

Pergola within ground floor gardens

Shed

Pergola on roof gardens

Bespoke raised planters

Raised timber planters

Resin gravel

Timber screen/ trellis

Timber garden seat

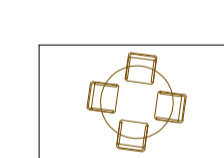

Informal seat/planter

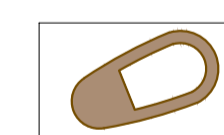

Informal picnic bench

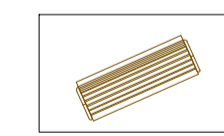

The gardens for the over 55s are provided at ground level and as rooftop terraces at different levels. They will be communal spaces with areas for growing vegetables, planting, sitting and social interaction with other residents. There would be perimeter planting along the eastern edge of the ground level garden. The boundary along this area could be railings to provide views out of the space and over the river. The adjacent plan identifies the potential which could be included within the spaces. Planting areas could be replaced with grass for other interaction activities within the space.

**Informal picnic bench:** Supplier: Boons Joinery, or similar and approved. Product: Premium Heavy Duty Round Picnic Table, or similar and approved.

**Informal seat/planter with soil to grow a small tree/ specimen shrub:** Supplier: Street Design (<http://www.street-design.com/>) or similar and approved. Product: Large elliptical Swithland planter with bench top. Size: 5050 length x 2500 width x 450mm height
