

WHAT ARE CLIENTS SAYING

EEC COACHING CERT PROGRAM

Emerging Excellence exceeded my expectations while taking the life coach certification course. I was prepared to gain knowledge and skills for starting my own coaching practice. However, I was not expecting the enlightening self transformation and interpersonal connection with the other members going through the course. Monisha is a unique and gifted individual and is truly a Transformation Excellence Coach. I can't say enough good things about this amazing lady and her program!

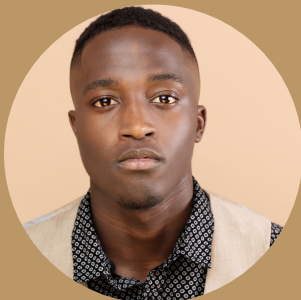

Being apart of Emerging Excellence Consulting Certified Life Coach Program has been a life changing experience. Coming into the life coach program I did not know what to expect. However, with Monisha guidance and direction I was able to start up a new coaching business within just a few weeks. I am so grateful for this experience and opportunity to grow and learn from this amazing lady. I have created a business, a website, and had clients before the program had even ended. She was able to answer any questions I had about life coaching. It was great going through the course with other students who are like minded. I believe it helps us build a network for a lifetime.

My experience was a blessing I have learned so much and grown on so many levels. I appreciate Monisha and the way in which she taught the course. She had a good balance of required learning, life learning and applied learning! I feel blessed and prepared to work.

I truly enjoyed my experience. I learned a lot from the instructor. I would definitely recommend it to other future coaches. The spiritual aspect of it makes it very unique and impactful.

Monisha is a Holy Spirit guided fire-starter! If you want to grow your business, or work on personal issues, I highly recommend you contact her. She is positive, supportive, trustworthy, knowledgeable, observant, focused, patient, and a clear communicator. She initially helped me focus my dreams into goals and start my business. She keeps me on track to achieve my goals.
