terry527 there's a little more that applies to Parsons that makes it a Class C felony (he was already convicted of felony aggravated assault in 2009 and was on probation when this charge was brought): (b) (1) A person commits an offense who unlawfully possesses a firearm, as defined in § 39-11-106, and: (A) Has been convicted of a felony involving the use or attempted use of force, violence, or a deadly weapon; or (B) Has been convicted of a felony drug offense. (2) An offense under subdivision (b)(1)(A) is a Class C felony.

Love know-nothing, know-it-all like the author and first commentor speaking from a self-admitted platform of gross ignorance. I worked for the National Security Agency for almost 30 years. I found that the Department of Homeland Security has auspices over the FBI created Fusion Centers in each state. They were created after 9/11 so that Feds and local Leos would share info and another 9/11 would not happen. But there were not at all enough real "terrorists" among us to justify their enormous budgets and reach. So they created terrorists... from you and me. The criteria for declaring someone a potential terrorist was lowered to LESS than probable cause. So essentially with a wink and a nod, you can put someone on the terrorist watch list for secret accusations they never know about and cannot defend against. An order for a falsified dossier of crimes is ordered up at the main Fusion Center, then it is sent to the victim's nearest Fusion Center. See recent Info Wars interview with Bernhoft from BernhoftLaw.com . Then Fusion Centers "target" them for surveillance. Well, "surveillance" is not surveillance, it is organized "Zersetzung" style vicious and intended lethal harassment. Civilian volunteers join

"Infragrad" to help protect "das Vaterland"... but they are actually paid with your tax money laundered through Lockheed Martin (skill: William Patrick Cox home business). You can even be targeted for your bumper sticker... like "Deut 27: 24-25" or "2 Chor 7:14". Hmmm. Or "Support the Constitution". That makes you a domestic terrorist. Starting to "get it"? The MORE of US on the Watch List, the bigger THEIR budgets and the greater the power of these local potentates. Once SECRETLY declared a terrorist, you can be SECRETLY sold into a contract to test lethal war grade poisons, gasses, and oh, yeah, the very same weapons being used on American diplomats in Cuba and China that gave them brain damage, vision damage, etc. DEWs. Microwave, electromagnetic, heterodyning, etc. Those are not metely "sonic weapons", they are mobile Directed Energy Weapons, DEW. Non-lethal weapons given out like toys to local police are DEWs and can indeed kill. (Did I mention I worked for 10 years in the NSA Weapons & Space Directorate? So unlike you, I actually know what I am talking about). Look up the story of NSA agent Mike Beck, he was attacked with DEW in the 1990's. But NSA has betrayed him and refuses to acknowledge his injuries nor provide him disability support because that would require them admitting these weapons exist. And NSA uses them too but not in a legal or sanctioned way... because they are invisible and they can get away with it. (Ironically, some well-connected criminal gangs now have them to from working with intel as their murderous domestic proxies.) The great weapons race now is DEW. Big ones can wipe out entire cities, buildings, battle ships, burn up states... hmmm. Small ones can be used to pinpoint assassinate people the government finds "inconvenient". But OUR government would not do that, right? No, of course not? Our government would not choose to load innocent people onto a "Watch List" to have a roster of people to declare terrorists then strip of their Constitutional, human, and civil rights in order to propagate the "sky is falling" false terrorist narrative to take away all of our rights, eh? They would not create hundreds of thousands of scapegoats to deny their rights and humanity in order to have a false enemy in perpetuity, right? Police, judges, bankers, business people, neighbors, etc. are lied to by Fusion Center goons with badges to either butt out or help them viciously harass the fake terrorists. Many are ganged up on, attacked, then sent to prison or mental institutions so that they can be further violated and experimented on for grotesque purpose that would shock even Orwell. Mike did nothing but defend himself, this is not "the consequences of his own actions". This is the Antichrist machine infiktrating and enveloping our country and our government and we are falling for it just like the Germans sucked up Naziism in the 1930's and 1940's, as unquestioning, ignorant sycophants and partook in some of the worst crimes against humanity the world had ever known..l until now. So I suggest you pray for actual Godly discernment in place of your arrogant, judgemental ignorance, and you may want to actually pick up your Bible and learn about prophecy and the state of apostacy and "self"-righteousness" that ushers in the Antichrist. Mike is a voice of warning crying from the wilderness. There are many out there, but the Antichrst machine is telling you, "Go back to indulgung yourselves, nothing to see here." I suggest you find and fill that oil lamp pronto, my little dears, or be "left behind".
