

## WHO AM I?

*I understand more electrical systems than the man who wired your home.*

*The systems that I work on, exceed AT&T telephone.*

*I understand computerized electronics and more are coming yet.*

*The systems that I work on, exceed your TV set.*

*I work on hundreds of fuel systems that I understand and meter.*

*Each is more complicated than your furnace or water heater.*

*When it comes to refrigeration, the systems that I know are constantly changing, yet I can make them go.*

*The many hours I spend at school cannot be denied. Like your doctor or lawyer I'm licensed & certified.*

*Compare me to your doctor whose prices make mine meager Yet you admire and revere him and pay his bill with vigor.*

*No guarantee he gives you, you pay for what you get. Then come back and pay again if he hasn't fixed you yet.*

*The human body hasn't changed in several thousands years, and everybody stays the same from our ankles to our ears.*

*The tool I use to do all this won't get lost, wear out or break. I'm your educated*

***"Auto Technician!"***  
**RESPECT ME FOR HEAVEN'S SAKE!**

*The tool of which I speak, is*  
***"Knowledge"***
