

A Revolutionary System

## Bath Panel Elegance

Transforming Spaces with Speed and Style

**Introducing our revolutionary QuickFix Bath Panels the ultimate solution to redefine your bathroom with speed and style.**

Our Bath Panels are designed not only to impress but to simplify your renovation process with unmatched efficiency.

Our system is more than a visual upgrade; it's a commitment to effortless transformation, making luxury and durability accessible to all.

# INNOVATION FOR DEVELOPERS

### Effortless Installation

Bid farewell to time-consuming installations. Our system is engineered for swift and trouble-free assembly, ensuring a hassle-free experience for all.

### Adaptability and Versatility

Tailored to accommodate all UK bath sizes and styles, our system provides unparalleled adjustability, guaranteeing a perfect fit for every application.

### Sturdy and Durable:

Constructed with durability in mind, our system ensures a secure and enduring installation with the prefabricated and assembled metal frame. Say goodbye to concerns about stability or wear and tear from maintenance under the bath.

### Aesthetic Excellence:

Enhance the visual appeal of bathrooms with our sleek and modern design. The system seamlessly integrates with different aesthetics, elevating the overall look of the space. With options from plain panels, Shaker, 3D carved like fluted panels and our Designer range that Matches our Product Acrypanel.

### User-Friendly Design:

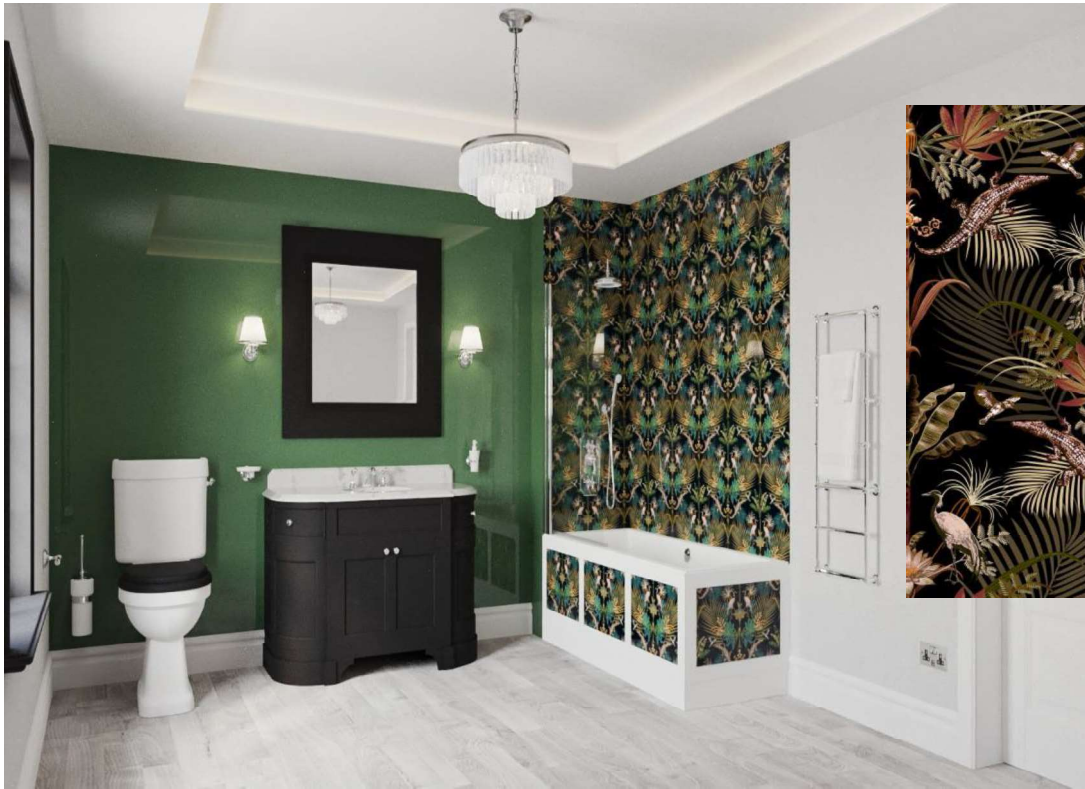

Whether you are a seasoned professional or a DIY enthusiast, our system's user-friendly design ensures a straightforward installation process for everyone and this can be achieved in a matter of a couple of minutes.

### Cost-Effective Solution:

Beyond saving time, our innovative system reduces installation costs, making it a financially savvy choice for both homeowners and professionals. Opposed to purchasing a separate frame or even framing out in wood and paying a contractor to install.

## Bath Panel Elegance

For Our QuickFix bath Panels we offer a full design and colour matching service to tailor for every kind of taste from plain to maximalist design we have something for everyone. Coupled with our product Acrypanel the design possibilities to transform bathrooms in matter of hours cost saving in labour and time really is revolutionary

## Installation Instructions

---

### Typical Installation time 5-10 minutes

1. Unpack your new purchase with care not to scratch the paint finishes of the panel. Remove the parts and fixings pack from the package
2. Measure and mark the position of the frame
3. Using the provided fixings fix the frame to the floor using a suitable fixing method for the substrate that you are fixing into.
4. Level the frame using a small level
5. Wind up adjustable stabilisers to secure the frame
6. Once Secured recheck level and make any adjustments
7. Fix the side supports using the fixings provided using a suitable fixing method for the substrate that you are fixing into.
8. Install the Magnetic Plinth With the bottom groove facing downwards
9. Place the top of the main panel rebated detail under the lip of the bath holding the bottom of the panel approximately 20 degrees away from the frame.
10. Push the panel back into Position and you're done!
11. We recommend applying a suitable sealant around the edges of the panel to maintain water tightness.

Please see the below link below for the installation Video.
