TAB TECHNICAL ASSISTANCE TO BROWNFIELD COMMUNITIES

Village of Herkimer's

BOA

The Village of Herkimer is completing their Brownfield Opportunity Area Plan. Let's help the Village identify brownfield sites to add to their inventory. You must collect sites that meet the EPA's definition of a brownfield, which is:

“Real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant.”

- 1) Which of these properties meet this definition?
- 2) What other information do you need to make the determination?
- 3) Where can you obtain that information?

Ready... Set... Sticker!

LEGEND

Shamrock = NOT a Brownfield

Rainbow = MAYBE a Brownfield

Gold Coin = IS a Brownfield

Mohawk Valley Brownfield Sites

Break off into groups of 4-5 people and read over your assigned organization's mission and task. With these in mind, choose one of the seven mapped brownfield sites to redevelop. Under "Support," write which other organization(s) you would like to partner with for this project.

- 1) Why did you choose this site?**
- 2) How will this project help your meet your mission?**
- 3) What are three steps to take next in your Brownfield project?**

Technical Assistance to Brownfield Communities (TAB)

TAB is a technical assistance program, funded by the USEPA, which is intended to serve as an independent resource to communities and nonprofits attempting to clean up and reclaim Brownfields.

NJIT has served as an EPA-designated TAB provider since 2008. NJIT is currently the TAB provider for EPA Region 2 and Region 4.

Assistance is *free of charge!*
