# ABOUT OUR COMPANY

## A Brief History About The Company

ATCO KUWAIT headquartered in the State of Kuwait and opened for business in 1993 with main work objective to be a leader in the following core business:

### **Telecom SOLUTIONS:**

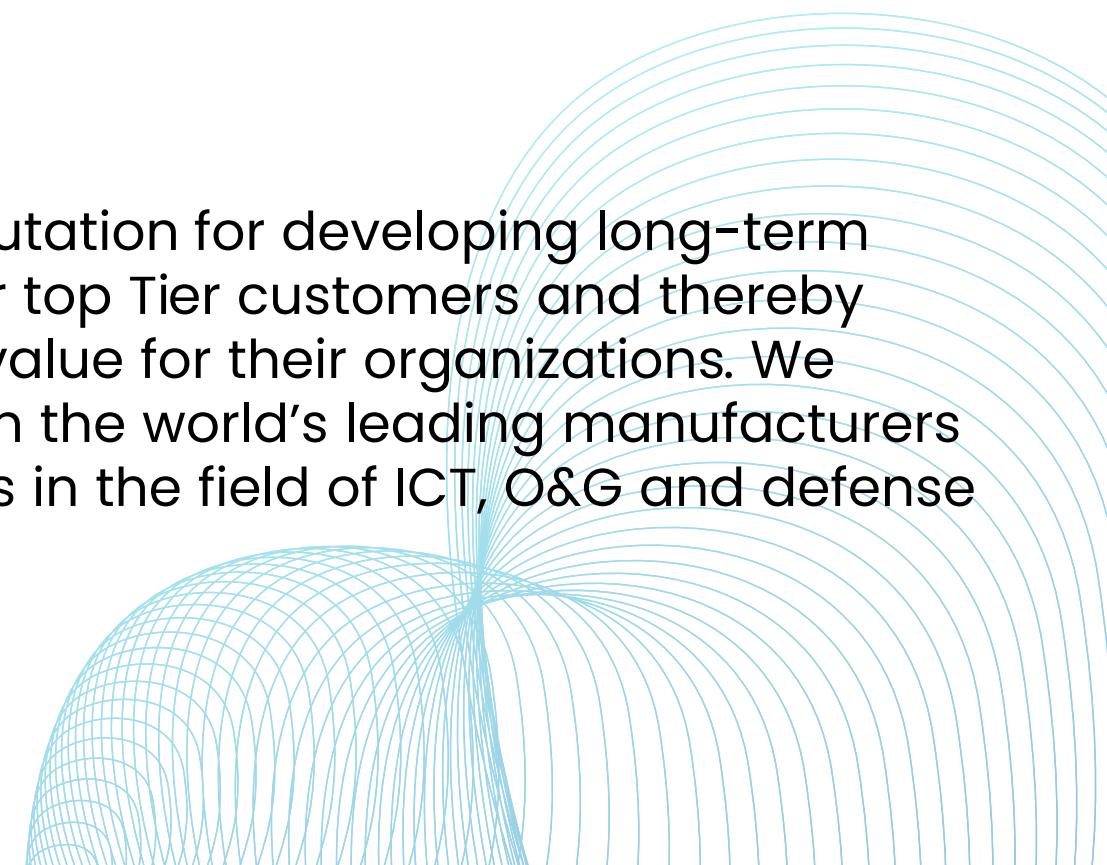

As a leading International System Integrator in the field of Telecommunication, the scope of activities undertaken by us includes design, supply, installation, commissioning, integration and support of state-of-the-art turnkey projects in Telecommunications and IT Services Solutions.

### **OIL FIELD SUPPLY & SERVICES:**

Formed with the sole intention of providing High Quality products and Services to Oil & Gas Industry, we are one of the premier companies in Kuwait engaged in the dealership of world renowned manufacturers and consulting companies. The company manages major supply as well as services projects in partnership with major international companies.

ATCO has built a reputation for developing long-term relationships with our top Tier customers and thereby creating long-term value for their organizations. We have partnership with the world's leading manufacturers and service providers in the field of ICT, O&G and defense industries

## Meet Our Management

### Ziyada SH Ziyada

---

#### DIRECTOR, ATCO

As director, my vision for ATCO is one of growth, resilience, and purpose to make as regions leading company in the Telcom Industry, oil and gas industry & IT services. We aim to continue to create value, drive innovation, and contribute positively to the communities we serve.

Our success is a testament to the collective efforts of our dedicated team. I extend my heartfelt gratitude to our employees for their unwavering commitment and hard work. Their passion, expertise, and determination are the driving forces behind our achievements, and I am continually inspired by the dedication.

Our process involves monitoring and inspecting products or services at various stages of production or delivery to ensure that they meet the desired level of quality.

---

# SERVICES WE OFFER

---

Across various domains, ATCO has built an exceptional reputation, enabling our consistent growth and expansion into regions such as the GCC, MENA, Far East Asia, America, and Europe. This global presence has been fueled by our comprehensive involvement in the market landscape, along with our diverse range of trading, Telecommunication, IT Services, contracting, logistics, and heavy equipment solutions.

We have established ourselves as a leading player in the global market for over a decade, with a strong presence in the country's upstream and downstream energy & Telecommunication sectors, i.e MOC, KOC and KNPC. Through our long-term trading & Telcom contracts with the clients, we have made significant strides globally, adhering to industry standards and prioritizing customer satisfaction.

# TELECOM DIVISION

## Cable Management Solutions

ATCO has a wide offering of cable management solutions for both copper and fiber installations. Each solution provides effective support and organization of cables, patch cords, and other necessary equipment improving overall network management

## Cable Management Solution – UTP & STP Networking Infrastructure

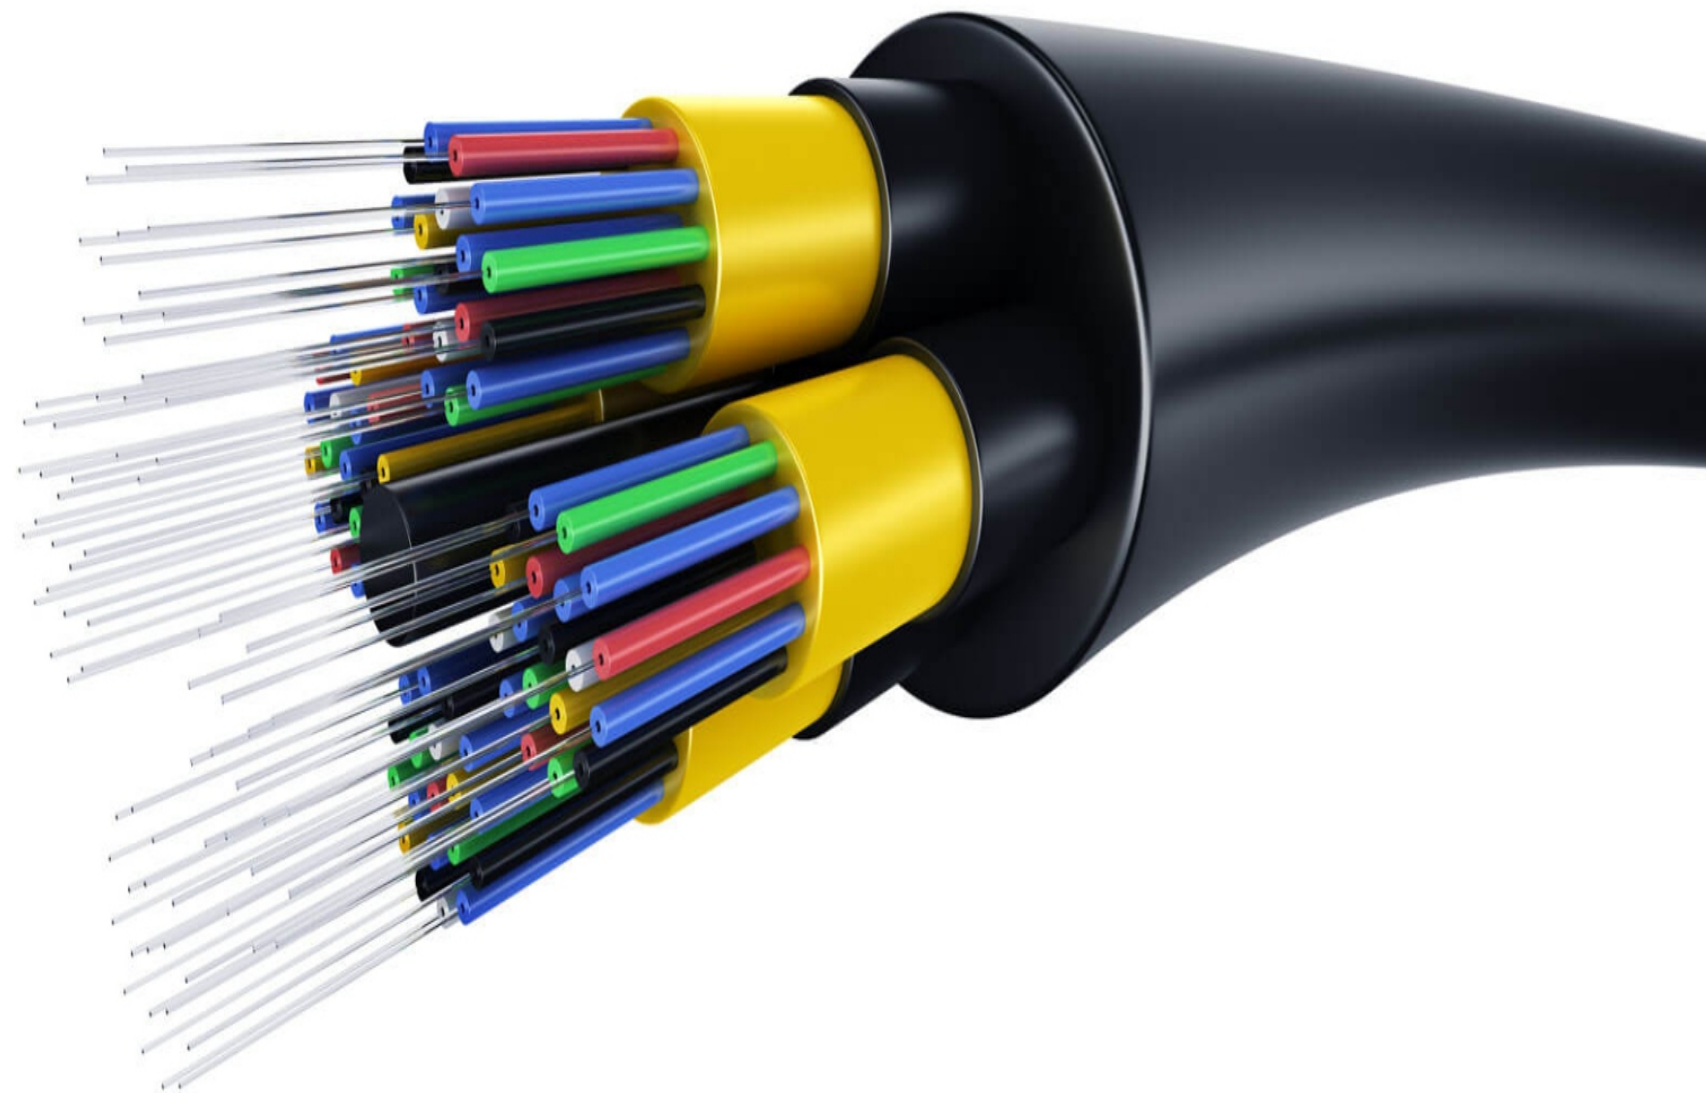

ATCO offers best-in-class copper cables that are tested to perform beyond industry standards. Every data center has a unique set of network priorities, from consolidation and cost control to quick deployment and zero downtime. You can ensure that your data center's infrastructure meets your specific requirements. ATCO provides network connectivity for enterprise, data center, and residential applications, backed by the industry's best service and support.

## TELECOM SOLUTIONS

### Optical Fiber Solutions

With over 20 years experience in the fiber optic industry, ATCO is well placed to offer a comprehensive range of optical fibers and cables to fulfill all requirements. The portfolio includes an extensive range of standard optical and plastic fiber, military tactical cable and cables specifically designed for FTTx use. Whatever the size of your project, ATCO provides cables and fibers with high-performance, durability and longevity.

Passive components are the foundation stone of optical network systems. To meet the ever-increasing requirements of passive optical networks (PON), ATCO designs, develops and manufactures innovative and customized solutions that comply with international standards and meet the ever-increasing demands of passive optical net

### Design, Supply and Install Networking Infrastructure

UTP and STP Cabling infrastructure (CAT 5e, CAT 6, CAT 6A, CAT 7 and CAT 8)

Full range of cabinet's (9U, 12U, 15U, 22U, 42U and 47U)

Full range of UTP and STP patch cord and patch panels (Normal and Intelligent)

Full Fiber Cable Solutions-MM [OM2, OM3, and OM4] and SM [OS1 and OS2]

Full Fiber Patch Panel Solution (Normal and Intelligent)

Full range of CAT3 cable back bone

Data Center Preparation

Consultancy and Maintenance services

# TELECOM DIVISION

## Public Address & General Alarm (PA/PAGA)

ATCO offers a complete range of Public Address & General Alarm (PA/PAGA) systems whether Intercom, Public address, Warning and Alarm systems or Integrated solutions for resolving any sound system problems. ATCO provides solutions that guarantee safe, effective communication as well as optimum protection and safety for personnel. We use modern as well as tried and trusted technology to achieve excellent voice clarity and high audio quality, even in high-noise environments. Our modular systems can be customized specifically to the individual requirements of our customers.

Certificates and approvals confirm the compliance of our products with internationally relevant standards and underline our commitment to the highest possible quality. Long service life, reliability and user-friendly operation, even in extreme conditions: These are the key features of our systems.

### Special requirements - Special Solutions

*Every sector and every site has its own special requirements. Solutions from ATCO with our comprehensive partners are successfully used in the onshore and offshore fields, in petrochemical and pharmaceutical industrial plants, in steelworks and many other sectors of industry. In production processes and in hazardous situations in particular, fast call connection times and clear, easily understood information are critical to ensure the safety of employees, minimize costly production downtimes and avoid consequential damage.*

### Wide variety of applications Public Address System (PA)

- Complex industrial systems
- Factory halls
- Public buildings and large events
- Individual company areas such as administration - Many different outdoor areas

### Public Address & General Alarm (PAGA)

- Areas where there is a risk of explosion or fire in all
- sectors of industry
- Petrochemical, pharmaceutical and plastic processing
- chemical plants
- Production sites in the steel and mining industries - Hazardous environments such as oil platforms and Refineries

# TELECOM DIVISION

## PRIVATE **MOBILE RADIOSYSTEM** (PMRS)

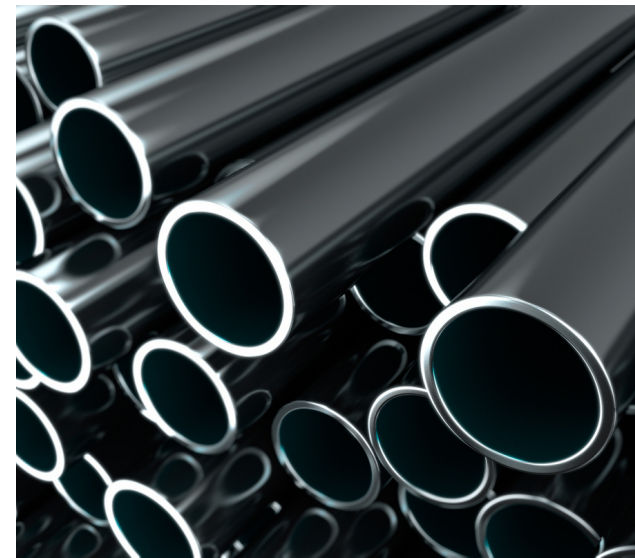

*ATCO offers Private Mobile Radio System which shall enable remote, digital wireless two-way voice and/or data radio communication between plant maintenance personnel, operators, radio dispatchers, emergency, security, contractor and other defined sub-fleet groups anywhere within the radio propagation boundary. ATCO has the world's leading solution provider of Professional Mobile Radio communications, is dedicated to bringing most valuable and customized solutions to clients across the world. We offer complete and customized communication solutions to government, public security, utility, transportation, enterprise & businesses.*

As one of the few corporations that masters TETRA, DMR and PDT technologies, and produces all series of products and solutions of all these mainstream digital protocols, ATCO leads in the draft of digital Trunking standard in Kuwait and our consolidated strong partnerships has further strengthened our competitive edge int TETRA market.

---

# MECHANICAL TRADING DIVISION

---

Trading in Supply of Pipes, Fittings, Flanges, Valves, instruments , pumps and pumping accessories.

Through our various LTSAs (Long Term Supply Agreement ) with state owned companies like KNPC & KOC, we serve the local Oil & Gas Industry through our dedicated trading division . Our partnership with various VEC approved manufacturers enables us to handle vast range of products.

1. API 5L Pipes, ASTM A106/ A53 Gr B Pipes, Carbon Steel, Stainless Steel, Alloy Steel, Cu-Brz Pipes
2. ASTM A105, ASTM A350 LF1, LF2, LF3 (low-temperature carbon steel) to match ASTM A333 pipes, ASTM A694 F42, F52, F60, F65 (high-yield carbon steel to match API 5L X42, X52, X60, and X65 steel pipes
3. Pipe Fitting Grades – Forged Socket Weld Fittings and Threaded Forged Pipe Fittings as per ASME B16.11 Butt Weld Fittings as per ASME B16.9
4. Instruments – Various models of Transmitters, Various models of Level Sensors, Various models of gauges, Various models of thermometers
5. Special Grade items – Round Bars, Hollow Bars, Hollow Tubes

# Types of Carbon Steel Pipes

- 01 Seamless Carbon Steel Pipes**
- 02 Welded Carbon Steel Pipes**
- 03 ERW (Electric Resistance Welded) Carbon Steel Pipes**
- 04 LSAW (Longitudinal Submerged Arc Welding) Carbon Steel Pipes**
- 05 SSAW (Spiral Submerged Arc Welding) Carbon Steel Pipes**

KOC and KNPC rely on a range of carbon steel grades to meet their diverse needs. These grades are carefully selected to ensure optimal performance, corrosion resistance, and structural integrity in the challenging environments of the oil and gas industry.

## Types of Stainless Steel , Alloy Steel and Special Grade Pipes

KOC and KNPC adhere to internationally recognized grades and standards for stainless steel, such as the American Society for Testing and Materials (ASTM) standards and the American Iron and Steel Institute (AISI) designations.

**Stainless Steel Pipes and Tubes in ASTM A312 / A213 / A269 in Grades 202, 304, 304L, 304H, 304LN, 309s, 310s, 316, 316L, 316H, 316Ti, 317L, 321, 321H, 347, 347H, 904L, 254 SMO, 6MO, 6 MOLY, UNS S31254 etc**

# Our Core Competencies

Pipe fittings are the essential building blocks of fluid conveyance systems, playing a pivotal role in the operations of leading organizations like the Kuwait Oil Company (KOC) and Kuwait National Petroleum Company (KNPC). These fittings come in various types, each serving a specific purpose, and are manufactured to meet stringent international standards.

## 01 Types of Pipe Fittings

Forged Fittings, Buttweld Fittings, Malleable Iron Fittings, Manifolds of All Sizes, Material Grades and Connection Types

## 02 Types of Flanges

Forged Flanges, Weld Neck Flanges, Threaded Flanges, Slip On Flanges, Blind Flanges, Orifice Flanges, Spectacle Blinds in all Grades, Sizes And Connection type

## 03 Types of Valves

BALL VALVE, BUTTERFLY VALVE  
CHECK VALVE, GATE VALVE  
KNIFE GATE VALVE, GLOBE VALVE  
NEEDLE VALVE, PINCH VALVE PLUG VALVE

# CONTRACTING & MAINTENANCE DIVISION

---

## 02 Mechanical and Telecommunication Contracting.

---

We immerse our team of professionals in the field of mechanical and telecommunication for the major flowline and maintenance projects, Plant Maintenance, Turnaround and Shutdown across petrochemical plants and refineries. Our maintenance capabilities extend to mechanical, instrumentation and electrical disciplines. Our mission is to provide a quality service that reduces equipment down time, product deferment and the operating lifetime costs of equipment

The Contracting & Maintenance division executes Engineering & Construction Projects involving Piping, Electrical and Instrumentation works.

# Mechanical Contracting Division

## PERFORMANCE IS OUR TRADEMARK

ATCO prides itself on expertise in critical areas such as piping, flow lines, and related tank works. Our experienced team of professionals is dedicated to facilitate diverse mechanical operations for major clients and customers.

Flow Line Works  
Drilling operations  
and Supply of tools

■ ATCO surpasses in interdisciplinary collaboration, ensuring seamless operation in the field of engineering concepts. While our work spans preliminary foundations, we are committed to maintaining the smooth workflow of various plants.

■ At ATCO, our vision extends to a sustainable future within the oil and gas industry. We aspire to become a regional hub, leading the charge in diverse operations within the oil, gas, and petroleum sectors.

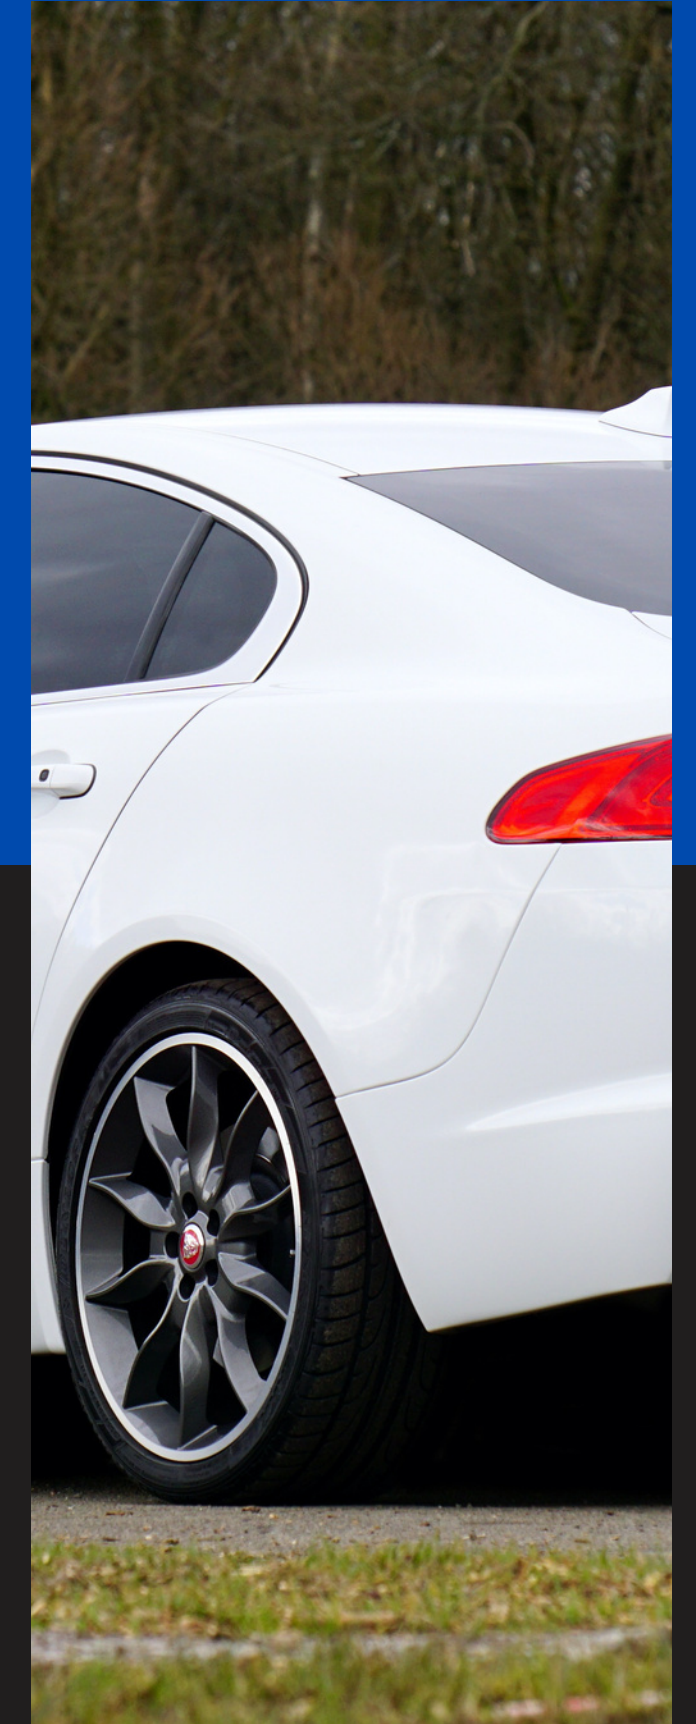

# HEAVY EQUIPMENT AND VEHICLES RENTAL DIVISION

- One-time, full day and ongoing contract transport
- On-demand service for urgent, last minute jobs.
- Long-Term contracts with vehicle and driver to Private Companies for Projects
- Short-Term contracts
- Provide transport solutions to warehouses

# TYPES OF VEHICLE WILL INCLUDE

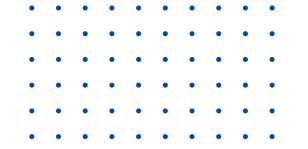

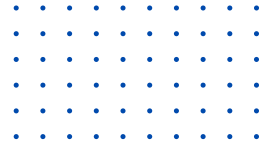

- Flat bed Trucks
- Boom Trucks
- Half Lorries
- Box Vans
- SUVs
- Saloon Cars

# ESTEEMED CUSTOMERS
