## VANCE CLINIC OF CHIROPRACTIC

## Informed Consent To Receive Chiropractic Care

To the patient: As required by law, please read this entire document prior to signing it. It is important that you understand the information contained in this document. Please ask any questions before you sign if there is anything unclear.

## The chiropractic adjustment:

The primary treatment used to treat you at Vance Chiropractic Clinic is spinal manipulative therapy. The doctor of chiropractic will assess your joints for any subluxations and will then put his hands on specific joints in order to remove the subluxation. During the adjustment, there may be an audible "pop" or "click", much like when you "crack" your knuckles. You may feel a sense of movemeftit in that area.

The material risks inherent in chiropractic adjustment:
As with any healthcare procedure, there are certain complications which may arise during chiropractic manipulation and therapy. I understand that in the practice of chiropractic there are extremely minimal risks to treatment, including, but not limited to: strains and sprains, disc injuries, fractures and stroke. Some patients may feel some stiffness and soreness following the first few days of treatment. We will make every reasonable effort during the examination to screen for contraindications to care, however, if you have a condition that would otherwise not come to my attention, it is your responsibility to inform us.

The probability of those risks occurring:
Fractures are very rare occurrences and generally result from some underlying weakness of the bone which is checked for during the taking of your history and during the examination. Stroke has been the subject of tremendous disagreement. The incidences of stroke are exceedingly rare and are estimated to occur between one in one million and one in five million cervical adjustments. The other complications are also generally described as rare.

## At Vance Clinic of Chiropractic your best interest is at the core of our treatment.

I have read the above explanation of the chiropractic treatment and related treatment in its entirety. I have discussed any questions with Vance Clinic of Chiropractic and they have answered them to my satisfaction. I wish to rely on the doctor to exercise judgment during the course of the procedure for which the doctor feels is in my best interest. By signing below I state that I have weighed the risks involved in undergoing treatment and have decided that it is in my best interest to undergo the treatment recommended. Having been informed of the risks, I hereby give my consent to that treatment.
