

Message from the Chairman

'Education is the only power to bring the change we aspire for.'

Good shepherd schools were the initiatives taken by our management long time ago to make our vision 'Enlighten to Empower' Our Good shepherd school, Jeedimetla has been an organisation making a great difference in the field of education for the last 21 years. As one of the leading institutions in serving the village students, the school has been fulfilling all the needs of the day by being technologically empowered with time.

Most Rev. Dr. Joseph D'Souza

Message from the Principal

Over the next ten years as a school, it will be our mission to dig deeply into what educational cultures, processes and tools are available to extend and enhance these human traits in our students. It will be our goal to reorient our learning programs so that we help students develop a mindset of lifelong learning, to learn how to learn (not just what to learn), to learn to challenge themselves, to take risks, to persevere, to learn from failures and to have the confidence and courage to take on the unknown

The seeds of value education can be implanted first by the mothers. But schooling starts from a very early age nowadays. When the child is hardly three or four therefore the ones to inculcate value falls on the school.

We at the GSS help to nurture each individual with immense, love and care.so, that each child grows up morally, ethically, physically strong, joyful content, knowledgeable. Sincere and diligent and eventually bring out the best of their potential in being not only successful individuals of the society but also meet the day-to-day challenges of life and help in reducing poverty promoting sustainable development and of course building a good governance and nation.

With Inspiration, encouragement and blessings of the honourable management, constant cooperation and coordination of a hard-working group of extremely dedicated teacher's and the constant support and advice from a warm and friendly set of parents.

Even though we live in times of tremendous uncertainty and challenges, I have every confidence that as a school we will make an even more enriching journey over the coming decade. Knowing that change is the only certainty, together we will learn to engage with challenging and complex questions effectively and creatively. I move ahead with zeal and enthusiasm to bring up the school to a niche as I know that sky is the only limit, and I chase perfection to catch excellence in every sphere and I sail the ship to always reach the proper destination even if the weather is inclement.

With warm Greetings

Shipra Sanyal

Principal
