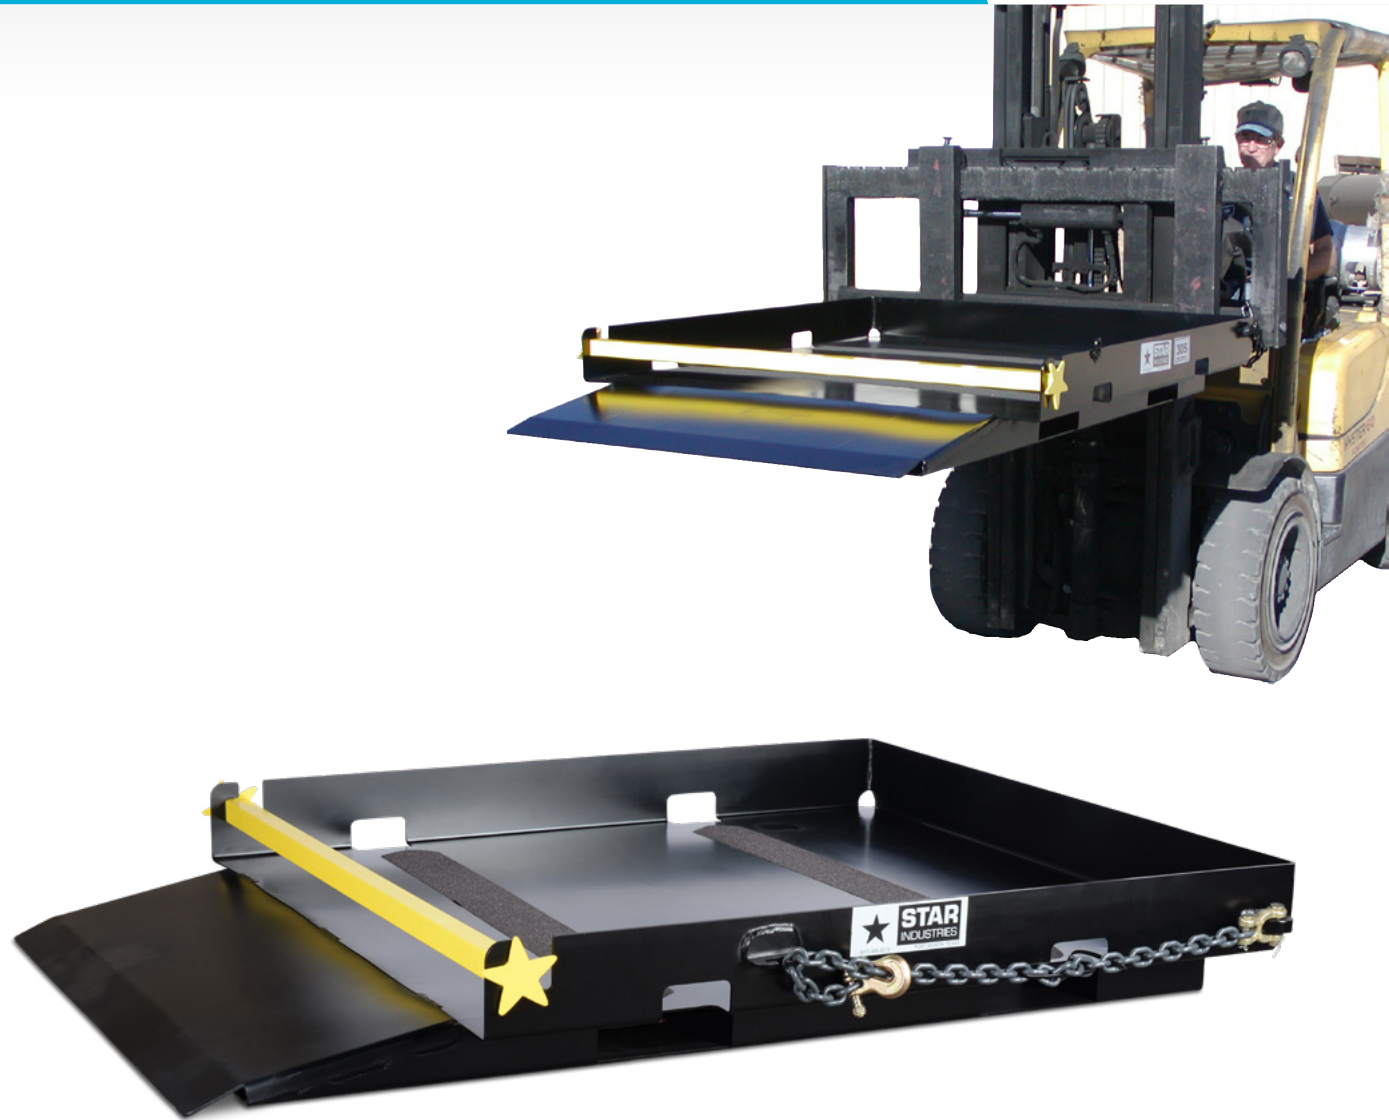

- Universal 'slip on forks' style
- Easily swap between ball, pintle and combination hitches
- Rugged heavy-duty construction for increased durability and long life
- Includes convenient tool tray on 1390B

10 Safety Loading Platform

- Shortens customer wait time
- Cuts labor costs
- Prevents back injuries
- Reduces damage to equipment

11 Safety Work Platform

- Reach over obstructions and access places where scissor lifts can't
- Faster and cheaper than scaffold
- Self-closing gates, rigid modular guardrails and lanyard tie down points for increased operator safety

12 Industrial Work Platform

- Work comfortably in the safety of a full guard rail system
- Safer than ladders and any other 'make-shift' platform
- Platform frees both hands to get the job done faster

13 Load n Tow

- Shorten customer wait times
- Cut labor costs and prevent injuries
- Reduce damage to equipment
- Built-in receiver for moving equipment

14 Heavy-Duty Spreader Bars

- A safe and convenient attachment for handling rebar and rebar cages
- Popular attachment with metal building erectors
- Perfect for handling long metal building beams as well as steel and wood trusses

15 Wire Mesh Handlers

- Lift & transport wire mesh with ease
- Up to 7,000 lbs capacity
- Suitable for forklift or crane
