Call 911 - Police officers can come to your house and do a quick assessment, and if necessary, take the person to a Baker Act Admitting Facility for the person to spend 24-72 hours in a safe place.

Or Call your local county's Baker Act Admitting Facility.

Then, contact your clinician. If the clinician is not there, please leave him/her a voicemail. If the clinician accepts text messages, you can leave a text. Please understand that if it is after hours, the clinician may not be able to return your call right away, but please leave a message.

WHAT TO EXPECT

Sessions are scheduled with your therapist, and the frequency/ duration depends upon your needs and the therapist's schedule. We will try our best to accommodate your schedule. Most therapists require that they meet with the client alone, in a private area, even if it is via Telehealth. Adults must be present in the home in order for the therapist to perform in-home services; however, we ask you to respect the therapist's techniques and skills and to ask questions, if uncertain.

Finding the right therapist is a process. Sometimes the therapist assigned does not match your needs. Simply email us at referrals@lukascounseling.org and let us know. We will try our best to re-assign you to someone else. Nobody will be offended; we just want to make sure you are happy, and we find the right therapist for you amongst our 100+ staff.

Therapists reserve the right to close your case if they feel you are non-compliant with therapeutic activities or company procedures. If so, we will refer you to another agency. Therapists cannot transport you.

Verification of Sessions - Therapy sessions require that the therapist either have you sign a Verification Form (if the session was in person), or a screenshot (if it was via telehealth). This is an internal quality process, and your information is always protected and kept private.
