

Please Don't Come to My Funeral

Please don't come to my funeral
Come to a party instead
Because if you come to my funeral
I'll know that I'm definitely dead

For I plan to be there as a shimmer of air
To hear what you say about me
Remember the years as you smile through the tears
And I'll live once again in your memory

I know that you'll miss me now you can't kiss me
But remember the laughter and love
I'll be in the breeze that flutters the leaves
My spirit will float up above

So please don't come to my funeral
Come to my party instead
Hold me in your heart and we won't be apart
And I'll never really be dead
