# PART I REGULATIONS GOVERNING COMPETITION PARTICIPANTS SECTIONS 1-5

# PART I REGULATIONS GOVERNING COMPETITION PARTICIPANTS

#### **SECTION – 1 Purpose**

#### **Purpose**

The primary purpose of the Code of Points is to:

- 1. Provide an objective means of evaluating gymnastics exercises at all levels of regional, national, and international competitions.
- 2. Standardise the judging of the four phases of FIG official competitions:

Qualification
Team Final
All Around Final
Individual Event Finals

- 3. Assure the identification of the best gymnast in any competition.
- 4. Guide coaches and gymnasts in the composition of competition exercises.
- Provide information about the source of other technical information and regulations frequently needed at competitions by judges, coaches, and gymnasts.

#### **SECTION 2 – Regulations for Gymnasts**

#### 2.1 Rights of the Gymnasts

#### 2.1.1 General

#### The gymnast is guaranteed the right to:

- a) Have their performance judged correctly, fairly, and in accordance with the stipulations of the Code of Points.
- b) Receive in writing the evaluation of the difficulty rating for a submitted new vault or element within a reasonable time prior to the start of the competition.
- Have their score publicly displayed immediately following their performance or in accordance with the specific regulations governing that competition.
- d) Repeat their entire exercise (without deduction) with the approval of the Superior Jury:
  - if the exercise has been interrupted for reasons beyond their control or responsibility,
  - if a handguard (grip) is significantly torn causing a fall, or interruption. The gymnast must immediately show the broken handguard (grip) to the D1 Judge before leaving the podium in order to receive permission to repeat the exercise.

Note: A gymnast may repeat the entire exercise at the end of the rotation, or if she is the last gymnast in the rotation, at a time at the discretion of the SJ.

- e) Briefly leave the competition hall for personal reasons. Note: The competition may not be delayed through her absence.
- f) Receive through their delegation leader the correct result output, showing all their scores received in the competition.

#### 2.1.2. Apparatus

#### The gymnast is guaranteed the right to:

- a) Have identical apparatus and mats in the training halls, warm-up hall and on the competition podium that conforms to the specifications and norms for FIG official competitions.
- b) Place the take-off board on the supplementary 10 cm landing mat (UB & BB).
- Use magnesium on Uneven Bars and to make small markings on the Balance Beam.

- d) Have one spotter on Uneven Bars.
- e) Rest or recuperate for up to 30 seconds following a fall from the UB and 10 seconds following a fall from BB (without deduction).
- f) Confer with their coach during the time available to her following a fall from the apparatus and between the first and second vault.
- g) Request permission to raise both bar rails, if their feet touch the mat.

#### Warm-up

#### In Qualifying, All Around Final & Team Final

- Each competing gymnast (including substitute of injured gymnast) is entitled to a touch warm-up period immediately prior to the competition on the podium on all apparatus in accordance with the Technical Regulations that govern that competition.
  - VT (teams and individual groups)
     All Around Final, Team Final & Apparatus Final two attempts only
     Qualification to Apparatus Final maximum of three attempts
  - BB, FX

30 seconds each

- UB

50 seconds each, including the preparation of the Bars

#### NOTE:

- In Qualifying and Team Final the entire warm-up time belongs to the team except Vault. The team must pay attention to the elapsed time, so that the last gymnast receives a warm-up.
- In mixed groups the warm-up time belongs personally to the gymnast. The order of warm-up should be the same as the order of competition.
- The end of the warm-up period is signalled by a gong. If at this time a
  gymnast is still on the apparatus, she may complete the element or
  sequence started. Following the warm-up period, or during the
  "competition pause", the apparatus may be prepared (max. 2 persons
  on UB), but not used.
- There will be a conspicuous signal from the D1 Judge (at official FIG competitions, a green light) 30 seconds before their exercise is expected to begin.

#### 2.2 Responsibilities of the Gymnasts

- a) To know the Code of Points and conduct themselves accordingly.
- b) To submit, or have their coach submit, a written request at least 24 hours before podium training, to the Chair of the Superior Jury, to assess the difficulty of a new element.
- c) Height increases of 5 cm on UB shall be allowed in competitions for gymnasts who touch the mat with their feet during the exercise. This must be announced to the organisers at the time of the nominative entry and verified by the President or a member of the Superior Jury during the training.

# PART II EVALUATION OF THE EXERCISES SECTIONS 6-9

#### PART II EVALUATION OF THE EXERCISE

#### **SECTION 6 – Determination of Score**

#### 6.1 General

The rules governing the evaluation of the exercises and the determination of the Final Score are identical for all sessions of competition (Qualification, Team Final, All Around Final, Apparatus Finals) except for Vault, where special rules in Qualification and in Apparatus Finals apply (Section 10).

#### 6.2 Determining Final Score

- a) The Final Score on each apparatus will be established utilising two separate scores, D-Score and E-Score.
- b) The D-Panel establishes the D-Score, the content of an exercise, and the E-Panel the E-Score, the execution and artistry.
- The Final Score of an exercise will be established by the addition of the D-Score and E-Score.
   If necessary, subtraction of the neutral deductions (see 5.4.1).
- d) The All Around Score is the sum of the Final Scores obtained from the four apparatus.
- e) The Team Score is calculated in accordance with the current Technical Regulations that govern that competition.
- f) Qualification for, and participation in, the Team Final, the All Around Final and the Apparatus Finals will occur in accordance with the current Technical Regulations that govern that competition.
- g) In principle, the repetition of an exercise is not permitted.

The Final Score Calculation

Example:

D-Score + E-Score = Final Score

#### **D-Score**

|                            | D-Score | <u>5.70 P.</u> |
|----------------------------|---------|----------------|
| Connection Value           |         | + 0.60 P.      |
| Composition Requirements   |         | + 2.00 P.      |
| Difficulty (3 C, 3 D, 2 E) |         | + 3.10 P.      |

E-Score\* 10.00 P.

Execution - 0.70 P.

Artistry - 0.30 P. - 1.00 P. E-Score 9.00 P.

Final Score 14.70 P.

\*E-Score: the execution & artistry deductions are added together and then subtracted from 10.00 P.

(E-Score is calculated by averaging the middle 3 of 7 score deductions).

#### 6.3 Short Exercise

For the execution and artistry of presentation, the gymnast may earn a maximum E-Score of 10.00 P.

The D-Panel will take the appropriate neutral deduction (penalty) for a short exercise from the Final Score:

7 or more elements – no deductions

• 5-6 elements – 4.00 P.

• 3-4 elements – 6.00 P.

• 1-2 elements – 8.00 P.

No elements – 10.00 P.

#### Example: FX

The gymnast falls and injures herself after performing only 3 elements.

#### **Evaluation:**

#### **D-Score**

Max. E-Score for Execution & Artistry 
$$\underline{\text{may be}}$$
10.00 P.Total deductions (2 falls, height, amp. etc.) $\underline{-4.10 \text{ P}}$ .E-Score $\underline{-5.90 \text{ P}}$ .

Final Score after neutral deduction for short exercise applied 7.90 P. – 6.00 P. (short exercise) = 1.90 P.

    - Split/Straddle leaps and jumps (ie.  $-\frac{8}{2}$ ,  $\frac{1}{4}$ ) is 1½ turn (540°)
    - Complex jumps and leaps (ie. 🔔 ) is 1/1 turn (360°)
- e) Elements are considered <u>different</u>, if they are listed under <u>different</u> <u>numbers</u> in the Table of Elements
- f) Elements are considered the <u>same</u>, if they are listed under the <u>same</u> <u>number</u> and have the following criteria:
  - UB elements:
    - are performed with or without a hop grip change
    - giants fwd & bwd performed with legs straddled or together, with hips bent or stretched
    - pike sole circle fwd & bwd performed with legs straddled or together
    - legs are together or straddled in flight elements

#### Dance elements:

- with take off from one or two feet with the same leg position
  - Example: wolf hop (take off from one foot) and wolf jump (take off from two feet)
- are performed in side or cross position (BB)
  - Jumps performed in side position will be awarded 1 DV higher than in cross position
  - If the same element is performed in cross and in side position, the DV will be awarded one time only and in chronological order
  - Jumps that start from side position and finish in cross position, or vice versa – consider as elements performed in cross position (additional 90° does not make element different)
- land on one or both feet (BB)
- land on one or both feet or in prone position (FX)

#### Acro elements:

- that land on one or both feet
- g) Elements are considered <u>different</u>, if they are listed under the <u>same</u> <u>number</u> and have the following criteria:
  - Acro elements:
    - there are different body positions (tuck, pike or stretched) in saltos
    - there are different degrees of turns:
       ½, 1/1, 1½ (180°, 360°, 540°) etc.
    - the support is performed on one or both arms or free
    - the take-off from one or both feet

#### 7.2.2 Recognition of elements occurs in chronological order

- a) In case of technical failure elements will be recognised as:
  - another element in the Table of Elements or
  - No DV or
  - One DV lower
- b) If an element is recognised as another element (from the Table of Elements) due to failure to meet technical requirements and later the element is performed with correct technique they both receive DV.

- Example: Split leap to ring without required arch it becomes split leap, if the split leap to ring is performed later with correct technique it is recognised as a split leap to ring because both elements appear in the Table of Elements.
- Example BB: turn is credited as another element from the COP 
   due to failure to hold the free leg at horizontal from the beginning to
   the end of the turn (360°). It is then performed a 2<sup>nd</sup> time in the
   exercise correctly Credit DV
- c) If an element is credited one DV lower due to failure to meet technical requirements and is later performed again in the exercise it will then be considered as a repetition and no DV will be awarded.
  - Example UB: giant bwd with 1½ turn that is credited one DV lower (C), due to failure to reach handstand prior to the turn (swing).
     It is then performed a 2<sup>nd</sup> time in the exercise and completed 1½ turn in handstand then no DV (D) will be awarded.

#### 7.2.3 New element / vault / connection submission for all competitions:

Coaches are encouraged to submit new vaults and elements that have not yet been performed and/or do not yet appear in the Table of Elements.

- The new elements must be presented no later than the day and hour stipulated in the Work Plan.
- The request for evaluation must be accompanied with any technical drawings and a mandatory video on a USB memory stick.
- All values given at competitions are provisional until approved by the FIG TC.
- New elements performed in the Olympic qualification competitions require confirmation of provisional value by the TC President before evaluation for the respective competition.
- The evaluation at the competition will be communicated as soon as possible in writing to the concerned federation and to the judges at the Judges' Instruction or Briefing before the respective competition.
- The decisions have validity only at that specific competition.
- New elements will appear for the first time in the Code Update / Newsletter only after they have been performed successfully by the gymnast then submitted and confirmed by the TC.

#### In order for a new element/vault to be named after a gymnast it must be:

- Performed internationally for the first time at an official FIG Group 1, 2 or 3 competition (with or without an official FIG TD present).
- C value or higher and performed for DV.
- DV and name will only be confirmed following a TC analysis of the performance.
- If more than one gymnast at the same competition performs the same new element, the element will be named after all gymnasts.
- The federation of the gymnast has the responsibility to submit a video of the proposed new element to the FIG TC President as soon as possible after the competition. In addition, the competition TD must submit the official video, original video and drawing submitted by the coach (if available), and all details about the provisional evaluation given at the competition, to the FIG TC President as soon as possible.

#### 7.3 Compositional Requirements (CR) 2.00

Composition Requirements are described in the respective Apparatus Sections. A maximum of 2.00 is possible.

- a) Only elements from the Table of Elements may fulfil CR.
- b) One element may fulfil more than one CR; however, an element may not be repeated to fulfil another CR.

#### 7.4 Connection Value (CV) & Bonus

Connection Value is to be achieved through unique combinations of elements on Uneven Bars, Balance Beam and Floor Exercise.

- a) Elements used for CV do NOT necessarily have to be among the 8 counting DV. All elements must be from the Table of Elements.
- b) Connection Value on UB, BB and FX is evaluated at:

+0.10

+0.20

 Formulas for CV & Bonus are described in the respective Apparatus Sections - Part 3: Sections 11, 12 and 13.

- d) Devalued elements may be used for CV & Bonus.
- e) In order to credit CV & Bonus, the element must be performed without a fall, or according to specific rules stated for the respective apparatus.

#### 7.4.1 Direct and Indirect Connections

All connections must be **Direct**; only on Floor can acrobatic connections be **Indirect.** 

**Direct Connections** are those in which elements are performed without:

- a) stop between elements
- b) extra step between elements
- c) foot touching Beam between elements
- d) lack of balance between elements
- e) obvious leg/hip extension on 1st element before take-off for 2nd element
- f) additional/excessive arm swing

**Indirect Connections** (only in acrobatic series on FX), are those in which directly connected acrobatic elements with flight phase and hand support (from Group 3, e.g. round-off, flic-flac, etc. as preparatory elements) are performed between saltos.

**The recognition** of direct or indirect (FX) connections should be to the benefit of the gymnast.

The order of succession of elements within a connection can be freely chosen on BB, FX and UB (unless there is a special requirement for CV recognition).

#### 7.4.2 Repetition of elements for CV (SB on BB)

- a) Elements may not be repeated in another connection for CV. Recognition occurs in chronological order.
- Same elements on UB, acrobatic elements on BB and FX may be performed twice within one connection.
   Dance elements cannot be repeated.

#### Examples:

**UB** – Tkatchev x 2 or Stalder with 1/1 turn x 2 **BB** - flic-flac with 1/1 turn x 2

**FX** – indirect or direct connection with whip salto backward x2 to double salto backward piked

c) With the direct connection of 3 or more elements, the 2<sup>nd</sup> element may be used:

- the 1st time as the last element of a connection and

- the 2<sup>nd</sup> time as the 1<sup>st</sup> element to begin a new connection

Examples:

Ů. Ů. U. D + D + D 0.10+0.10 D+D+D CV 0.20+0.20 SB + 0.10

d) With the direct connection of 3 or more elements, the repeated <u>flight</u> <u>element</u> on UB, or <u>salto</u> on BB and FX must be directly connected.
 CV will be rewarded for all connections.

Examples:

UB

Total CV + 0.40 0.10 + 0.20 + 0.10

The flight element may be used:

- the 1st time as the 2nd element of a connection

- the 2<sup>nd</sup> time as the connection of 2 same flight elements

the 3<sup>rd</sup> time as the 1<sup>st</sup> element to begin a new connection

BB

C+C+X CV 0.10+0.10 SB+0.10

Salto w may be used:

- the 1st time as the 2nd element of a connection

- the 2<sup>nd</sup> time as the 1<sup>st</sup> element to begin a new connection

the 3<sup>rd</sup> time as the connection of 2 same saltos

FX

 $\bigcap_{i} \sqrt{\hat{c}} \sqrt{\hat{c}} \sqrt{\hat{c}}$ C + X + C
0.10 + 0.10

Salto f may be used:

- the 1st time as a connection of 2 same saltos

 $-\$  the  $2^{\text{nd}}$  time as the  $1^{\text{st}}$  element to begin a new connection

#### 7.4.3 Dismount (DMT) Bonus

On Uneven Bars, Balance Beam and Floor, a Bonus of **0.20** will be awarded for DMT with D value and higher.

In order to credit the Bonus, the DMT must be performed without a fall.

# SECTION 8 – Regulations Governing the E-Score

#### 8.1 Description of E-Score 10.00 P. (Performance)

For perfection of execution, combination and artistry of presentation, the gymnast may earn a score of **10.00 P.** 

#### The E-Score includes deductions for faults in:

- Execution
- Artistry of presentation

#### 8.2 Evaluation by E-Panel

The E-Panel will judge the exercise and determine the deductions independently.

Each exercise is evaluated with reference to expectations of perfect performance. All deviations from this expectation are deducted.

Deductions for errors in execution and artistry are added together and then deducted from 10.00 P. to determine the E-Score.

#### **SECTION 9 – Technical Directives**

In order to recognise DV specific technical expectations are required. All directives for angles of completion of elements and body positions are approximate and meant to serve as a guideline.

#### 9.1 ALL APPARATUS

#### **Body Positions**

#### Tuck

 Less than 90° hip and knee angle in salto & dance elements

#### Pike

 Less than 90° hip angle in salto & dance elements

#### Stretch

All body parts in alignment

#### 9.1.1 Element Recognition

#### Stretch

- The majority of the salto must be maintained in the stretched position in:
  - Single saltos
  - Double saltos on FX and UB DMT
  - Vaults (saltos)
- When there is NO stretched position shown it is considered pike position in:
  - Non-twisting elements UB, BB and FX
- A slight bend in the hips (up to 30°) is allowed on Vaults without twists

#### Recognition of body positions in single & double saltos without LA turn

#### 9.1.2 Landing from Single Saltos with Twists

- a) Elements with twists performed
  - as mounts and dismounts from **UB** and **BB**
  - during the exercise on BB and FX
  - all landings on VT

must be completed exactly or <u>another</u> element from the COP will be recognised.

Note: The placement of the front foot is decisive when awarding the DV.

- b) For under turning\*
  - 3/1 twist becomes 2½ twist
  - 2½ twist becomes 2/1 twist
  - 2/1 twist becomes 1½ twist
  - 1½ twist becomes 1/1 twist

\*FX: When there is a salto with twist directly connected to another salto and in the first salto the turn is not completed exactly (but the gymnast is able to continue into the next element), the first element will NOT be devalued.

#### 9.1.3 Falls on Landing

- a) with landing feet first the DV is awarded
- b) without landing feet first no DV is awarded

#### 9.2 BALANCE BEAM AND FLOOR EXERCISE

#### 9.2.1 Rewarding DV for turns on 1 leg are in increments of:

- 180° for BB
- 360° for FX
- The turn must be completed exactly or another element from the COP will be credited.
- The position of the shoulders and hips are decisive otherwise another element from the COP will be credited.

#### **Turn Considerations:**

- Must be performed on the toes.
- Have a fixed and well defined shape throughout the turn.
- The support leg, whether straight or bent (choreography), does not change the DV.
- For turns on 1 leg requiring the free leg to be at a specific position, the position must be maintained throughout the turn.
- If the free leg is not in the prescribed position credit another element from the COP

#### a) Under turning on support leg:

Example:

- BB ⊠ becomes Ø
- FX ⋈ becomes ✓

#### 9.2.2 Rewarding DV for Leaps, Jumps & Hops with turns are in increments of:

- 180° for BB & FX (split, straddle and ring elements)
- 360° for FX

Various techniques of jumps, leaps and hops with 1/1 turn (360°) and more are permitted; piking, tucking, straddling the legs may be at the beginning, in the middle or at the end of the turn *(unless there is a special requirement for the element)*.

In jumps, leaps and hops with  $\frac{1}{2}$  turn (180°) the prescribed position must be reached at the beginning OR at the end.

**Under turning of more than 30°** – *another* element from the COP will be recognised.

The position of the shoulders and hips are decisive.

#### Example:

- BB/FX ≥ becomes =
- FX ⊠ becomes ○
- FX ≥ becomes ≥
- BB Ø becomes ○
- An additional ¼ turn does not make an element different

#### **Definition:**

- **Leaps** take off from 1 foot to land on the other or 2 feet
- **Hops** take off from 1 foot and land on the same foot or 2 feet
  - (180° leg separation is not required)
- Jumps take off from 2 feet and land on 1 or 2 feet

Note: in jumps and leaps with split, 180° leg separation is required.

#### 9.2.3 Split Requirement

For missing degrees of leg separation in leaps, jumps, turns

#### Insufficient Split:

- > 0° 20° small fault > 20° - 45° medium fault
- > 45° credit another element from the

PART III

APPARATUS

SECTIONS 10-13

# PART III APPARATUS

# **SECTION 10 – Vault**

#### 10.1 General

Depending on the requirements for the competition phase, the gymnast is required to perform one or two vaults from the Table of Vaults.

Run distance is a maximum of 25 meters, measured from the front edge of the table to the inner side of the block attached at the end of the vault run up mat.

- The vault begins with a run, an arrival and take-off from the springboard with two feet, from either a:
  - forward position or
  - backward position
- No vault with sideward landing may be submitted.
- All vaults must be performed with repulsion from both hands off the vaulting table.
- The gymnast is required to properly use the "safety collar" supplied by the Organising Committee for round-off entry vaults.
- A hand placement mat may be used only for Yurchenko vaults from groups 1, 4 and 5.
- All vaults are illustrated with a number.
- The gymnast is responsible for flashing the intended vault number prior to the beginning of each vault (manually or electronically).
- After receiving the green light or signal from the D1 Judge, the gymnast executes the 1<sup>st</sup> vault and then returns to the end of the runway to post the number for her 2<sup>nd</sup> vault.
- Beginning with the take-off, the vault phases are evaluated:
  - pre-flight (1st flight)
  - repulsion
  - flight (2<sup>nd</sup> flight) and landing

# 10.2 Run Approaches

Additional run approaches are permitted as follows, with deduction of -1.00 for empty run (if gymnast has not touched the springboard or the apparatus).

- When 1 vault is required, a second run approach is permitted with deduction.
- Third approach <u>not</u> permitted.
- When 2 vaults are required, a third run approach is permitted with deduction.
- Fourth approach **not** permitted.

The D-Panel will take the deduction from the Final Score of the vault performed.

# 10.3 Vault Groups

The vaults are classified into the following groups:

- **Group 1** Vault without salto (*Handspring*, *Yamashita*, *Round-off*) with or without LA turn in 1<sup>st</sup> and/or 2<sup>nd</sup> flight phase.
- **Group 2** Handspring fwd with or without 1/1 turn (360°) in 1<sup>st</sup> flight phase salto fwd or bwd with or without twist in 2<sup>nd</sup> flight phase.
- **Group 3** Handspring with ½ ½ turn (90° 180°) in 1st flight phase (*Tsukahara*) salto bwd with or without twist in 2nd flight phase.
- **Group 4** Round-off (*Yurchenko*) with or without ¾ turn (270°) in 1<sup>st</sup> flight phase salto bwd with or without twist in 2<sup>nd</sup> flight phase.
- **Group 5** − Round-off with ½ turn (180°) in 1<sup>st</sup> flight phase salto fwd or bwd with or without twist in 2<sup>nd</sup> flight phase.

# 10.4 Requirements

- The intended vault number to be flashed (manually or electronically) before the vault is performed.
- In the Qualifying, Team Final and All-Around:
   One vault must be performed.
  - In Qualifying, the 1<sup>st</sup> vault score counts toward the Team and/or All-Around Total.
  - The gymnast who wishes to qualify for the **Apparatus Final** must perform **2** vaults as per the **Apparatus Finals** rules below.

# Apparatus Finals

- The gymnast must perform 2 vaults, which will be averaged for the Final Score.
- The 2 vaults must be from different Vault Groups.
- Must show a different 2<sup>nd</sup> flight phase.

# Example:

1. If the 1<sup>st</sup> vault is from Gr. 4

Round-off, flic-flac on – stretched salto backward

with 2½ twist (900°) off 
then the choices for the 2<sup>nd</sup> vault would be:

- If the 1<sup>st</sup> vault is from Gr. 2
   Handspring fwd on − tucked salto fwd off 
   then the choices for the 2<sup>nd</sup> vault would be:
  - Round off, flic-flac on stretched salto bwd off or
  - Tsukahara piked \( \bigcirc \limit\)

#### **10.4.1 Corridor Markings**

As an orientation for directional deductions there will be a marked corridor on the landing mat. The gymnast must land and finish to a stable stand in this zone.

The D1 Judge (with written notification from the Line Judge) will deduct from the Final Score for touching the mat with any part of the body outside of the marked corridor as follows:

| _ | Land or step outside with one foot/hand (part of foot/hand) | <b>–</b> 0.10 |
|---|---|---------------|
| _ | Land or step outside with two feet/hands                    |               |
|   | (part of feet/hands) or body part                           | -0.30         |

# 10.4.2 Specific Apparatus Deductions – D-Panel

Taken from the Final Score of the vault performed:

| _ | More than 25 meters run distance             | - 0.50 |
|---|--|--------|
| _ | Run approach without performing vault        | - 1.00 |
| _ | Support (repulsion phase) with only one hand | - 2.00 |

- In the Qualification to and in Apparatus Finals:
  - When 1 of 2 vaults receives "0" points (10.4.3)

#### **Evaluation:**

Score of the vault performed divided by 2 = Final Score (FS)

 When the 2 vaults are <u>not</u> from different groups or do <u>not</u> show a different second flight phase

#### Evaluation:

[(FS of the 1st Vault) + (FS of the 2nd Vault, minus 2.00)]/2 = Final Score

#### 10.4.3 Performance of Invalid Vaults (0.00 P.) \*

- The vault is executed without a support phase, i.e. neither hand touches the table.
- Failure to properly use the safety collar for round-off entry vaults.
- Spotting assistance during the vault.
- Failure to land on feet first.
- The vault is so poorly executed that the intended vault cannot be recognised, or the gymnast pushes from the table with her feet.
- The gymnast performs a prohibited vault (straddled legs, prohibited pre-element before the vaulting board, intentionally lands in side position).
- The first vault is repeated for the second vault in Qualification for Vault Final or in Vault Final.

\*Note: "0.00" score recorded by D-Panel. No evaluation by E-Panel.

A video review by the D-Panel and Apparatus Supervisor will automatically occur for every vault that receives an Invalid 0.00 Score, or vaults performed with support of one hand only.

# 10.5 Method of Scoring

#### **D-Panel:**

Enters the value of the performed vault and shows on the board to the E-Judges the symbol of the vault recognised *(if different from flashed number)*. The score of the 1<sup>st</sup> vault must be flashed before the gymnast executes the 2<sup>nd</sup> vault.

#### E-Panel:

Execution Deductions (Section 8) must be taken in addition to Specific Apparatus Deductions.

# Section 11 - Uneven Bars

#### 11.1 General

The evaluation of the exercise begins with the take-off from the springboard or the mat. Additional supports under the springboard (i.e. an extra board) are **not** permitted.

#### a) Mounts

- If the gymnast on her first attempt touched the springboard, the apparatus, or ran underneath the apparatus:
  - Deduction − 1.00
  - She must start her exercise
  - No value will be awarded for the mount
- A gymnast is permitted a second attempt to mount (with a penalty) if she has <u>NOT</u> touched the springboard, the apparatus, or run underneath the apparatus:
  - Deduction − 1.00
- A third attempt is not permitted.

Gymnast may NOT run/walk under low bar to perform mount (see 2.4).

D-Panel will take the deduction from the Final Score.

# b) Fall Timing

For interruption of the exercise due to a fall from the apparatus an intermediate time period of 30 seconds is allowed.

If the gymnast exceeds the allowable time to resume her exercise a - 0.30 neutral deduction for excessive time will be applied if the gymnast continues her exercise.

- The timing starts when the gymnast is on her feet after the fall.
- The elapsed time during the fall will be displayed in seconds on the scoreboard.
- A warning signal (gong) will be communicated at:
  - 10 seconds
  - 20 seconds and again at the
  - 30 second time limit
- The exercise officially resumes when the feet leave the floor.
- If the gymnast has not resumed the exercise within the 60 second time limit, the exercise will be terminated.

No salute is necessary to resume an exercise after a fall.

#### 11.2 Content and Construction of the Exercise

The maximum 8 highest difficulties including the dismount are counted for DV.

- No DMT 0.50 from Final Score (D-Panel).
- Only 3 elements in chronological order from the same root skill\* will be counted for DV, CR and CV
  - except: Kips, Giants (fwd/bwd) and Casts to HSTD
  - \* The root skill is determined by the entry into the skill and the direction of the rotation (bwd or fwd)

Example 1: 
$$\mathcal{U}$$
  $\mathcal{U}$   $\mathcal{U}$ 

Example 2: 
$$D D D B B D$$

Example 3 
$$\stackrel{\cancel{N}}{\text{D}} \stackrel{\cancel{N}}{\text{B}} \stackrel{\cancel{N}}{\text{C}} \stackrel{\cancel{N}}{\text{C}} \stackrel{\cancel{N}}{\text{C}}$$

- MTs (e.g. '\$\mathcal{Y}' \mathcal{Y}' \) and DMTs (e.g. \(\mathcal{L}^{\mathcal{E}}\)) will be counted in the root skill number.
- Elements with no DV (due to failure to meet the technical requirement) will not be counted in the root skill number.

Only one "Tkatchev" type element without turn from each line in the Table of Elements will be recognised.

The value parts should represent a variety of the following categories of movement:

# a) Circle and Swings

- giant circles backward
- giant circles forward
- swings & clear hip circles
- stalders forward/backward
- pike circles forward/backward

# b) Flights

- flight from HB to grasp on LB (or reverse)
- counter flight (over the bar)
- vaults
- hechts
- saltos

# 11.3 Composition Requirements (CR) - D-Panel 2.00

| 1. | Flight element from HB to LB                    | award 0.50 |
|----|---|------------|
| 2. | Flight element on the same bar                  | award 0.50 |
| 3. | Different grips (not cast, MT or DMT)           | award 0.50 |
| 4. | Non-flight element with min. 360° turn (not MT) | award 0.50 |

# 11.4 Connection Value (CV) - D-Panel

- a) CV can be awarded for direct connections.
- b) The CV will be added into the D-Score.

#### Formulas for direct connections

| 0.10               | 0.20  |
|--------------------|---|
| D + D<br>(or more) | D (flight - same bar or LB to HB) + C or more (on HB and must be performed in this order)  E + E (one must be flight) |
|                    | F + D (both flights)  |

Note: C/D element must have flight or min. 1/2 turn (180°)

- a) An element can be performed 2 times within the same direct connection for CV, but may **NOT** receive DV a 2<sup>nd</sup> time.
- b) Flight elements include elements with visible flight:
  - From HB to grasp on LB (or reverse)
  - With counter flight (over the bar), vault, hecht or salto followed by regrasp on same bar or the other bar
  - Performed as dismounts

**Note:** Hop-grip changes with/without 180° - 360° turns do **NOT** constitute flight.

- c) These direct connections can be performed as a:
  - Mount connection

(Gr. 1 elements are not considered flight elements)

Example: \_SUU,

D+D = 0.10

- Connection within the exercise
- Dismount connection
- d) If an **empty swing** or **intermediate swing** is performed between 2 elements, or after the second/last element, CV can **NOT** be awarded.
  - Empty swing = swing fwd or bwd without the execution of an element in the Table, before the swing reverses to the opposite direction.

Exception: "Shaposhnikova" type elements with/without 1/1 turn (360°) and the following elements:

<del>\</del>

1

**Note:** if kip performed after Shaposhnikova type elements with/without 1/1 turn and hecht ½ turn - apply deduction for empty swing.

Intermediate swing = pump swing from a front support and/or a long swing not needed in order to perform the next element.

#### Falls

# **Flight Elements**

- a) with grasp of both hands (momentary hang or support) on the bar
   the DV is awarded.
- b) without grasp of both hands on the bar
   No DV is awarded
   (element may be performed again to receive DV).

#### **Dismounts**

a) No attempt to DMT at all:

#### Evaluation:

If she remounts to perform DMT, no deduction for "No DMT"

b) If the dismount has begun:

**Example 1:** with initiation of salto (failure to land feet first)

#### Evaluation:

No DV count 7 elements only (*D-Panel*)

Fall – 1.00 (E-Panel)

#### **Mounts**

- a) Can fulfil CR # 1 for flight from HB to LB.
- b) Elements performed as mounts can be performed in the exercise *(or vice versa)* but receive DV only once.

# **SECTION 12 – Balance Beam**

#### **ARTISTRY**

# Composition

The composition of a Balance Beam exercise is based on the movement vocabulary of the gymnast, as well as the choreography of these elements in relationship to the Balance Beam, while establishing a strong sense of variation in rhythm, strength and pace of the movements. It is the balancing of:

- dance elements
- acro elements
- choreography

in order to create a continuous flow, a cohesive whole.

A well-structured composition of the exercise includes:

- a rich and varied selection of elements from different structure groups in the Table of Elements
- changes of level (up and down)
- changes of direction (fwd, bwd, swd)
- changes of rhythm & tempo
- creative movements and transitions

This is "what" she performs.

# **Rhythm & Tempo**

The rhythm and tempo (*speed/pace*) must be varied, sometimes lively, sometimes slow, but predominately dynamic and above all uninterrupted.

The transition between the movements and elements should be smooth and fluent:

- without unnecessary stops or
- prolonged preparatory movements before elements

The exercise should not be a series of disconnected elements.

#### **Artistic Performance**

When a gymnast demonstrates creativity, confidence of performance, personal style, perfect technique and varied rhythm and tempo, she transforms a well-structured composition into an artistic performance.

This is not "what" the gymnast performs, but "how" she performs.

#### 12.1 General

The evaluation of the exercise begins with the take-off from the board or the mat. Additional supports under the board (i.e. an extra board) are **not** permitted.

#### a) Mounts

- If the gymnast on her first attempt touched the springboard, or the apparatus.
  - Deduction 1.00
  - She must start her exercise
  - No value will be awarded for the mount
  - Deduction for "Mount without DV" will be applied (E-Panel)
- A gymnast is permitted a 2<sup>nd</sup> attempt to mount (with a penalty) if she has not touched the springboard or the apparatus.
  - Deduction − 1.00
- A 3<sup>rd</sup> attempt is not permitted.

D-Panel will take the deduction from the Final Score.

# b) Timing

The duration of the exercise on the Balance Beam may not exceed 1:30 minutes (90 seconds).

 The Time Judge 1 begins timing when the gymnast takes-off from the springboard or mat. She stops the clock, when the gymnast touches the mat upon completion of her Beam exercise.

- A signal (gong) will be communicated ten (10) seconds prior to the maximum time limit and again at the maximum time limit (1:30) to indicate that the exercise is to be finished.
- If the dismount lands at the sound of the second signal, there is <u>no</u> deduction.
- If the dismount lands after the sound of the second signal, there is a deduction for exceeding the time limit.
- The deduction for overtime will be taken, if the exercise is 1:31 minutes (91 seconds) or more.
  - − 0.10
- Elements performed after the 90 second time limit will be recognised by the D-Panel and evaluated by the E-Panel.
- Time violations are reported in writing by the respective Time Judge to the D-Panel Judges, who then take the deduction from the Final Score.

#### c) Fall Timing:

For interruption of the exercise due to a fall from the apparatus, an intermediate time period of 10 seconds is allowed.

- If the gymnast exceeds the allowable time to resume her exercise a – 0.30 neutral deduction for excessive time will be applied if the gymnast continues her exercise.
- Time Judge 2 begins timing when the gymnast is on her feet after the fall.
- The duration of the fall is timed separately; it will <u>not</u> be calculated in the total time of the exercise.
- The elapsed time during the fall will be displayed in seconds on the scoreboard.
- The fall period ends when the gymnast takes-off from the mat to remount the Beam.
- A signal (gong) will be communicated at the 10 second time limit.

- If the gymnast has not resumed within 60 seconds, the exercise will be terminated.
- No salute is necessary to resume an exercise after a fall.
- After remounting the Beam the resumption of timing by Time Judge 1 begins with the first movement to continue the exercise.

#### 12.2 Content of the Exercise

The maximum 8 highest difficulties including the dismount are counted for DV.

No DMT – 0.50 from Final Score (D-Panel)

Within the 8 counting elements there must be a minimum of:

- 3 Dance
- 3 Acro

and 2 optional elements

# **SECTION 13 – Floor Exercise**

#### **ARTISTRY**

#### **Artistic Performance**

An artistic performance is one in which the gymnast demonstrates her ability to transform her Floor exercise from a well-structured composition into an artistic performance. In so doing the gymnast must demonstrate a strong choreographic flow, artistry, expressiveness, musicality and perfect technique.

The main objective is to create and present a unique and well-balanced artistic gymnastic composition by combining the body movements and expression of the gymnast harmoniously with the theme and character of the music.

# **Composition and Choreography**

The **composition** of a Floor exercise is based on the movement vocabulary of the gymnast, as well as the **choreography** of those elements and movements, that is, the mapping out of the body's movements, both gymnastic and artistic, over space and time in relationship to the floor area and in harmony with the selected music.

The choreography should be developed such that one movement flows smoothly into the next with contrasts in the speed and intensity.

Creative choreography, that is the originality of the composition of elements and movements, means that the exercise has been constructed and is performed using new ideas, forms, interpretations and originality, thereby avoiding copying and monotony.

The design, structure and composition of the exercise includes:

- a rich and varied selection of elements from different <u>structure</u> groups in the Table of Elements
- changes of level (up and down)
- · changes of direction (fwd, bwd, swd and curves)
- creative or original movements, connections and transitions into acro lines

This is "what" the gymnast performs.

#### **Expression**

Expression can be defined generally as the attitude and range of emotion exhibited by the gymnast with both her face and through her body. This includes how a gymnast generally presents herself and connects with the judges and the audience, as well as her ability to control/manage her expression during the performance of the most difficult and complex movements. It is also her ability to play a role or a character throughout the performance. In addition to the technical execution, artistic harmony and feminine grace must also be considered.

It is not only "what" the gymnast performs, but also "how" she performs her exercise.

#### Music

The music must be flawless, without any abrupt cuts, and must contribute a sense of unity to the overall composition and performance of the exercise.

It should flow and must have a clear start and clear finish. The chosen music must also help to highlight the unique characteristics and style of the gymnast. The character of the music should provide the guiding idea/theme of the composition.

 There must be a direct correlation between the movements and the music. The accompaniment should be personalised to the gymnast and must contribute to the overall artistry and perfection of her performance.

# Musicality

Musicality is the ability of the gymnast to interpret the music and to demonstrate not only its rhythm and speed, but its flow, shape, intensity and passion.

The music must support the performance and, through <u>her</u> movements, the gymnast must convey the theme of the music to the-judges and the audience.

#### 13.1 General

#### a) Music Requirements

- The Floor exercise music will be given to the competition administration. Each piece of music will be timed; said time will be approved by the administration and the delegation head coach.
- The following must be included:
  - The name of the gymnast and the 3 capitalised letters used by FIG for the country code.
  - The name of the composer and the title of the music.
- The musical accompaniment with orchestration, piano or other instruments must be recorded.
  - A signal or tone may be used at the beginning of the recording. However, the name of the gymnast may **not** be spoken.
  - The human voice may be used as a musical instrument without words:
    - Examples of the 'human voice' as an acceptable instrument are: humming, vocalising without words, whistling, chanting.
    - Any music which is not clearly a song or part of a song is accepted.
  - Absence of music or music with words 1.00

Note: Taken by the D-Panel from the Final Score.

In case of doubt, the federation/gymnast may submit music to the WTC for evaluation.

# b) Timing

The evaluation of the exercise begins with the first movement of the gymnast. The duration of the exercise may not exceed 1:30 minutes (90 seconds).

- The Time Judge begins timing when the gymnast begins with the first movement of her exercise.
- The Time Judge stops timing when the gymnast ends her exercise with the last position. The exercise must end with the music.
- The deduction for overtime will be taken if the exercise is
   1:31 minutes (91 seconds) or more 0.10.
- Elements performed after the 90 second time limit will be recognised by the D-Panel and evaluated by the E-Panel.

#### c) Border Markings

Exceeding the prescribed floor area (12 x 12 m), that is touching the floor with any part of the body outside of the border markings, will result in a deduction:

One step or landing outside of the boundary with a foot or hand
 - 0.10

Step(s) outside with both feet, both hands or a body part or landing with both feet outside - 0.30

Both time and line violations are reported in writing by the respective Time and Line Judge to the D-Panel, who then take the deduction from the Final Score.

#### 13.2 Content of the Exercise

The maximum 8 highest difficulties including the dismount are counted for DV.

No DMT – 0.50 from Final Score (D-Panel).

Within the 8 counting elements there must be a minimum of:

- 3 Dance
- 3 Acro

and 2 optional elements

The dismount is the last counting acro line (credit highest DV)

No DMT will be credited if only one acro line is performed.

# a) Acro Lines

- The maximum number of acro lines is 4.
- Any difficulty in additional acro line(s) will not be counted for DV.
- Any acro element performed after the last counting acro line will not be counted for DV.
- An acro line consists of a minimum of 2 directly connected flight elements one of which must be a salto.
  - Failure to land on the feet first from a salto will still be considered an acro line.

# 13.3 Composition Requirements (CR) – D-Panel 2.00

 A dance passage composed of two different leaps or hops (from the Code) connected directly or indirectly (with running steps, small leaps, hops, chassé, chainé turns), one of them with 180° split (cross or side) or straddle position

award 0.50

(The objective is to create a large flowing and traveling movement pattern)

- No jumps or turns are permitted because they are stationary. Chainé turns (½ turns on two feet) are allowed because they are traveling steps.
- Leaps and hops must land on one leg if performed as the 1<sup>st</sup> element in the dance passage.

| 2. | Salto with LA turn (min. 360°) | award 0.50 |
|----|--------------------------------|------------|
| 3. | Salto with double BA           | award 0.50 |
|    |                                |            |

4. Salto bwd and salto fwd (no aerials) in the same or different acro line

award 0.50

Note: CR 2, 3 and 4 must be performed within acro lines.

# 13.4 Connection Value (CV) - D-Panel

- a) CV can be awarded for indirect (acrobatic) and direct (acrobatic, mixed, turns) connections.
- b) The CV will be added into the D-Score.

**Indirect connections** are those in which directly connected acrobatic elements with flight phase and hand support (i.e. round-off, flic-flac, etc. as preparatory elements) are performed between saltos.

Note: Acro elements for CV are without hand support only.

### **WAG COP modifications for Junior Competitions**

#### The **2022 Code** is designed to:

- be utilised at all international competitions under the official jurisdiction of FIG, its Member Federations and Continental Unions, namely Youth Olympic Games and other Multisport Games, International Competitions and Tournaments as well as special events created by FIG.
- standardise the judging of the four phases of FIG official competitions:
   Qualification, Team Final, All Around Final and Individual Apparatus Finals.

For Junior Competitions, the 2022 Code with some modifications should be used.

#### 2.1 Rights of the Gymnast

#### 2.1.2 Warm-up

- In Qualifying, Team Final, All Around Final & Apparatus Finals each competing gymnast (including substitute of injured gymnast) is entitled to a touch warm-up period immediately prior to the competition on the podium (see Section 2 – Warm-up).
   The maximum warm-up time as per FIG TR 4.11.8
- In Apparatus Finals: Warm up in 2 groups

#### **NOTE:**

- In Qualifying and Team Final the entire warm-up time belongs to the team except Vault. The team must pay attention to the elapsed time, so that the last gymnast receives a warm-up.
- In mixed-groups the warm-up time belongs personally to the gymnast.

#### 7.2 Difficulty Value (DV)

<u>DV Restriction</u>: If performed "F", "G", "H", "I" or "J" elements the maximum value of 0.50 for each element may be rewarded.

# 7.3 Composition Requirements (CR) 2.00 P.

Composition requirements are described in the respective Apparatus Sections. A maximum of 2.00 P. is possible.

 One element may fulfil more than one CR; however, an element may not be repeated to fulfil another CR.

#### 7.4 Connection Value

Formulas for CV are described in the respective apparatus Part 3: Sections 11, 12 and 13. (DV Restriction will be taken into consideration).

DMT Bonus will not be awarded.

#### 10.4 Requirements

- The **intended** vault number to be flashed (manually or electronically) before the vault is performed.
- In the Qualifying, Team Final and All-Around:

One vault must be performed.

- In Qualifying, the 1st vault score counts toward the Team and/or All-Around total.
- The gymnast who wishes to qualify for the **Apparatus Final** must perform 2 vaults as per the **Apparatus Finals** rules below.

#### Apparatus Finals

• Gymnast must perform two different vaults (<u>maybe from the same group</u>, <u>but with different numbers</u>), which will be averaged for the Final Score.

#### 10.4.2 Specific Apparatus Deductions (D-Panel)

All vaults are illustrated with a number.

There is no penalty, if a different vault than the flashed vault is performed.

- Support with one hand (taken from Final Score)
   2.00 P.
- In the Qualification for the Apparatus Finals & Apparatus Finals
  - when 1 of 2 vaults receives "0" points (10.4.3)

**Evaluation:** Score of the performed vault divided by 2 = Final Score

#### **SECTION 14 – TABLE OF ELEMENTS**

Following elements are prohibited for performance:

- VT vaults with sideward take-off or landing.
- UB salto & DMT with take-off from two feet.
- BB dance elements with cross sit landing on BB.
- FX acro elements with sideward take off and/or landing into roll.

- 1. **BASIC SYMBOLS** for All Apparatus
- 2. 6. **UNEVEN BARS** Apparatus Specific Symbols
- 7. 13. **BALANCE BEAM AND FLOOR** Apparatus Specific Symbols
- 14. 15. **VAULT** Apparatus Specific Symbols Examples for Vaults in Group

**NOTE:** For logical reasons, the sequence is not in Olympic order.

The presentation begins with the basic symbols for all apparatus – hangs, supports, handstands, leaps-jumps-hops, leg and body positions and turns around the breadth, long and median axes.

Apparatus specific symbols and element groups for Uneven Bars are treated separately; however, Beam and Floor specific symbols, common dance and acrobatic elements are handled in the same section. Vault specific symbols and examples for vaults in each of the groups are featured in the last section.

Through a combination of the basic symbols and specific symbols, practically all elements can be recorded, even those that are submitted and performed for the first time.

#### **PREFACE**

#### The History of the Development of Symbol Notation

In 1979, for the first time, the FIG Women's Technical Committee published symbols for Women's Artistic Gymnastics for the principle elements.

During the time period from 1980 through 1986, the symbol notation underwent extensive practical testing, with a goal toward perfection in keeping with the evolution of gymnastics. All exercises executed in official FIG Competitions (Olympic Games, World Championships, World Cups and the Senior and Junior European Championships under the jurisdiction of FIG) were recorded in symbol notation by the Scientific Technical Collaborators (STCs), then checked by means of video analysis. Thus, a systematic analysis was developed. Through use of the recorded exercise content, the WTC was able to monitor the developmental tendencies and their resulting indications for continual improvements in the WAG Code of Points.

In 1985 a supplement was published and in July 1986 the first symbol publication entitled "Proposal for the Introduction of an International *Symbols Language* for Women's Artistic Gymnastics" was published. Then, in 1990/91 the FIG issued a *Video Film and Brochure* for learning and practicing the Symbol Notation in WAG. The *Video*, as well as the accompanying *Brochure*, was prepared by Ms. Margot Dietz – GER, who was entrusted with this task by the governing President of the FIG/WTC, Mrs. Ellen Berger. Based on the realisation of this sophisticated development of the symbol system, the appropriate symbol for each element and its variation appeared in the 1993 edition of the Code of Points for the first time.

Since 1999 the *Symbol Notation Brochure* has been updated and formatted with computer symbols by Mrs. Linda Chencinski to reflect the development of new skills.

With the constant progressive and exciting development of new elements in WAG, the WTC is pleased to publish the 2021 update to the *Symbol Notation Brochure*, with the objective to provide a uniform official revision for judges throughout the world of gymnastics. The WTC hopes that this updated brochure will assist judges in:

- accurately recording all elements performed
- quickly establishing the content of the exercise
- communicating with fellow judges from the various language groups and
- most importantly, to recall dynamic and modern exercises in their entirety during competitions.

The pictures are meant to serve as a guide and are not all inclusive.

More advanced, more accurate and in real-time. Fujitsu's 3D sensing technology accurately analyzes and digitalizes the technique of world class gymnasts, which is very hard for the human eye to follow.

Fujitsu's 3D laser sensor irradiates 2 million lasers per second, and generates 3D data on gymnast's performances in real time, then AI recognizes their joint positions and analyzes the movements. Digitalization of human movement will enable us to create a new future for sports; for athletes, spectators/audience and judges. Fujitsu will continue to evolve the gymnastics world with its cutting edge technologies.
