dear sister & friend Therese,

I was truly blessed, so thankful when I received your wonderful letter and ICR enclosures last evening. At the moment I am persecuted, in the hole, allegedly for sharing commonly available, legitimate information with others. Like the Apostle Paul one must endure all things.

I am cut-off from our Christian brothers and sister in Texas and in Kansas. It is good they know it is not my choice. Suppression of TRUTH is the way of the wicked. All are in my heart and prayers none-the-less.

Isn't that something how the people are reaching back for the land; Homesteaders. I truly enjoy your sharing of their search and purposes. I am quite familiar with the Asheville - Charlotte area. It is beautiful. It stirs good memories as you reflect on the red-clay, as well. The creation is dressed just right.

Dr. Joel A. Wallach and his wife advocating the 90 essential elements of life, more evidence of the precision our Creator has vested in the entire creation. It is ever so wonderful.

I truly thank you Therese, for "SABOTEURS" and the wonderful Journal - I read "SABOTEURS" and had a fellow traveler reading it when this nonsense came. I started journaling, as well. This too will pass. I am so very thankful for the blessing. The SABOTEURS is on-point 100%. Satan EXPOSED.

Sometimes it is not just delays with mail. Sometimes it is total block. There is no assurance our mail ever gets to the post office. I never stop trying.

There is little attention paid to books as long as I store them in the locker.

The Creation Magazine is also an opportunity for sharing with others - I have them read it and then discuss it. I believe it is meant to be. You are right about the nonsense of Darwinian accidental reality cursory education. Real materials like Creation Magazine are door openers.

It appears there are Congressional people and others who are seeing the massive destructive force of this \$\$\$ via false imprisonment of millions of people for things their grand parents would NEVER have even faced arrest.

Isn't it great? I started Amy and her brothers (2) by taking them fishing when they were little. The quarry she fished recently is so clear they can see the bottom and often the fish before they strike. The "Fish-whisperer" is quite a story. He's obviously a guy with heart. The under water camera a special treat.

Those bullheads that cracked you up were at Waterville, right there in south central Minnesota. My cousin and I caught bullheads yearly for a few years at the Rodman family reunion (my mother's folks) in Fredericksberg, Iowa. We lived for that fishing in those years. (9 to 14) I'd guess we were. ~~the~~ the bullheads are "eating-machines" for certain.

I pray the folks at the center get back their outings. That is so much of what their lives are all about. A boost for health and spirit. Money does not satisfy nor last. Good times and memories do.

Sadly I could show how one can be self-insured. No need for Obombercare nor medicare. The monsters hate TRUTH.

It's all ours to begin with. I spent years as a licensed Principal in securities business - the TRUTH is hidden from "The People". The people are DEFRAUDED so the BANKSTERS can steal from us. All opposite what people are led to believe. It is ALL a set-up! ALL a LIE!

They crucified our Ford for revealing the TRUTH. Still he was 100% correct, John 8:32, "Ye shall know the TRUTH and the TRUTH shall make you free." Freedom is not just exterior circumstances; It is "inside" of the heart, of the Spirit.

Sounds like the ownership of the Dr. Living facilities is not connecting the dots between excellent services and real profitability. Cutting services sure to result in negative energy and the reduction of profits. Cutbacks will result in cuts in new customers, thus lower income and profits. (Am I too simplistic?)

People who are quitting are reacting to the negative energy which is generated by the owners' negative energy, it seems. New owners are, it seems, showing a lack of understanding of fundamental principles. One cannot expect the fireplace to put out heat if he does not put in the wood first. In a service business, the services are the "wood".

Our middle daughter is a single-mom, Director of a Women's shelter. I encouraged her from the beginning, "This is your ministry; Your opportunity for standing up for Christ!" She has sincerely cultivated it as such and enjoys accolades for her success with the people. In Christ all things are possible. She's been called for soon speaking at US Senate Committee on judicial and criminal justice reform and participation in meetings. Her power-point presentation (part of her ministry) highlights mine and other egregious cases. We'll see what The Ford has in store.

Today I am much better than last few days, none-the-less, confined in this concrete and steel bunker I and fellow travelers have suffered sore sinuses and chest congestion. The pathogens must be in the air. Probable ~~air~~ air filtration is not maintained as is required for healthful conditions. All hidden from most people. It is just like USSR and NAZI occupied territories during WWII. ~~It~~ Political prisoners commonplace on America.

Here, if I and others who know were wrong, they would simply ignore us. There would be no reason to pay any attention to us. Simple deductive reasoning tells all. If their premise were valid and true on a solid foundation there would be no reason to care about us, our mail nor anything we might write, say or do. Their hand of fraud is fully EXPOSED! ~~is~~

Dear Theresa, may all be well with you and yours. You are all in my heart and prayers! God is truly ever present with us. Our Victory sure dear friend!

with love of Christ,

dear sister Therese,

Hallelu Yah! Your Aug 6, 2019, package came in 13th and I've enjoyed reading and re-reading all. The lake photos of Colorado Alpine lake, so nice. I've never taken fish from them but have fond memories of horseback riding around them, camping near them — near heaven, I'm certain. And they are so pristine!

Still in the "hole" tho' their bogus investigation (red herring) turned up nothing of any legitimate consequence. I'm told they recommend return to CMU. Very strange and irregular turns of events. Our legal — honorable settlement and cause for liberty and the Supreme Court of the Chilcotin; Sat'1 Aboriginal Court EX PARTE ORDER on my appeal, ordering my immediate release, is being dishonored without cause. As I am Honorable Ambassador of the Chilcotin Nation to Scotland due "Diplomatic Immunity" their unlawful false imprisonment is a crime; violation of protected Rights and International Treaties. THIS IS ALL AGAINST MY WILL and THE LAW.

Sounds like the investor is trying to heat the room without putting the wood in the furnace or fireplace. Service business cut their own success short by slighting services. Satisfied clients equal good and profitable business. "Upset" clients equal failed business. So much fruitless pain for all concerned. Commonsense sorely lacking!

In 1992, Specialists gave my Dana 6 to 12 months to live. They (5 doctors) told her she had liver cancer. They wanted her to submit to exploratory surgery the next Wednesday. She told them she felt sorry for them as they each had billions of cells in their bodies and had declared someone would die in 6 to 12 months. She kindly declined the surgery and declared, "God is not done with me, I trust Him," and she left the meeting. One of the doctors caught up and offered his home ph. no. on his business card. He said I may have helpful references, but you must not tell anyone or I may lose my license to practice. (March 1992) She called and he referred her to Australian scientist Wayne Garland and world class lymphologist Dr. Tom Smith of Idaho. She contacted them and followed their dietary instructions with supplements they sent her. A follow up exam in May showed her cancer free. Two of the 5 doctors who spoke death died within that year in their 40s. Could it be that God and trust in Him is superior to drug therapy and the AMA? ☺

Thank the Lord our Kansas friends, etc. know of mail problems, etc. All are in my daily prayers. Jesus is ever present and cannot be blocked ever. Halleluiah!

The attacks on pastors, as in Texas, etc. are satanic. The Lord, not "they" is in total control at all times. The powers of darkness no match for "The Fight"! ☺

The total Victory in Christ is ours!

The so-called system (idol) is on tilt! It is doomed.  
Our hope certain in our Lord Jesus, the Christ. He is  
already victorious. Our day, our liberty, our eternal  
glory already sealed by his blood unto resurrection.  
He's in total control, Satan and his demons more  
than "de-plattformed"!

The Lord bless you  
and keep you,  
with love of Christ,
