

PRO SERIES 360™

A HEALTHIER
SOLUTION TO
CLEAN AND
SANITIZE YOUR
BUSINESS!

Today people are aware of the importance of a **safe** indoor environment.

Professional cleaning is not always as thorough as it should be and cleaning chemicals pose a **variety of harmful** health hazards.

Inefficient cleaning methods

such as...

Fogging:

- Disinfectants used may not be safe or effective
- CDC hasn't deemed this method as the most effective way to combat Covid-19

Vacuuming:

- Only removes particulates
- Doesn't eliminate virus, bacteria or germs

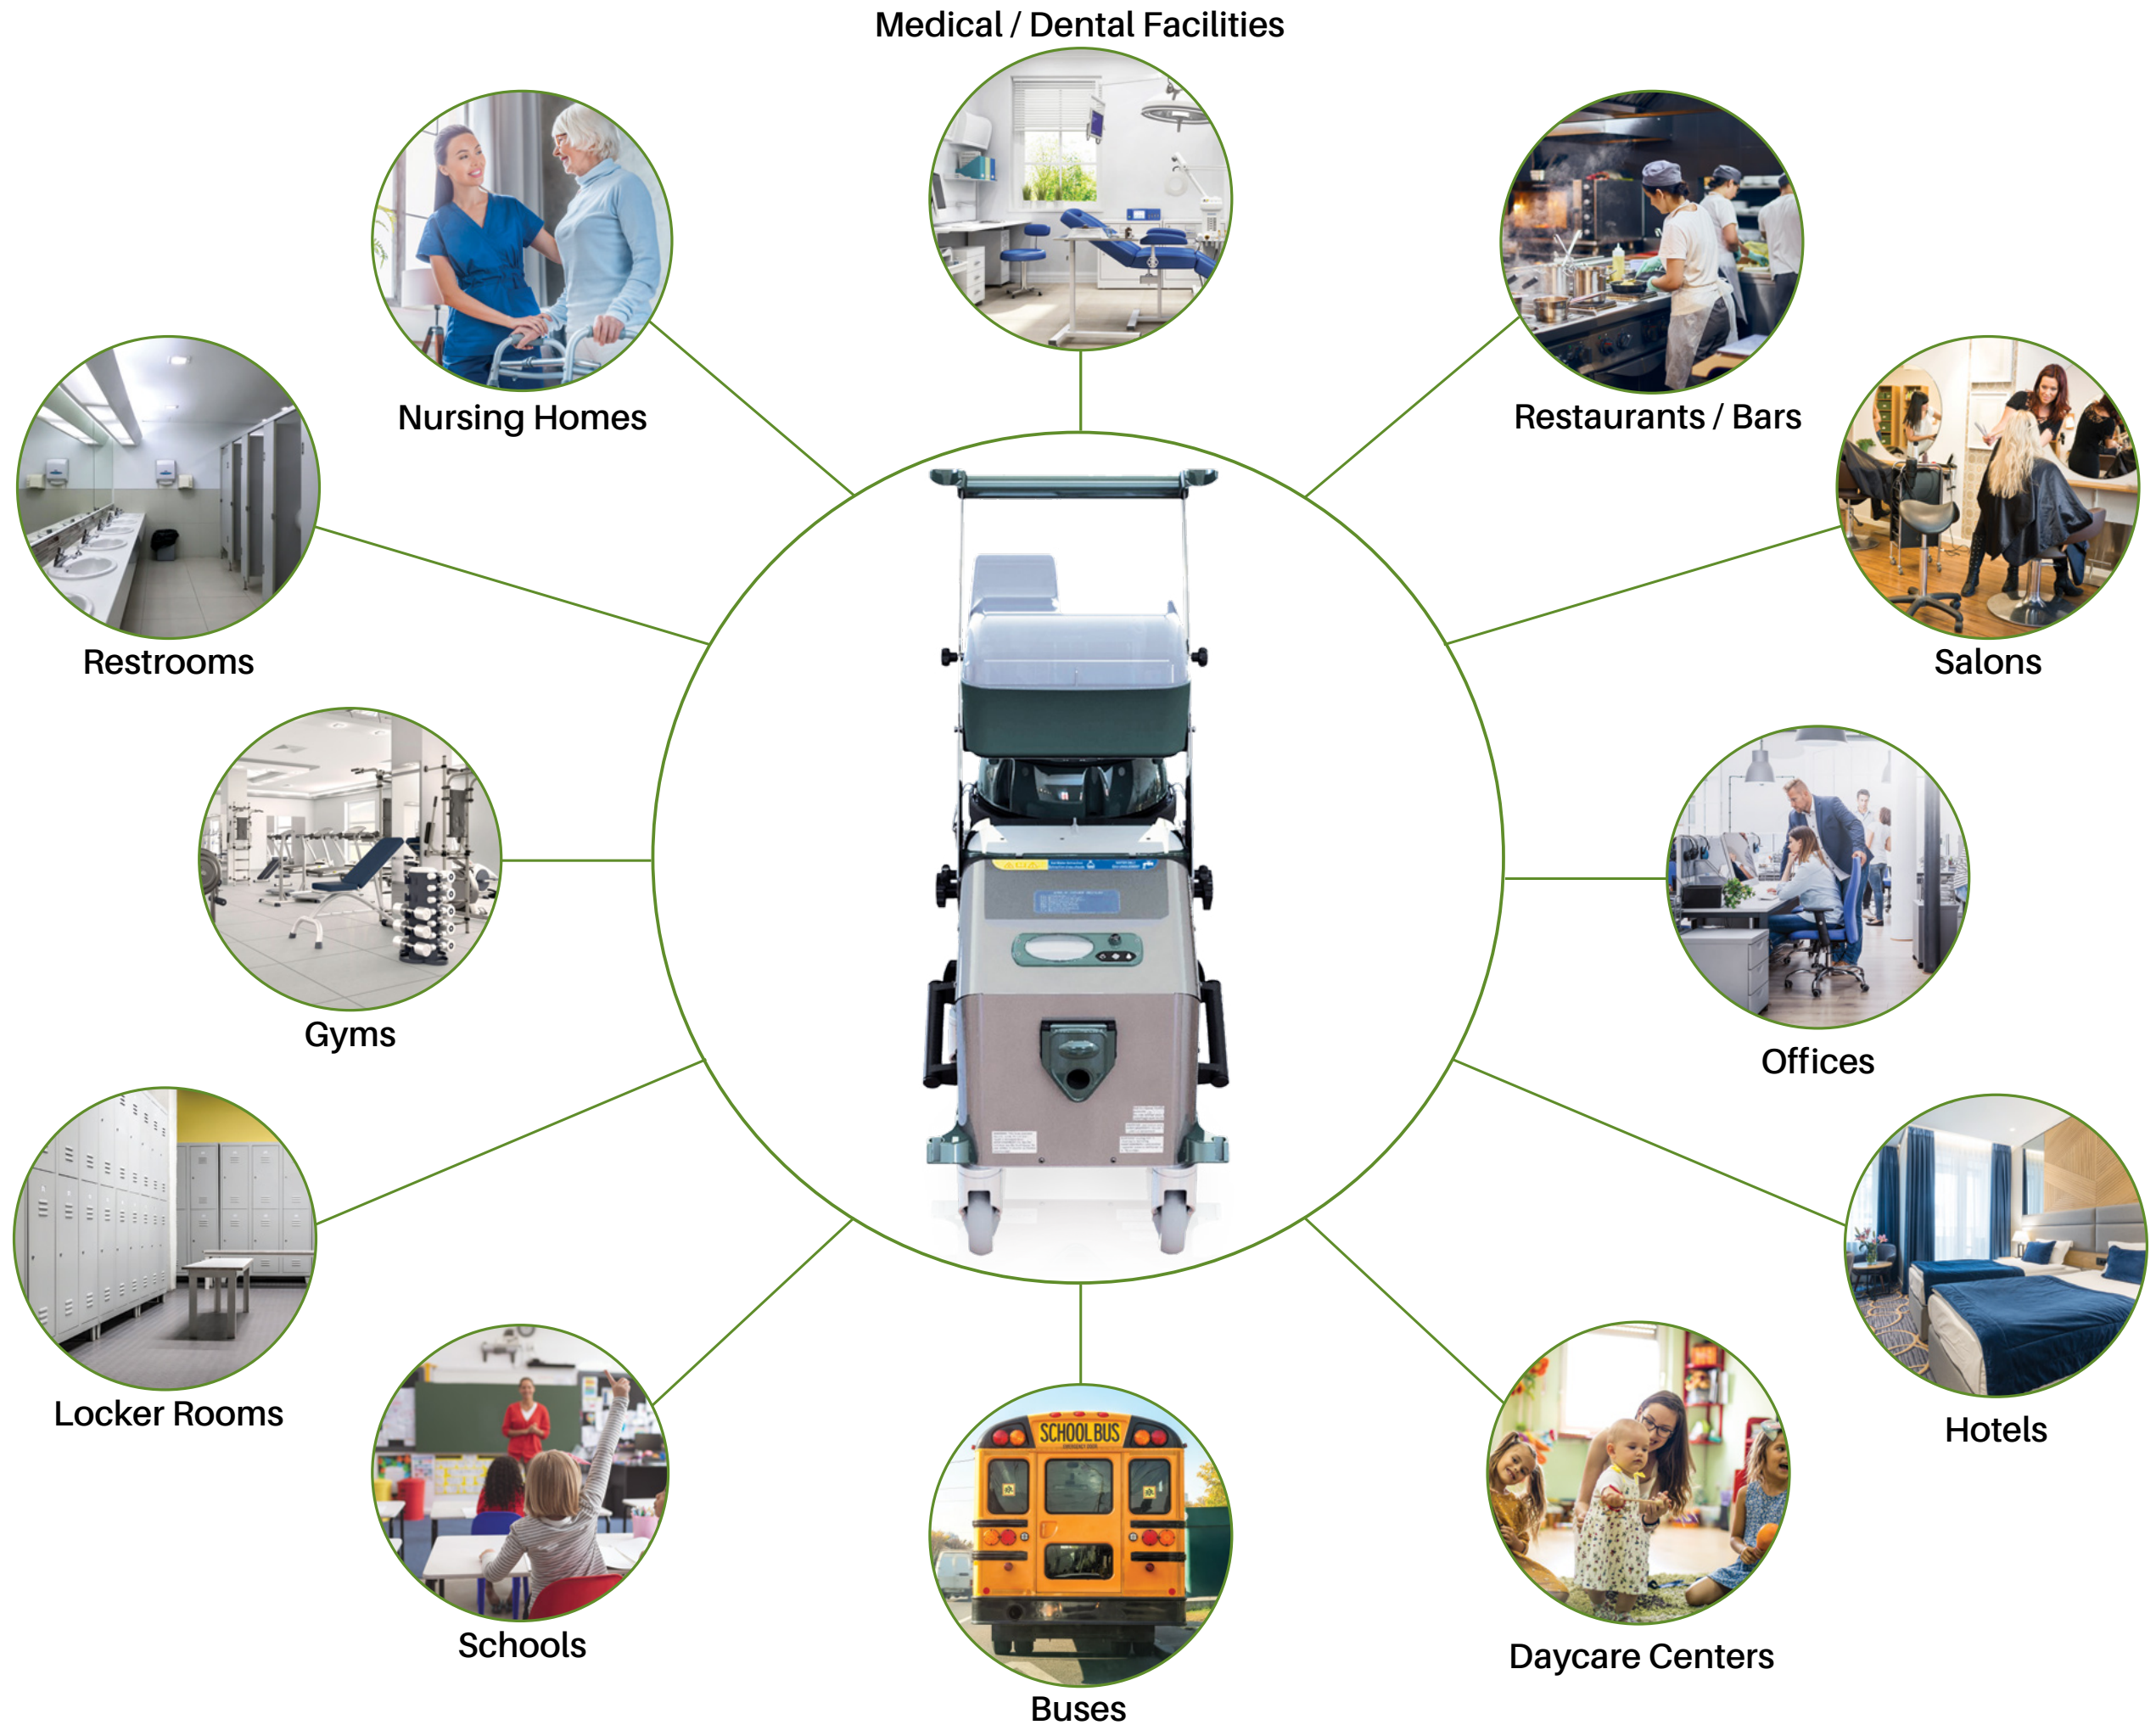

Mopping:

- Spreads toxic chemicals and dirt
- Breeding grounds for germs and bacteria

Now you can **make your business safe** by eliminating the risks associated with the use of toxic chemicals!

Carico's Pro Series 360 is a commercial grade sanitizing system that produces dry vapor steam at a temperature of up to **360°F**.

Carico's **Pro Series 360** is the only unit you need for a clean and safe business!

3 Machines in 1:

1 Ultimate Commercial Steamer

- Dry vapor steam temperature: **360° F / 175° C.**
- Neutralizes mold, bacteria, viruses and germs
- Fast and hygienic cleaning without chemicals
- Dual boiler for rapid heating and continuous refill.
- 3.3 liters continuous fill boiler with an additional 2 liter reserve.

2 Powerful Vacuum

- Wet/dry capability.
- Water filtration with washable filter.
- Collection tank with capacity volume of 6 liters/1.6 gallon.

3 Hot Water Extraction

- Equipped with hot water extraction tank for extra cleaning power.
- Ability to use with non-foaming, neutral cleaning agents.
- Extraction tank with capacity volume of 2 liters/.5 gallon.

Carico's Pro Series 360 is the solution
for all your sanitizing needs!
