

## ACTION MAN

The newspaper ad asked, '*Is your life  
marred by unsightly nasal hair?*'

A glance in the mirror confirmed the worst:  
A dreaded forest was growing there!

He faced the truth. His life *was* marred.

He decided *this* was mainly to blame.

His lack of success with women due  
to his naughty nostrils not playing the game.

Decisive action was needed *now*.

Simply no time for further delay.

This nostril shaver – free battery, too –  
would herald the start of a brand-new day!

And so, when next he ventured forth,

not a single hair could be viewed.

He felt a new spring in his step,

his confidence fully renewed.

Though women still didn't fall at his feet,

with this wonderful number one trimmer

the balance was tipped in his favour, now.

He *knew* he was on to a winner...
