PRICE LIST to date herewith:

DEAR SIR,

In presenting our ANNUAL PRICE LIST—with every class of Tobacconists' Goods thoroughly represented and up to date—we wish particularly to call your attention to our terms (see page 6), where, to meet the demand for better discounts, we are going straight to the very bottom, and offering advantages hitherto only obtainable by the exceptionally large firms, thus placing the ordinary dealers in a position, *where necessary*, to compete with the various Stores and Retail Cutters who have of late been playing such havoc with the profits: this, we are convinced by our own experience, is the only effectual method of enabling our customers to hold their own against Cutters.

In sacrificing part of our already small percentage of profit, we trust to the increased volume of business to make good what would otherwise be a serious loss to us, and we have every confidence that the terms offered in the shape of special discounts, and the convenience of obtaining everything connected with the Tobacco trade through one channel must recommend itself to our numerous friends in such a manner as to produce a feeling of mutual benefit that it would be impossible to work under any but our "Mixed Parcel System, which has been thoroughly tested during the last seven years, and it is now universally acknowledged that it has proved to be all that we originally claimed for it.

Our present list is much more comprehensive than any of our previous issues, the goods being more profusely illustrated, with the object of giving our customers a better idea of our Stock, more particularly in cases where it is not convenient for them to visit our Warehouse and select the goods themselves.

As Cigarette Smoking is immensely on the increase, we devote considerable space to listing all classes of goods. The variety, value offered, and extent of this branch of the trade cannot, however, be gauged by the number of Brands listed; but as an isolated instance of the purchasing power of the nimble penny, we would recommend you to try a sample box of "Real Joys," which undoubtedly beats all records.

Always mindful of the necessity of keeping up to date in everything, we have during the past year, at a cost of over £12,000, built and equipped a new manufactory, putting down by the most modern plant and machinery possible to obtain. Further, we have located our new works in Shrewsbury, where there is an abundance of cheap labour of the very best class, there being no other works of any kind in the town. We employ there upwards of 200 hands, and could at any time double the number, if required, at an hour's notice. We are thus more than ever in a good position for supplying the non-proprietary portion of our trade. We therefore ask, as a favour, that our customers will give us a trial for any of this class of Tobacco which they may have a trade for. We make specialities of various Flakes, Navy Cuts, Hand Cuts, and Cavendish in all its various forms; also Roll, particularly Pigtail (Black and Brown).

We may also mention that we have introduced many lines of Packet Tobacco to suit the present-day tastes of smokers—all put up in square packets, neatly wrapped by Rose's patent packing machines.

For details of Brands, &c., see page 10.

Very faithfully yours,

**SINGLETON & COLE,  
LIMITED.**

P.S.—In comparison with other Price Lists, we must request our customers to note the liberal discounts which we allow, whereby our prices, which are in all cases fixed at the Manufacturers' lists, are lower and more advantageous than those offered by any other house; in addition to which, our immense stock to select from, and our central position in the Midlands, gives us opportunities for prompt despatch and quick delivery to which no other firm can lay claim.—S. & C.

We have been appointed Agents for the above mentioned justly celebrated Cigarettes. We guarantee them to be made from the finest selected Cavalla and Yenidji Tobacco, and all made by Messrs. Melachrino inform us that none but the most experienced men are employed, and the Tobacco is hand-cut, as machines destroy and spoil the natural flavour and taste of this high-quality Tobacco.

The extreme care used in the manufacture prevents the Cigarettes from being dusty, which is a great advantage in smoking.

## TOBACCO EXTRACT,

For Syringing Plants and Cattle Dressing - 4/- per lb.

1-lb. of this Extract will make 4 gallons of very strong Tobacco Water.

---

To make it worth the trouble for Tobacconists, etc., to look up the Farmers and Horticulturists in their district, we offer the inducements enumerated at foot hereof for handling the residuums of the Tobacco Trade, which will enable our customers to supply this class of Goods at our List Price.

These goods can be ordered along with regular supplies, or sent separately to any address. In either case carriage will be paid on £2 value and upwards, whether it is a mixed parcel or all residuums; and we venture to say, from the numerous enquiries we get for small supplies from remote districts, that if this branch of our trade is cultivated, it will not only be appreciated by local Gardeners and Farmers, who find it difficult to obtain fresh supplies, but it will lead to increased custom for other goods, and at the same time add to the vendors' profits.

On any of the four articles mentioned above we will allow our customers 2d. per lb. off List Price, on quantities of 1-lb. to 28-lbs., and 3d. on 28-lbs. to 56-lbs., and for 1-cwt. and upwards 4d. per lb. off.

# A CHEAP TRIP TO BIRMINGHAM.

---

We have decided to introduce into our "Mixed Parcel System" an entirely new feature, viz.:—We shall allow **Return Railway Fare** to any Customers residing within a radius of **5** miles from Birmingham, who purchase **FANCY GOODS** to the value of **£10** and upwards. We shall also pay the **Return Fare** to Customers over **50** miles away but not exceeding **100** miles who purchase **FANCY GOODS** to the value of **£20** and upwards.

Our object in offering this inducement for Customers to come to Birmingham is twofold. First, to give them the opportunity of selecting their goods from bulk, which is more satisfactory to buyers; and secondly, it enables us to sell the goods to them so much cheaper than it is possible for those Houses to do who have to send out travellers, with piles of luggage, incurring the enormous expenses inseparable from travelling, which, of course, the buyer must pay.

Though our method may, in the first instance, cause our Customers a little more trouble, we give full advantage of the expenses thus saved—in fact, we do much more than that; hence our reputation for selling cheaper than any other house in the trade.

We solicit an inspection of our immense stock, which will well repay the trouble.

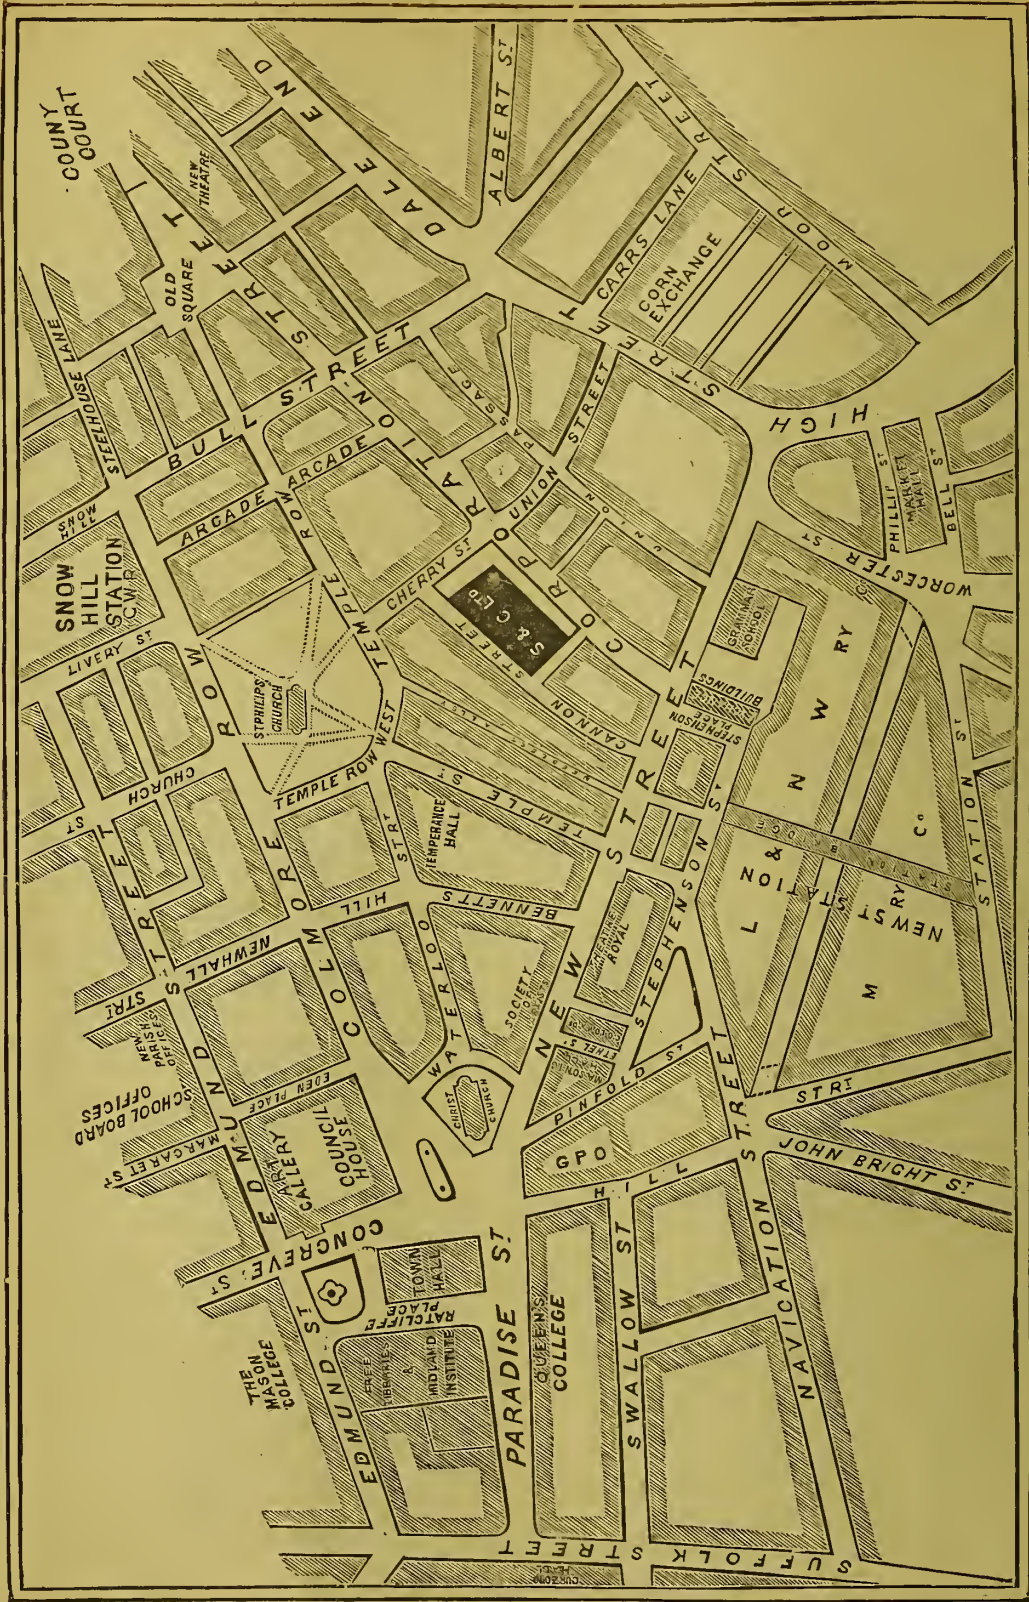

## OPENING ORDERS.

NEW BEGINNERS will find in our stock all they require, special attention being given to Opening Orders, and great care taken that nothing but saleable goods suitable for their neighbourhood are supplied. Those acquainted with the trade will fully understand the importance of this precaution, and we invite an inspection of our stock before handing over money to strangers for goods they have never seen, and which very frequently turn out quite useless for their requirements. \* \* \*
