Circuit Court Judge

Dear Judge Walker,

It has come to my attention that a longtime friend of mine, Michael Parsons, is to appear in your Court this coming Friday, 1 September 2017, for sentencing for apparent honestly and legally unsupported crimes brought before you. I previously, in April 2016, prepared an Affidavit concerning my relationship with Mike and my experiences and evaluation of his mental and emotional state; and I believe you received a copy of this. In case you did not, a copy is attached. Nothing has changed since then, and those who have received a copy have not bothered to challenge this Affidavit at any time since then or to inform me of such. It therefore should stand as truth until such time as it is challenged point by point, and I do not consider a 30 day period from date of receipt an unreasonable time to do so before it is accepted as truth, yourself included.

My attached Affidavit explains my relationship and friendship with Mike. In my past military experiences, I have worked at the highest levels of Air Force command including directly for the Vice Commander of Headquarters 7th Air Force which ran the air war in Southeast Asia and directly for the Deputy Chief of Staff for Plans and Operations on the Air Staff in the Pentagon. I provide this information to show you my past, and hopefully add credibility to my input to you, and to help you understand why I would not choose to associate or be friends with an individual who was less than intelligent, honest, hard-working, or honorable.

As I bring this information to your attention, I submit that it is high time that the truth be recognized and that someone step forward who will allow and see that true justice prevails. Having, myself, served almost two years in Southeast Asia air combat operations and having been decorated with the Silver Star, two Distinguished Flying Crosses, the Bronze Star, and 16 Air Medals placing my life on the line numerous times to do so, it grieves me that I may have done so to support a Constitution and a governmental system that has become corrupt and allows injustice such as this to exist and carry the day.

The ball is in your court, Judge Walker; and I challenge you to do what is right by Mike. If lies and false accusations are allowed to carry the day, I would not want to be in the shoes of those who do so when the Lord exercises His vengeance against them—and their families even unto the third generation. It will certainly be a black day.

Sincerely,

Alfred Q. Campbell, III

RE

State of Tennessee

County of Wayne

To: Whom it May Concern

Subject: Mental and Emotional State of Michael Parsons

I, Alfred Q. Campbell, III, do affirm that the following statements in support of Michael Parsons of Tipton County Tennessee are the truth, the whole truth and nothing but the truth.

It has come to my attention that certain elements of the law enforcement and judicial communities of Tipton County Tennessee are in the process of attempting to have a personal acquaintance and friend of mine, Michael Parsons of Tipton County Tennessee, identified and declared some form of hostile and perhaps uncontrollable and violent individual.

For the record, I first met Michael Parsons several years ago when he was released from prison on parole. I have had numerous social meetings with him since then and have had him supply me with building materials on several occasions for a new home that I was building at the time. I also visited him back in prison monthly while incarcerated in my local area. Based on my personal association and experiences with him, I have never once been led to believe that Mike has a problem with anger, hostility, uncontrolled or violent actions, or anything that would indicate that he would or could be a threat to the safety and well being of those around him, nor have I seen such actions from him. If so I would not have continued my association and friendship with him.

Mike is an honest, intelligent, hard working individual with a number of professional credits to his name. He has a deep interest in public service and previously ran for elected public office in Tipton County Tennessee. This appears to be the basis for his original imprisonment because he just happened to challenge the wrong group/crowd behind the scenes. It appears this same group/crowd successfully maneuvered to get him back in prison, before new and upcoming elections, with a contrived parole violation when he was doing everything he could to strictly comply with the conditions of his parole release. He was not a threat to any of them. Now that he has spent his time in prison, it appears this same group/crowd wants him back in prison on a more permanent basis so that he cannot challenge them again.

Mike in no way is a threat to the safety and well being of those around him; and anyone that says otherwise does not know Mike, has not spent any quality time around him trying to get to know him, or has another agenda in mind in dealing with him. Certainly lying, even under oath, to support a contrived and false agenda would be expected.
