

by "The Light" 23 June 2018, Saturday — 2d day of summer.
(1 John 2:10) (v. 15) ☺

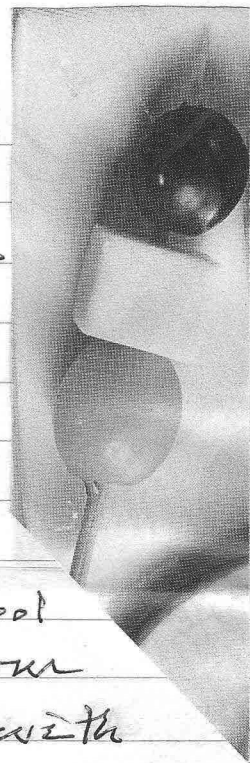

my dear friend & brother Will,

In His glory, Greetings! ☺ Privileged
for sharing in His work — Thank you, Thanks
to our Lord Jesus, the Christ, Amen. I trust
all of the crops entrusted to you for water for
life are enjoying a good season — green and
growing. ☺ And you and yours are in His
perfect care.

Here, of recent, we've been blessed with cool
weather and His good comfort no matter our
circumstances. I pray you to be blessed with
His good pleasure — Romans 8:28. ☺ My prayers
are with you, with all of our friends across the land.
Special care for those in the One-Star state as
the enemy has sought to complicate their lives
a bit. Surely like "Job" we shall all do well for
standing firm on The Word — Amen.

Here we do see signs of stress on the oppressors.
They seem to have more and more difficulties,
as their transgressions catch up with them. Even
the dogs turn on dogs and find themselves biting
each other. As Proverbs reminds the way of the
oppressor is "HARD" and The Lord is not mocked.
Our King lives forever! ☺ Soon we shall sing the
new song. Our Redeemer lives!!! And He it is Who is
the mountain mover. Halleluyah!

I avoid consuming the devil's propaganda on Tee-Wee and
radio. Such is a design for taking our focus off
from Jesus, The Word. And I've witnessed 1st hand
it generally works, all too well.

We are all right where The Lord wants us to do exactly what he intends we are to do. Best we listen and watch and do our best for answering The Lord's will for our lives, that we might serve well.

A prayer for everyday tasks:
 "dear Jesus, stand beside me.
 Guide me and direct my life;
 Teach me what I need to know;
 Help me with my work;
 That I may serve thee and others; And
 That I may be counted worthy of thy mercy
 and grace. Amen.

It is a daily and throughout the day help — may it bless you, as well, Will!

I'll bet the 4 kids are growing like weeds. Am I close? I've shown them to some here. They're a hit. I've mentioned them in letters for my grandchildren with copies of the pictures. I know they'd like to meet them and pet them.

Turn out my letters all combined would be my journal over the last 23 years. With legal writings (smaller part) and letters best estimate is over 75,000 pages. I've written nearly every day and generally several pages each day. Seems like a long time ago I whizzed past 50,000 pages. Suck by each anything is a search. Our heart great left behind. When this mess started we had no idea it would last this long. I am and I know what it takes lawfully and legally to be freed. We did not consider the corruption and dishonor. 10s of 1000s of people have suffered false imprisonment. Perry Mason is fiction in 1936. John 10:10. Our Jesus is our hope!

Do you find yourself baling hay and straw or do you buy your needs from a friend who does? It is easy remembering putting up 1000's of bales farming and ranching in my earlier days. My father, 2 uncles and grandfather put up 5000 bales of hay, plus straw every year and in my youth there were lots more as I hired out.

\$1 per hour. Later \$1.25 per hour. I started driving the tractor (F-20 Farmall) on the baler the summer I was 7. To supervise me, my father loaded bales (all that summer). By 12 I was loading them. Cowboys start early. We even baled soybean straw in the fall. Our old 45 International baler kept going and going --- It rests in the pine grove where my grandfather loved, but I knew. It rests and rusts. Memories it's still bright red, in the dust and smell of hay all around it.

One year, 16, I caught a scramble calf on a very muddy night at the Butler County Fair - raised her and hated to sell her a year later. I do know how it is to grow close to our livestock. We had 100's of cattle but she was special. I felt like I betrayed her. Some of those feelings linger. Like my ancestors all the way back to Abraham, our cattle were an important part of our lives. I've seen in your letters and photos, well, you can relate. God blesses you. Our heart in it is proof of that. I love it!

The song is wrong. I did not "leave my heart in San Francisco". It's much simpler than that. Our memories [a Gift from The Lord, our Creator. (Proverbs 3:5, 6)].

Longest day of 2018, now past. A few minutes of daylight less each day until last week of December. Meantime crops grow toward maturity. The Lord's purpose one day at a time. Yet we enjoy His presence ours always, thanks to the victory He alone has secured.

← This image reminds me of the Smokey Mountains around Murphy, North Carolina; Franklin, North Carolina and surrounding areas. That is a beautiful area. Unique, not the same as the Rockies. Majestic blessings!

Blessed, as I write, 7:45pm, I'm enjoying a soup with oatmeal, rice, Maker's and seasons. This, as we had a very poor supper. I am so thankful to have this! ☺

A fellow traveler has loaned me a book: "Fighting In Hell" a documentary based on interviews with 4 ranking German officers about fighting the Russians in WWII.

by "The Flight" 24 June 2018, Sunday Blessed with more cool outside, so cool as I sit and write. ☺ I'm seated at a study carrel that originally was design for individual computer station. Then had a small DVD player. Never a computer here. Now its a good place for writing, reading, etc. ☺

These people are all required for having signed Office of Management and Budget (OMB) Form 61 "Oath of Office" contract before entering office of employment under indemnity bond.

5
Every one who works in capacity of a federal employee

MUST have a signed, notarized FORM 61 on file and MUST be bonded through the Insurance Commissioner for assuring that they fulfill their duties for upholding the U.S. Constitution. Thus, when they violate that contract there is surety for settling the "tort" damages they cause us. When they get by with it they may feel safe but when just "one" injured party registers the complaint via the protocol and shows that after "Notice" they have perjured ~~themselves~~ their oath they are "FINISHED", bond shall be revoked and they will be fired, lose all employee benefits and be "unemployable". There is our remedy! This is in the fryer pan. Pray for provision and protection and total results.  Nuf is enough! (Several details but Humpty -  Dumpty will have a great fall.)

We are all called for prayers for each other. There is His great power and love even so effective friends in Texas, Illinois, Minnesota, North Carolina, Montana, Germany, Australia, etc. All in need of our prayers. Our family in Iowa, North Carolina, California, Utah united with others a powerful prayer begun - Our Lord Jesus, the Christ is there for us.  Pray all turn off the TV and turn to Christ in prayer and study of the Written Word (AV/KSV). Blessings brother Will!

Faith is the substance of things hoped for, Heb. 11:1.

There are mountains moving in His promise and thus we see the blessings. I would love to share details but the prying eyes shall not prevail. We do not know the future but we do know Him who holds the future in His hands.

Surely you and yours are in Jesus provision and all is working for the good of those who love God - Amen (Romans 8:28).

Brother Will, bless you this day and all days, even unto all eternity.

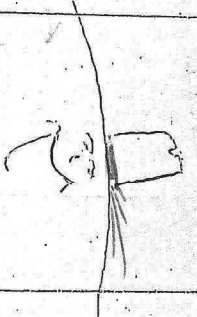

with love of Christ,
privileged and pleased
to serve with you!
