

Candle Write

DARKNESS

The light flickers in the darkness
Birds sing their night time chorus
Daylight saving and the sun is shining
Spring is poking its head around the door
But despite all this I feel wary
What does the world have in store?
Man's greed overtaking nature's gifts
The disposable society
Throwing it all away
An oil leak in a wildlife reserve
Land fill sites over spilling
Glaciers melting
The earth slowly turning off her light
And then
Darkness
